Retail sales totals in the 1980 *Survey* are updates from 1977 Census of Retail Trade benchmarks. However, in line with new Census Bureau policy, they no longer include: 1) sales and other taxes collected from customers, and 2) carrying charges or other charges for credit. Therefore, retail sales estimates in the 1980 *Survey* will not be comparable with those in previous *Surveys*. **SBP, SBP—II**

RETAIL SALES BY STORE GROUP (Columns 10-15, 30-38). Individual retail store groups are considered as channels of distribution in local markets. The retail sales total of a store type represents the cumulative sales of all products and/or services handled by the store, and not just the type of products associated with the store type. **SBP, SBP—II**

SALES ACTIVITY INDEX (SAI) (Column 39; U.S. State Summary on Retail Sales, B-7). It is obtained by dividing an area's percentage of national retail sales by its percentage of national population. Because the numerator (the market's percentage of total retail sales) includes all sales made in the market, and the denominator (the market's percent of national population) includes only residents of the market, a high index may indicate a strong influx of nonresident shoppers. **SBP**

STANDARD INDUSTRIAL CLASSIFICATION (SIC). Federal government censuses classify individual business establishments by the type of primary activity in which they are engaged. Retail outlets are classified as two-digit major groups, such as Food Stores (SIC 54); three-digit subgroups, such as Grocery Stores (SIC 541); and four-digit detailed industry groups, such as Retail Bakeries (SIC 5462). **SBP**

STANDARD METROPOLITAN STATISTICAL AREA (SMSA). The areas currently recognized by the U.S. Office of Federal Statistical Policy and Standards (OFSPS) meet official criteria that include either (1) one city with a population of at least 50,000; or (2) one city with a population of at least 25,000, which, when combined with contiguous places having a density of 1,000 or more people per square mile, will have a population of at least 50,000 (provided that the city and contiguous places are in a county or counties with a population of at least 75,000).

A contiguous county is included in an SMSA if at least 75% of the resident labor force is nonagricultural, and at least 30% of the resident employed workers work in the area. A contiguous county that does not satisfy those requirements will be included if at least 75% of the resident labor force is nonagricultural and if it meets at least two criteria of metropolitan character and one criterion of metropolitan integration. Minimum criteria of character: (1) 25% of population is urban; (2) population gain of 15% between two most recent decennial censuses; and (3) density of 50 persons per square mile. Minimum criteria of integration: (1) 15% of resident employed workers work in the area; (2) 15% of the county's employed workers live in the area; and (3) sum of workers commuting to and from the central county or counties equals 20% of the employed workers living in the county.

The OFSPS recently published new criteria that will be used when appropriate 1980 Census data become available. These are expected to result in the designation of a considerable number of new areas, including some which are now parts of larger SMSAs, as well as in changes in the county composition of existing markets (notably the removal of outlying units with low population density).

SMSAs are defined by the government along county lines except in New England, where towns and cities are the units of definition. The federal government's alternative, but unofficial, New England County Metropolitan Areas, comprised of whole counties rather than cities and towns, are used by Sales & Marketing Management for those states. All 300 metropolitan areas in the 1980 *Survey*—SMSAs, potential metropolitan areas, and the realigned New England areas—are commonly referred to as Sales & Marketing Management Metropolitan Areas. **SBP, SBP—II**

SUBURBAN TOTAL. There is no official definition of a suburb, and the category will not be found in any Census Bureau statistical table. However, because the suburbs are the most important local market entities, they were introduced in the 1976 *Survey*. A "suburban total" is the arithmetic difference between the metropolitan market total and the related central city total. That is, deducting the central city population from the metro market population, for example, will give you the suburban population. **SBP**

TELEVISION MARKET. The *Survey*'s TV markets are the American Research Bureau's Areas of Dominant Influence (ADI). ARB studies each county for its measurable viewing patterns. The market of origin of the TV stations with the largest share of viewing hours becomes the ADI name of that market, and all counties whose largest viewing share is given to stations of that same market of origin are grouped within the ADI. All of the U.S. is covered except for Hawaii and part of Alaska. **SBP—II**

DELTA
SYSTEM ROUTE MAP

Delta is an air line run by more than 35,000 professionals. Like John Owens, Captain.

John was a Navy pilot and flight instructor before joining Delta. He has flown for Delta for over 28 years. And he's flown everything from twin-engine props to jet age Wide-Rides. Like Delta's L-1011 TriStar.

The planes may have changed over the years, but John's philosophy hasn't. He works at giving his passengers a great flight from take-off to touch-down. That means checking out everything. Flight plan, weather, Air Traffic Control, approach charts, pre-flight check list.

When John's the pilot, there's smooth sailing ahead. It's been that way since his Navy days.

Delta is ready when you are.®

This is Delta's Wide-Ride® Lockheed L-1011 TriStar, with "living room" cabins 8 feet high and 19 feet wide. You fly in quiet luxury.

Data in this *Survey of Buying Power* are organized into four sections. The black index tabs along the right-hand edge of the book provide easy access to each section.

Section B

NATIONAL, REGIONAL, AND STATE SUMMARIES; METROPOLITAN MARKET RANKINGS

National, regional, and state summaries

Population and households B-3
Effective Buying Income B-5
Retail sales B-7

S&MM metropolitan market rankings

Population B-9
Households B-13
Effective Buying Income B-15
Median household Effective Buying Income B-17
Total retail sales B-19
Per household retail sales B-21
Buying Power Index B-23
Food store sales B-25
Eating & drinking place sales B-27
General merchandise store sales B-29
Furniture/home furnishings/appliance store sales B-31
Automotive dealer sales B-33
Gasoline service station sales B-34
Apparel & accessories store sales B-35
Drugstore sales B-37
Building materials/hardware store sales B-38

If your Co-op program's a circle of frustration, let ACB run it–and make more money for you!

Problems with Billings? Rate verification? Paying? Conformance? Hours and hours of time spent by to many people trying to make your Co-op work better And those hidden costs on top of it all—how much do *they* run?

Let ACB take over and change frustration into success! ACB will do *all* the nitty-gritty work for you—the planning, checking, auditing, paying and reporting.

And ACB will give you complete Co-op control for fa less than doing it yourself.

You see, we're the largest, most experienced Co-op audit, payment and verification service in the country, handling more than 600 plans, processing more than one million claims every year.

So break the circle of Co-op frustration and let your Co-op make money for you. Call your nearest ACB representative. Or, if you'd like more information first, send for our comprehensive Co-op Booklet 500 A.

CO-OP PROGRAM

You can't beat experience.

ACB The ADVERTISING CHECKING BUREAU, INC.

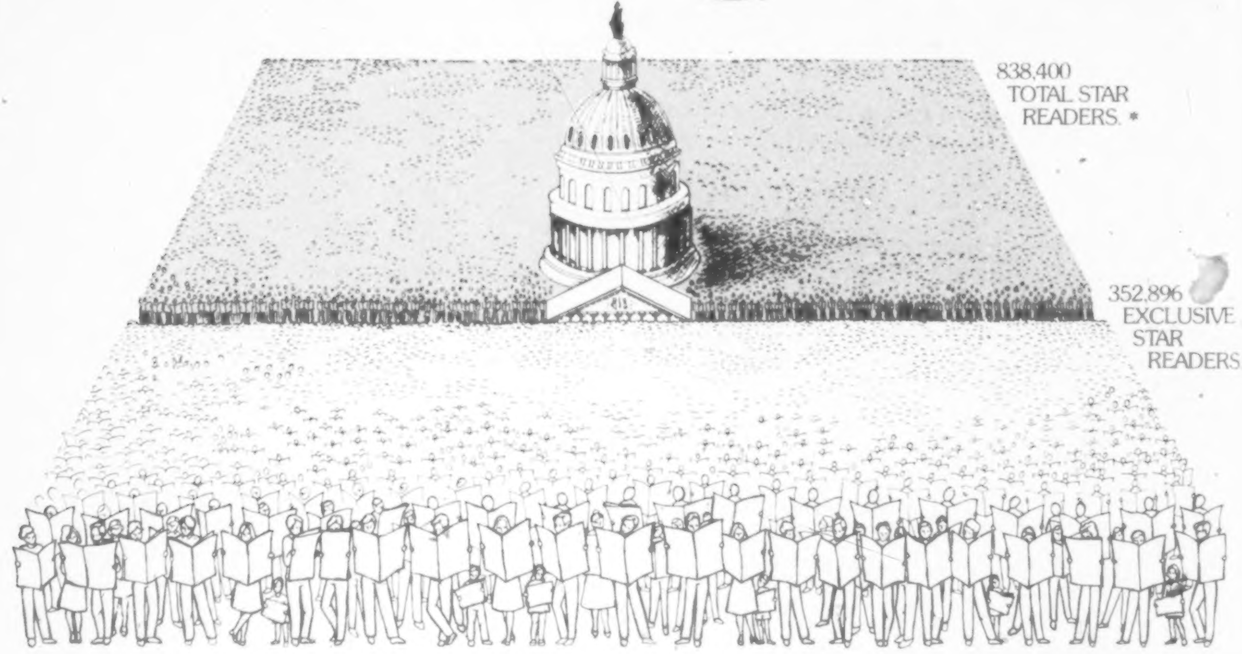
You can't capitalize on Washington, D.C. unless you buy The Washington Star.



Add The Star to your buy and add 350,000 exclusive readers.

Washington, D.C. It's the biggest newspaper reading market in the country. And it's definitely a two-paper town.

So, if you don't advertise in both Capital newspapers, you're missing out on some pretty big numbers.

Because only 22% of this two-paper town reads both The Washington Star *and* The Other Paper. So, adding The Star adds another 350,000+ consumers to your buy. And that's 350,000+ prospective buyers for your products.

If you're going by the numbers, buy all the numbers.

Call the National Advertising Manager at The Washington Star—Bob Booth at (202) 484-4641.

He'll help you make the necessary Capital improvements in your media plans.

* Source for all numbers and figures: Response Analysis, June, 1980. Member: Million Market Newspapers.

The New Washington Star

1979 REGIONAL AND STATE SUMMARIES OF RETAIL SALES

THE MEDIA PLANNER'S GUIDE TO THE WALL STREET JOURNAL.

Every business day, all over America, The Wall Street Journal reaches the nation's most important audience. Leaders of business, finance, and government. Active investors. The people who shape markets and influence opinions.

These influentials count on The Journal to provide the news and information they need—when they need it most—comprehensively yet concisely.

That's why The Journal is essential reading for America's decision-makers. And an unequalled medium for reaching these important readers.

So when you plan your media schedule, consider the facts and figures behind The Journal.

Take it from the top.

Every day, top and middle management executives make and influence the critical decisions that affect a corporation's future.

To reach the right decisions, they need hard facts. Reliable data. Insightful reports.

That's why they look to The Journal.

Since 1968, Opinion Research Corporation has studied reading preferences among top and middle management executives in America's top 800 corporations. And in every ORC study, The Journal has come out on top. Here are the results of the lastest report:

Regular Readership of Publications by Top and Middle Management

Publications	*% reading at least 3 of every 4 issues*
The Wall Street Journal	*76%*
Business Week	*63%*
Time	*41%*
National Geographic	*40%*
Fortune	*39%*
Forbes	*37%*
Newsweek	*32%*
Reader's Digest	*27%*
Sports Illustrated	*26%*
Dun's Review	*24%*
U.S. News & World Report	*23%*
Harvard Business Review	*21%*
The New York Times (Sunday)	*21%*
Nation's Business	*19%*
The New York Times (Daily)	*14%*

The Journal is the #1 choice, again, when you look at special categories of these same executives:

Category	*Regular (3/4 issues) readers of The Journal*
Executives less than 40 years old	*71%*
Executives who are college grads	*79%*
Executives who own $100,000 or more in stock	*91%*

Leader of leader

American business today has an increasingly influential partner: the federa government.

That's why more and more corporations are making it a point to communica with government opinion leaders. And fin ing that you can't reach Washington more effectively and efficiently than with The Journal.

A recent study of senators, congressmen and senior government officials compared their readership of The Journal with six top business magazines and newsweeklies.

The results show that The Journal is regular reading for nearly 2 of every 3 of these opinion leaders in official Washingto And here's how they rate these publicatio

Publications	*Most Authoritative*	*Most Accurate & Believable*	*Most Use Informat on Go & Busin*
The Wall Street Journal	*40%*	*39%*	*44%*
Business Week	*12%*	*13%*	*20%*
Forbes	*7%*	*6%*	*8%*
Fortune	*7%*	*7%*	*7%*
Newsweek	*13%*	*16%*	*9%*
Time	*13%*	*14%*	*10%*
U.S. News & World Report	*19%*	*21%*	*19%*

Reach that surpasses readership.

No other publication matches The Journal's coverage of America's finance professionals, that elite group whose influence has a direct impact on the financial transactions of more than 25 million private investors.

As shown by these results of a survey of the investment community's reading habits, The Journal is read regularly by every category of financial leaders surveyed, including:

99% of all institutional investors
99% of all portfolio managers
99% of all security analysts
100% of all banking industry specialists

Wall Street and beyond.

America's active investors don't live on Wall Street. But The Wall Street Journal is the place to reach them. In every region of the U.S., The Journal's dominance in reaching these affluent, frequent traders is unrivaled.

In fact, active investors read The Journal regularly and look to The Journal for helpful information on their investments by a margin of better than 2 to 1 over any other publication.

Category of active investors	East	Mid-west	South	Far West
Read The Journal regularly	73%	81%	71%	71%
Rely on The Journal for investment information	72%	80%	75%	70%

What's more, nearly twice as many active investors rely on The Journal as their primary source of investment information as they do on all the other publications tested put together.

One-to-one, coast-to-coast.

You've witnessed proof of the exceptional quality of The Journal's audience. But The Journal offers another unique advantage, as well. Truly national coverage on a daily basis.

Just look at how Journal circulation matches up with population and buying-power figures for each region of the U.S.:

Region of U.S.	WSJ Circulation	Population	Buying Power of Region
New England	7%	6%	6%
Middle Atlantic	18%	17%	18%
E.N. Central	20%	19%	20%
W.N. Central	7%	8%	8%
South Atlantic	14%	16%	15%
E.S. Central	3%	6%	5%
W.S. Central	10%	10%	9%
Mountain	5%	5%	4%
Pacific	16%	14%	15%

No medium precisely matches every region on every count. But The Journal's circulation comes close to matching regional strength.

Onward and upward for the eighties.

Finally, consider the circulation growth of The Wall Street Journal, consistently in a class by itself.

During the last six years, Journal circulation has grown by more than 32%. By more than 12% during the past six months. No other daily, weekly, bimonthly or monthly serving business and management can match that growth rate.

Today, the average paid circulation of The Journal stands at 1,798,416.

That's nearly nine million paid copies every week. And 39 million paid copies a month. Extraordinary proof that The Journal is unsurpassed at providing America's most important readers with the world's most important news.

If you want to know more about this outstanding advertising medium—and how it can work for you—just contact your nearest Wall Street Journal advertising representative.

And we'll give you many more good reasons why every media planner should remember the words that have become an advertising dictum:

THE WALL STREET JOURNAL. IT WORKS.

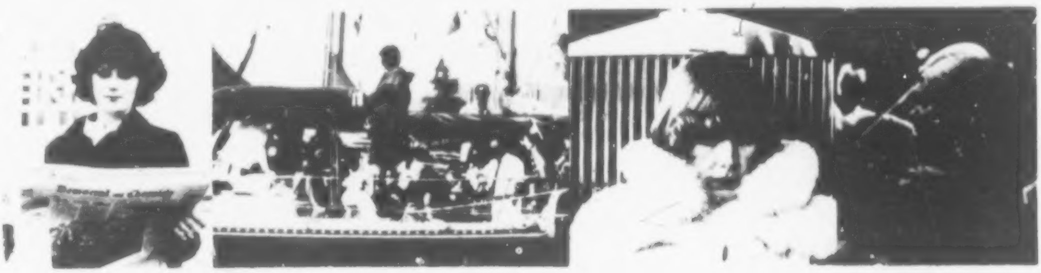
What's good in Rochester, N.Y. is good for you.

Quality of life is made by quality of people. Rochester, N.Y. is blessed with both. Our 686,000 SMSA adults are well-educated. 41% have gone to college and 36% are high school graduates. 45% of household chief wage earners are in the professions; proprietors, managers, foremen and craftsmen. Median household EBI is $20,149, 67th highest in the nation. Compare to Buffalo's rank of 170 and Syracuse, 116.

Effective buying income is $7,726,250,000, ranking 39 in the nation, the same as the SMSA population. And retail sales are a lofty $3,956,519,000. The newspapers reach this quality market best, 69% daily, 73% Sunday. In households with incomes over $20,000 overall readership jumps to 83%. We're good and we can be good for you.

the class market in the northeast



Compare these numbers to Buffalo and Syracuse

		Rank
Population	967,100,000	39
Households	348,300,000	39
Effective Buying Income	$7,726,250,000	39
Total Retail Sales	$3,956,519,000	39
Food Sales	$896,270,000	38
General Merchandise	$479,925,000	44

You'll get a big kick out of our circulation lead.

Yahoo! The Dallas Morning News continues to be Dallas' largest and fastest growing newspaper — seven days a week. This time we really set the competition back on their heels. So you get a jump on reaching more readers.

We lead the other paper by 39,152 more copies daily and 9,694 more copies Sunday. A total circulation of 286,781 daily and 350,820 Sunday. That's a gain of 12,901 and 14,014, respectively. In Dallas County we more than doubled their gain on Sunday. And, to boot, we increased by 9,535 daily while the competition lost 1,107.

Try as they might, they just can't seem to keep pace.

The Dallas Morning News
That extra edge

If you're sick of exorbitant preprint rates, we'll send you this get-well card.

Our new group rate for preprinted inserts is just what the doctor ordered.

Now for as low as only $20.00 per thousand, you can reach as many as 646,000 households in out-state Michigan. And that's good medicine for any distribution list.

But understand. We're not talking about just any old market. We're talking about Booth's Michigan Market. A healthy market where the average annual income per household in our metro counties is $20,165.

Who delivers this market, you ask? The eight daily and Sunday newspapers that form the Booth Newspaper Group. And to make your buy as trouble-free as possible, with each order you make we'll send you one single, uncomplicated invoice.

Just give us a call.

For more details on our new preprinted insert rates, just give us a call. In Michigan, call (313) 569-2474. Nationally, call Newhouse Newspapers: New York (212) 697-8020; Chicago (312) 641-6242; Atlanta (404) 955-2335; Los Angeles (213) 385-9148; San Francisco (415) 362-3367, or Detroit (313) 354-2540.

The Arkansas Gazette has the largest circulation in Little Rock & Arkansas.

The Arkansas Gazette reaches more than
half the households in the 95th ranked SMSA (Pulaski
and Saline Counties), a market with an effective buying income of $2.6 billion.
With circulation of 154,569 on Sunday and 129,274 daily,
we're Arkansas's newspaper leader . . . by far. With numbers
like these, it figures that the Arkansas Gazette
is the only newspaper you'll ever need.

Arkansas Gazette.

Represented nationally by Sawyer-Ferguson-Walker Company.
Source: ABC, 3/31/80; Survey of Buying Power, 1979.

What is the difference between 'median' and 'average'?

The column headings under which the data are arranged are carefully chosen to enhance your use of the *Survey*'s information. A helpful explanation of what these column headings mean is provided in a special section titled "Explanation of Terms" that appears at the end of Section A. Most of the inquiries we receive concerning *Survey* data are due to the user's failure to check the "Explanation of Terms" section. You can save yourself time, as well as make more accurate use of *Survey* data, if you read the Explanation.

San Francisco. The City is just the beginning...

of the affluent Northern California market, an area more populous than 42 States in the U.S. and a vital consideration in any marketing strategy.

In this market, one media buy dominates: The San Francisco Chronicle and The San Francisco Examiner. It's the buy that outranks the next newspaper by more than 3 to 1, reaching 662,353 homes throughout Northern California.

San Francisco Chronicle
San Francisco Examiner

San Francisco Newspaper Agency Agent for San Francisco Chronicle/San Francisco Examiner

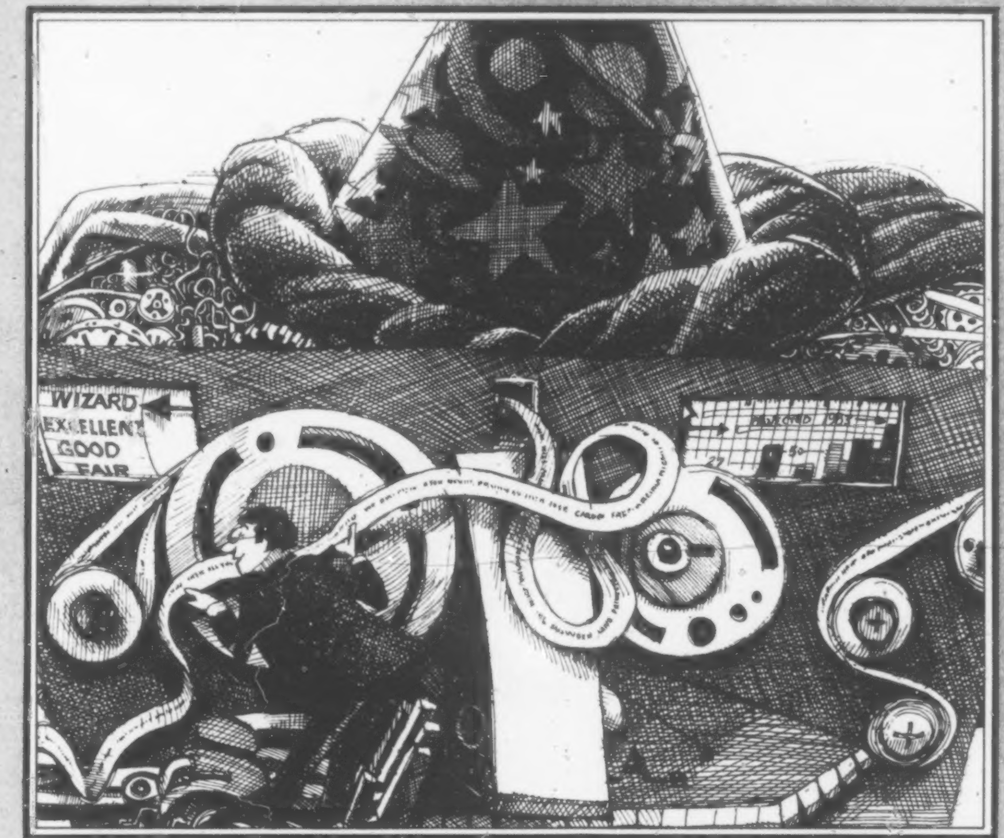
PUT OUR WIZARD TO WORK FOR YOU!



USSPI's New "Wizard" Computer Prints Out Where Your Ad Dollars Work Best. Absolutely FREE!

Here's all you do. Simply call your local USSPI representative and arrange for an appointment with the Wizard. Or, if you prefer, fill in the convenient "Ask The Wizard" coupon and we'll have one of our representatives contact you. Either way, we'll help you assess your needs and process your information request, then feed everything to the Wizard.

Based on your information, or The Simmons (SMRB) Usage Indices, the Wizard will identify by market how you may reach your prime buying audience on the most efficient cost-per-prospect basis. Not only will the profiles meet your specific demographic criteria for income, education, households, age, occupation, and other Simmons indices but they will present some highly authoritative statistical data you can use to evaluate the best place for your advertising dollars.

Suburban Buying Power: A Powerful Marketing Tool.

Suburbia is where today's purchasing power is. . .and nobody knows more about the suburbs and how to sell them than USSPI. Before you spend another media dollar in metro dailies, talk to the Wizard and find out exactly where your best potential markets are. It's a FREE service from USSPI. So call today. . .or complete the convenient "Ask The Wizard" coupon below and drop it in the mail. The Wizard knows all. . .and wants to help you.

USSPI

U.S. SUBURBAN PRESS INC.

Nobody knows more about the suburbs—and how to sell them.

This sales team made an incredible 1,350,000 sales calls in a single year...

Restaurant Business
Collins: Programmed for profits
INSTITUTIONAL DISTRIBUTION
DO RIGHT

And they're more than willing to handle your line.

Meet Institutional Distribution . . . monthly must-reading for 25,000 middlemen—the 25,000 foodservice pros who move your products into the kitchens of 508,000 eating places in this country.

Now if your own sales force managed to call directly on all 508,000 restaurants and bars . . . Congratulations.

But they didn't. Because you can't afford it. Distributors can and do. They call on Joe's Pizza with his one little oven. And they call on The Colonel with his army of 5,000 units.

We call on those distributors once a month. Every month.

Institutional Distribution. We're covering the middle when you're not.

Meet Restaurant Business . . . written for and read by 70,000 foodservice pros whose business is restaurants.

Think of us as the restaurateur's survival kit issued fifteen times a year. Restaurant Business goes beyond industry news and chatter . . . RB delivers the meaty stuff . . . the stuff that keeps restaurant operations in the black. Or red.

We cover the whole mix—merchandising to menus . . . advertising to accessories.

Restaurant Business. Written for your final prospect—the one that gets products out of the package and onto the plate.

A closing thought on applied physics and marketing: Discover push-pull selling in food service. ID pushing your product . . . RB pulling it through.

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

Survey of Buying Power, published in July, includes the most current estimates of the demographic and socioeconomic factors of regions, states, metropolitan markets, counties, and cities.

Survey of Buying Power—Part II, published in October, rearranges the basic *Survey* data in terms of TV and newspaper markets so that markets can be evaluated in media terms; it also gives a five-year projection of metropolitan markets, as well as current data on merchandise line sales for several product categories.

Survey of Selling Costs, published in February, includes detailed information on the basic selling costs of the leading metropolitan markets in the U.S. and Canada, plus data on such marketing-related expenses as sales training, sales meetings, car rentals, and salespeople's compensation.

Survey of Industrial Purchasing Power, published in April, provides data on total manufacturing activity at the county level, as well as local market information on 457 customer industries that buy goods and services from consumer and industrial products manufacturers.

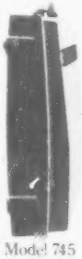
Right On Track.

IMC conducts business with TI's 745.

International Minerals & Chemical Corporation's Fertilizer Group uses TI's *Silent 700** Model 745 Portable Data Terminal to conduct their daily shipping and customer service coordination while reducing communications costs.

Railroad station agents rely on the 13-pound portable data terminal to gather shipping information from IMC's host computer. With a push of a button, the Model 745's speedy 30 characters-per-second thermal printer supplies agents with up-to-date printouts of railcar status and freight destinations. And the reliable 745 proves its versatility during the fall and spring when planting and harvesting require efficient, up-to-the-minute scheduling.



Model 745

IMC's sales force finds the portable 745 to be the ideal traveling companion. Using the data terminal's built-in acoustic coupler connected to a standard telephone, sales agents assemble data the night before a sales call. Or, in some cases, right in the customer's office. The responsive 745 provides IMC sales representatives with instant order status, customer credit history and accounts receivable information. And, with the 745's easy-to-use typewriter-like keyboard, they can access data seven days a week. By adding the virtually silent 745 to their sales force, IMC has cut down on communications costs by approximately 60 percent.

TI is dedicated to producing quality, innovative products like the Model 745 Portable Data Terminal. And TI's hundreds of thousands of data terminals shipped worldwide are backed by the technology and reliability that comes from over 30 years of experience in the electronics industry.

Supporting TI's data terminals is the technical expertise of our worldwide organization of factory-trained sales and service representatives, and TI-CARE†, our nationwide automated service dispatching and field service management information system.

XIII OLYMPIC WINTER GAMES LAKE PLACID 1980

That's why TI was appointed the official computer and calculator company of the 1980 Olympic Winter Games.

If you would like more information on the Model 745 Portable Data Terminal, contact the TI sales office nearest you, or write Texas Instruments Incorporated, P.O. Box 1444, M/S 7784, Houston, Texas 77001, or phone (713) 937-2016.

Parlaying prospects with dual market advertising.

It takes two to make a market.

It used to be that in order to define the advertising target for a product one looked at who actually purchased the product and forgot about everything else. But things have changed. Wives are working. Husbands are helping with the cooking. And the influence a wife has on her husband's purchasing decisions, or vice versa, should be considered.

Who influences whom.

As the chart based on the Purchase Influence Study shows, these days it's much smarter to include both husbands and wives in advertising plans. When it comes to life insurance, for example, wives exert 34% of the direct influence on the company chosen. Husbands, on the other hand, exert 41% of the direct influence on the brand of instant coffee used at home.

From package goods to big ticket items, it's no longer enough to convince only the person who's doing the actual buying. You also have to reach all the people who influence that buy.

Influence on brand selection

Product	Husbands	Wives
Instant Coffee	41%	59%
Gin	64%	36%
Upset Stomach Remedies	50%	50%
Life Insurance	66%	34%
Mouthwash	44%	56%

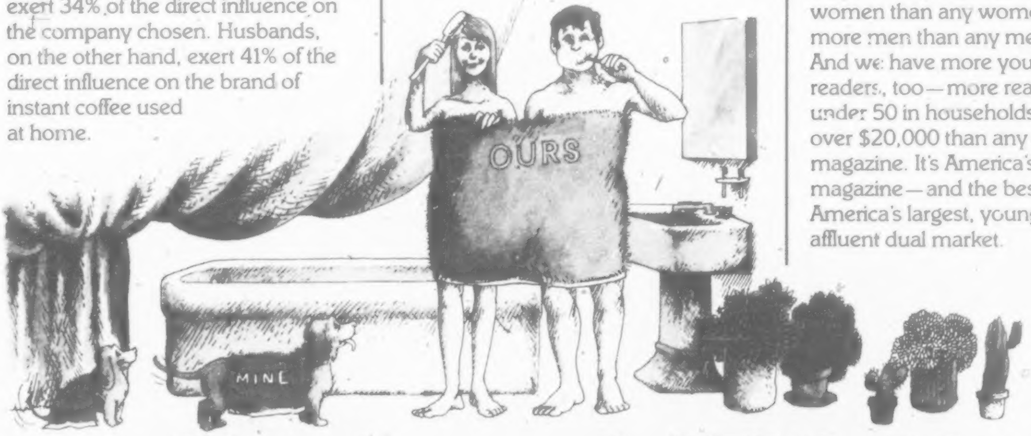
Source: Purchase Influence Study, 1975

How to reach the dual market.

Because husbands and wives make many buying decisions togethe it pays to reach both of them if you can. And the surest, most effective way to reach them is through a dual audience medium—one that is able to reach both men and women so that the merits of the product can be talked over on the spot.

Why you should use TV Guide.

TV Guide reaches more than 42 million adult readers week after week. That's the biggest dual audience in print, including more women than any women's publicatio more men than any men's publication And we have more young, affluent readers, too—more readers under 50 in households with incomes over $20,000 than any other magazine. It's America's best-selling magazine—and the best way to sell to America's largest, youngest, most affluent dual market.



America reads TV Guide.

Data in this *Survey of Buying Power* are organized into four sections. The black index tabs along the right-hand edge of the book provide easy access to each section.

Section C

METRO AREA, COUNTY, CITY DATA LISTED BY STATES

Population

Retail Sales

S&MM ESTIMATES	POPULATION—12/31/79								RETAIL SALES BY STORE GROUP 1979						
METRO AREA County City	Total Population (Thousands)	% Of U.S.	Median Age of Pop	% of Population by Age Group				Households (Thousands)	Total Retail Sales ($000)	Food ($000)	Eating & Drinking Places ($000)	General Mdse ($000)	Furniture/ Furnish / Appliance ($000)	Automotive ($000)	Drug ($000)
				18-24 Years	25-34 Years	35-49 Years	50 & Over								

Effective Buying Income

S&MM ESTIMATES	EFFECTIVE BUYING INCOME 1979						
METRO AREA County City	Total EBI ($000)	Median Hsld. EBI	% of Hslds. by EBI Group (A) $8,000-$9,999 (B) $10,000-$14,999 (C) $15,000-$24,999 (D) $25,000 & Over				Buying Power Index
			A	B	C	D	

Caution on Retail Sales Estimates

Retail sales estimates in the 1980 *Survey* are not directly comparable with those in previous *Surveys* for the following reasons: 1) Benchmark data and growth rates for retail store types and geographical areas were revised in line with the results of the *1977 Census of Retail Trade*. 2) Sales and other taxes, as well as carrying charges and other charges for credit, are no longer included. Readers who want to compare growth rates of store types or geographical areas should use the *1977 Census of Retail Trade* as the base period. The *1980 Survey of Buying Power* Data Service will include *1977 Census of Retail Trade* data.

Notes:

All counties are included in *Sales & Marketing Management's 1980 Survey of Buying Power*.

Cities are included if they meet the following criteria:

- Population of 40,000 or more at the time of the 1970 Census of Population
- Central city of a metropolitan market
- Independent city (that is, not within a county).

Total Metro Counties" line, appearing at the end of each state listing, ertains only to metropolitan counties within the state.

The following symbols are used as indicated:

△ Potential metropolitan area according to S&MM's definition

☐ County within a metropolitan area whose central cities are in another state

• Central city of a metropolitan area.

Blank space in Retail Store columns indicates zero sales.

Boldface lines are metropolitan area and state totals.

Mediumface lines are county and suburban data.

Lightface lines are city data.

Italicized lines indicate metropolitan counties and central cities located in another state.

Alphabetical listing of S&MM's 300 metropolitan markets

The 300 Sales & Marketing Management metropolitan markets (see "Definition of Terms" at the end of Section A for definition of criteria) are listed here in alphabetical order. Although the markets appear in alphabetical order in their respective states on the following pages, the complete list is presented here for the convenience of the many readers who use worksheets that list all 300 markets.

S&MM's metro markets, with the exception of New England, follow the classification of Standard Metropolitan Statistical Areas (SMSAs) as designated by the Office of Federal Statistical Policy and Standards (OFSPS), U.S. Dept. of Commerce. Whereas OFSPS uses cities and towns to define New England metros, S&MM uses counties because, first, more data are available on that basis, and second, marketing executives, in general, use the county unit to design sales territories.

OFSPS recently published new criteria that will be used to designate and define metro areas when appropriate data from the 1980 Census are available. This is expected to result in the creation of a considerable number of new markets, some of which are now parts of larger ones, as well as in numerous changes in the county makeup of existing markets, especially the removal of outlying, low-density units.

While most of the changes will not be made before 1982, the official designation of new areas outside of current SMSAs is expected to take place during the coming year, following the release of basic population counts from the census. A majority of S&MM's potential metros will probably be included, along with other areas which will qualify under the new criteria. The markets listed here qualify under presently used criteria. When preliminary data from the 1980 census are available, S&MM will reevaluate its potential metros in line with the new criteria.

Cautionary Note: Eight metro markets, whose central cities are in two different states, are listed in each of their component states. If these markets are used when data from several markets are combined to compute an overall market total, the user should be sure that these particular eight markets are not double-counted. The eight markets and their host states: Clarksville-Hopkinsville, TN-KY; Davenport-Rock Island-Moline, IA-IL; Duluth-Superior, MN-WI; Fargo-Moorhead, ND-MN; Huntington-Ashland, WV-KY; Parkersburg-Marietta, WV-OH; Steubenville-Weirton, OH-WV; and Texarkana, TX-AR.

The area name appears in boldface type, component counties in lightface type.

Abilene, TX — Callahan, Jones, Taylor*

- **Orem, UT** (See Provo - Orem)
- **Orlando, FL** — Orange*, Osceola, Seminole
- **Oshkosh, WI** (See Appleton - Oshkosh)
- **Owensboro, KY** — Daviess
- **Oxnard - Simi Valley - Ventura, CA** — Ventura
- **Panama City, FL** — Bay
- **Parkersburg - Marietta, WV - OH** —
  - **Ohio Portion** — Washington
  - **West Virginia Portion** — Wirt, Wood*

Δ A potential metro area as defined by S&MM.

*The county in a multicounty market where the central city is located. If more than one county has an asterisk, it is because a multiname market has central cities in more than one county. The central city of a one-county market will be located in that county.

- **Pa agoula - Moss Point, MS** — ckson

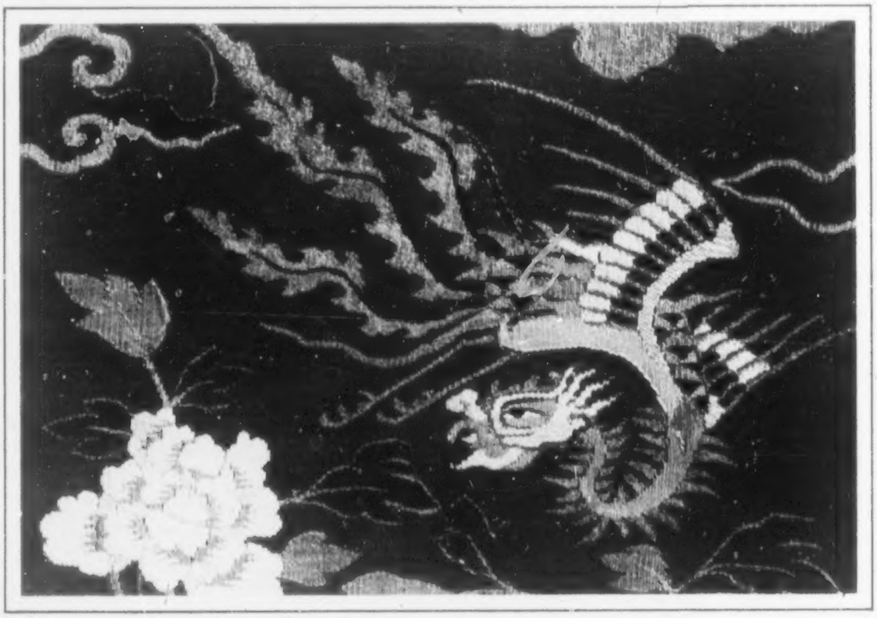
This rare bird makes pleasure a business and business a pleasure.

Which means a lot of new business for you.

Phoenix is in the middle of America's biggest playground. Our tourist trade accounts for nearly $2 billion annually. But, pleasure isn't the only business growing wild in the desert. Our manufacturing output is more than $3 billion. And all for the same basic reason.

Phoenix is a great place to be. That's why over 162,000 people moved here last year. And why so many industries have extensive facilities here. Like Honeywell, Litton, Motorola, Armour-Dial. Western Electric, Siemens Corp., American Express, Intel, GTE, Sperry, Revlon and Sentry Insurance. Or corporate headquarters like Greyhound, Talley Industries, Best Western, Ramada Inns, Combined Communications and Del Webb Corp.

It all adds up to a lot of jobs and a lot of very spendable income. We're 3rd fastest-growing in employment and 2nd in population and personal income growth. In short, Phoenix is a rare bird and an advertiser's dream. And, The Phoenix Newspapers can make it come true for you with an unduplicated 80% of the total adult metro area with a combination of Sunday and any other weekday. Plus, 86% with 5-day unduplicated coverage.* No other medium can top it. It'll be our pleasure to give you the business.



Phoenix Bird from ancient Chinese tapestry on display at the Metropolitan Museum of Art, New York

Phoenix is named for the mythical Phoenix Bird, which consumed itself in flame on a pyre of spices and was reborn—just as the city of Phoenix grew out of the "ashes" of four previous ancient American Indian cities.

THE ARIZONA REPUBLIC/*The Phoenix Gazette*

The Arkansas Gazette has the largest circulation in Little Rock & Arkansas.

The Arkansas Gazette reaches more than half the households in the 95th ranked SMSA (Pulaski and Saline Counties), a market with an effective buying income of $2.6 billion. With circulation of 154,569 on Sunday and 129,274 daily, we're Arkansas's newspaper leader . . . by far. With numbers like these, it figures that the Arkansas Gazette is the only newspaper you'll ever need.

Arkansas Gazette.

VELL DON'T THAT YUST BEAT ALL

Orange County, California has more buying power than Minneapolis/St. Paul.

Minneapolis/St. Paul is too important a market to overlook. More than 2 million people. $14.6 billion buying power. $20,745 average spendable income.

That doesn't even come close to Orange County, California. (We're the SMSA between Los Angeles and San Diego.) Our 1.8 million people have more than $15 billion to spend. Average income? $21,932. Growth rate? 31.9 percent.

The Register's Orange County Metro Group reaches more of Orange County than any other newspaper. Our more than 240,000 subscribers include 50.2 percent of Orange County households with more than $30,000 income. And 73 percent of our subscribers read no other newspaper.

Yumpin' yimminy, you vouldn't vanna overlook that vould ya?

What is the difference between 'median' and 'average'?

The column headings under which the data are arranged are carefully chosen to enhance your use of the *Survey*'s information. A helpful explanation of what these column headings mean is provided in a special section titled "Explanation of Terms" that appears at the end of Section A. Most of the inquiries we receive concerning *Survey* data are due to the user's failure to check the "Explanation of Terms" section. You can save yourself time, as well as make more accurate use of *Survey* data, if you read the Explanation.

A BAKERS-FIELD DOZEN

13 Big Reasons to Buy The Bakersfield Californian*

1. Now in the top 100 SMSA's.
2. California's fastest growing newspaper.
3. Advertise in a city that's one of the 10 fastest growing in California.
4. Dominate a billion dollar retail sales market.
5. Harvest the nation's 2nd most productive agri-business community.
6. Capture California's 3rd largest county.
7. Test market your products in an isolated cross section of American buying habits.
8. Compute your strategy using our supplemental market research.
9. Reach the other half of the southern California market normally missed.
10. Our retail sales per household is 9.2% above California's average.
11. Our retail sales per household is 15% above national.
12. Strike it rich in the nations number one oil producing county.
13. We have the 3rd highest cable incursion in the United States . . . you can't reach this market effectively through television.

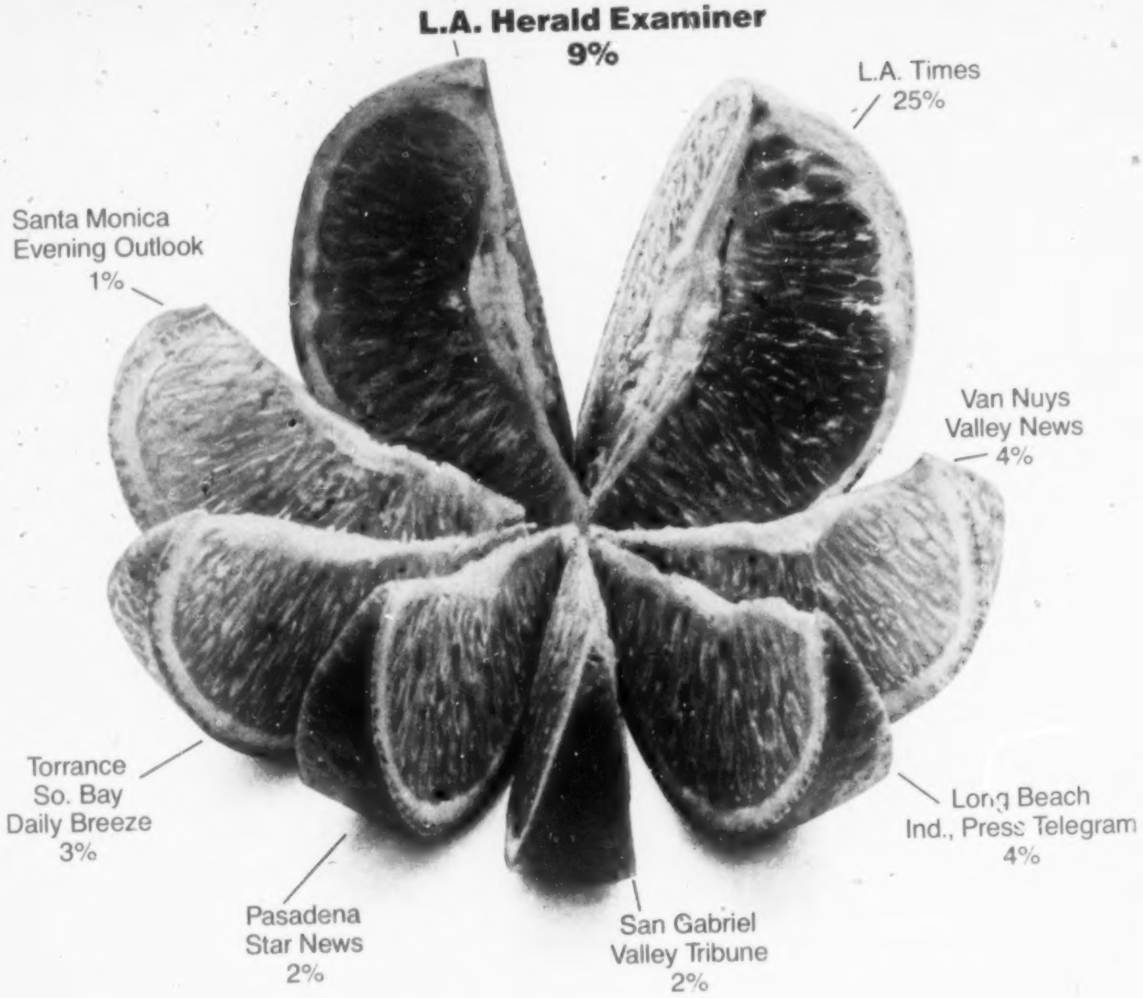
FOR A MAJOR SLICE OF LOS ANGELES COUNTY, YOU NEED THE HERALD EXAMINER



If you're planning a 50-60% household coverage goal in L.A. County, you can't afford to leave out the Herald Examiner.

Every day, it reaches nearly 700,000 people. They help make up a ripe, 30-billion-dollar-a-year market. The second largest retail market in the nation.

To reach your goal quickly and effectively, include the Herald Examiner. It's a faster way to enjoy the fruits of your labor.

THE LOS ANGELES HERALD EXAMINER

Represented by Hearst Advertising Service

Sources: Sales Management's Survey of Buying Power, July 1979; SRDS "Newspaper Circulation Analysis," Sept. 1980

Are you missing one of the real top 10 markets?

It's PALM SPRINGS.

In the last two months of available data prior to press time, January and February 1980, the Palm Springs Desert Sun ran 1,999,387 and 1,973,988 lines of full run advertising. That's more business than major dailies in 7 OUT OF THE NATION'S 10 LARGEST MARKETS in population size. (Not to mention 11 out of 20 and 18 out of the top 30).

THE DESERT SUN ran more advertising than both daily newspapers in Philadelphia, St. Louis, and Baltimore (#4, #12, and #14 nationally), and more than all four papers in the twin cities of Minneapolis/St. Paul (#15). And this is not an isolated situation — all factors point to a continuation of this trend.

Truly, PLEASURABLE PALM SPRINGS MEANS BIG BUSINESS, TOO . . . and there's only one vehicle that effectively supports your merchandising in this booming market — THE DESERT SUN!

Ask your Branham Newspaper Sales representative for further details.

Grab a Spanish lover.

He loves a good drink.
And when it comes to
pleasing his palate,
he settles for only the best.

He loves to eat out.
And takes his family to
a fast food restaurant
at least once a week. If not more.

He loves a good smoke.
After all, it was they who discovered
the joys of tobacco.

He loves to look good.
It's all part
of his image.

He is a true Spanish lover. He loves enjoying life and he loves to consume. And there are 1,500,000 like him in the Los Angeles area. But they won't know how much they love your product unless you tell them about it. They read La Opinión. It's their newspaper. Call us collect at (213) 748-1191; and we'll give you all the information you need to grab yourself a new lover.

LA OPINION

Since 1926 the only Spanish language daily in Los Angeles.

The Sacramento Bee's Circulation Gain Biggest In U.S. Market Grows Too.

With the largest percentage circulation increase in the United States of the top 100 ABC local newspapers, The Sacramento Bee's daily circulation is now over 203,700. That outstrips the other Sacramento paper by over 99,900 — that's 96% better coverage. On Sunday we sell over 233,000 papers — over 127,000 more papers than the nearest competition — an incredible 121% better Sunday coverage.*

Sacramento is the hub of the rapidly growing Sacramento SMSA. The 1980 forecast for population growth puts Sacramento ahead of the San Francisco-Oakland and San Jose Markets in percentage gain.** 88% of The Sacramento Bee's total gain is in the 3-county hub of the Sacramento Market Area. You get 78% more coverage in this area than Sacramento's other daily newspaper.

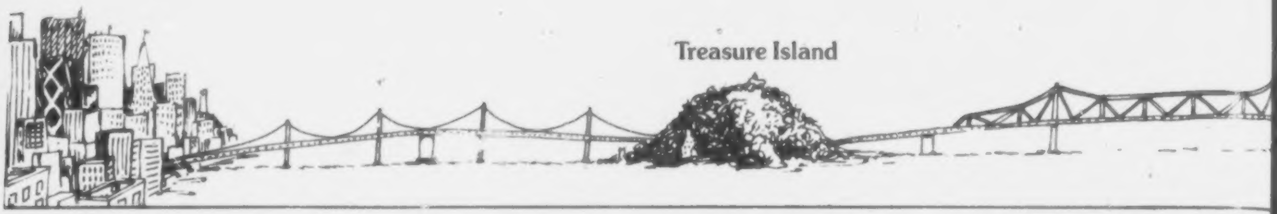
To put the San Francisco Bay on your side

San Francisco
Pop. 640,000
(City and County)



First, let's talk numbers.

Circulation for the Oakland Tribune/Eastbay Today has now hit the 200,000 mark. And here's how it happened.

A few months back we introduced Eastbay Today, the new Sunrise edition of the Oakland Tribune. It was a tremendous success. And it is growing every day.

In short, we think the reading habits of the San Francisco Bay Area will never be the same. Now the Oakland Tribune is read by more people on the East side of the Bay than any other newspaper. In fact we're read by 64%* more East Bay peopl than the San Francisco Examiner an Chronicle combined.

But a newspaper is more tha numbers.

The Oakland Tribune is part o

San Francisco. The City is just the beginning...

of the San Francisco-Oakland Metro Area, the nation's highest ranked major metropolitan market in per capita E.B.I.

In this 5-county area which generates over $13 billion in retail sales, The San Francisco Chronicle and The San Francisco Examiner, with more than 1½ million adult readers, reach 63% of the adult population and 87% of those who earn $25,000 or more annually.

San Francisco newspapers are the only single print media buy that effectively covers this lucrative marketing area.

San Francisco Chronicle
San Francisco Examiner

get 200,000 households on our side.

East Bay
Pop. 1.7 Million
(Contra Costa and Alameda Counties)

Gannett, the largest newspaper company in the United States. The Gannett News Service, which serves the Tribune, won a Pulitzer Prize in May of this year and that makes a total of 12 Pulitzer awards for Gannett.

And for daily columns of news, we beat the others by a mile. We averaged 12% more news than the Chronicle and 20% more than the Examiner for the first four months of 1980.**

It's facts like these that have made people call us the fastest growing paper in America.

The Oakland Tribune/Eastbay Today. We now reach 200,000 households and we're reaching further every day.

So before you buy the Bay, think about our side of the story.

S&MM'S FOUR SURVEY ISSUES

Survey of Buying Power, published in July, includes the most current estimates of the demographic and socioeconomic factors of regions, states, metropolitan markets, counties, and cities.

Survey of Buying Power—Part II, published in October, rearranges the basic *Survey* data in terms of TV and newspaper markets so that markets can be evaluated in media terms; it also gives a five-year projection of metropolitan markets, as well as current data on merchandise line sales for several product categories.

Survey of Selling Costs, published in February, includes detailed information on the basic selling costs of the leading metropolitan markets in the U.S. and Canada, plus data on such marketing-related expenses as sales training, sales meetings, car rentals, and salespeople's compensation.

Survey of Industrial Purchasing Power, published in April, provides data on total manufacturing activity at the county level, as well as local market information on 457 customer industries that buy goods and services from consumer and industrial products manufacturers.

STARTS

THE BUCK ST~~OP~~S HERE!

In the San Francisco Bay Area market. . .the big bucks begin in Marin. At **$28,054**. . .Marin County's **87,600** households have the highest Average Household Effective Buying Income of any county in California. And last year, our **226,000** people racked up **$1,103,749,000** in Retail Sales with a Total Effective Buying Income of **$2,457,547,000.**

For over 100 years, the Independent-Journal, Marin County's only daily newspaper, has been first in reaching these affluent, free-spending families. With **45,644** in daily circulation, six days a week. . .**93.6%** home-delivered. . .the I-J is selected statistically over all other media as giving Marin adults "the most helpful information" for their shopping.

If you're buying the Bay Area. . .begin in Marin. Buy the I-J. We reach the spenders and, at our modest rates, you can afford the frequency you need.

The INDEPENDENT-JOURNAL *is* Marin County.

Buying the Los Angeles ADI?

The **INDEPENDENT/PRESS-TELEGRAM**

delivers the Long Beach EXCEPTION

THE LOS ANGELES ADI DEFINITION
Counties include: Inyo, Kern (east), Los Angeles, Orange, Riverside (west), San Bernardino (west) and Ventura.

THE LOS ANGELES TIMES IS VITAL TO MOST SEGMENTS OF THE ADI.
For example: The primary market for the Los Angeles Valley News has 32% coverage by the L.A. Times. The primary market for the South Bay Breeze has 29% coverage by the L.A. Times. Even Orange County, the primary market for the Register, has 24% coverage by the L.A. Times.

THE EXCEPTION to this dominant coverage pattern by the L.A. Times...

THE INDEPENDENT/PRESS-TELEGRAM

where the L.A. Times coverage is ONLY 15.7%. This rich market is made up of 18 communities lining the Pacific Ocean. Important statistics include...
8.6% of the ADI Population and
12.1% of the ADI Retail Sales

Be Analytical... Buy the EXCEPTION in the Los Angeles ADI

9	Long Beach	25,332
10	Oxnard	24,975

The Union People are a unique, exclusive segment of the Sacramento Primary Market Area.

The Union's growth and readership make it a Must Sacramento Buy. The Union has passed 112,000 in May 1980, with a readership over 350,000.

Sacramento is the West's only large Metro market where 2 newspapers compete head-to-head in the morning. Duplication is low. Newspaper loyalty is high. Combined, the two newspapers deliver a daily 70% penetration of the PMA, the highest of any major western r ty.

We're The Union People

The Sacramento Union
California's new basic buy.

Sacramento is an upscale market.

A large government and military presence combine with a strong agricultural base to make it virtually recession-proof. It is a market that has been growing rapidly since 1967, and will reach 1 million population in 1980.

During the period 1967 - 80, the Sacrament PMA has grown 58%. The Union kept pace with a 50% growth, while the other morning paper grew only 14%.

The Union is the newspaper with the proven track record of growth. The Union understands and has grown with the market. Its competitor commands a steadily-shrinking share of the PMA (down from 60% to 43% in 12 years).

No newspaper delivers all of Sacramento. Sacramento is a two-newspaper town.

The Union People should be your people too.

San Jose

The Golden Gate Suburban Group, the "Unbeatable Combination," delivers over 200,000 affluent Bay Area households.

The Golden Gate Suburban Group, with 203,522 circulation in California's highest income county, Marin, California's second highest income county, San Mateo and the affluent suburban areas of Southern Alameda County, delivers the "Cream-of-the-Crop," of the San Francisco/Oakland SMSA.

The GGSG is the "Unbeatable Combination" because it takes the best of the nation's seventh largest SMSA, and gives it to you in one easy package, a 1-order, 1-bill, newspaper buy with a 6% discount, plus a Newsplan discount.

GOLDEN GATE SUBURBAN GROUP

The Golden Gate Suburban Group Market:

Population	1,321,500
Households	487,100
Effective Buying Income Per Household	$23,648
Total Effective Buying Income	$11.5 Billion
Total Retail Sales	$5.8 Billion

The Golden Gate Suburban Group newspapers:

THE INDEPENDENT-JOURNAL, serves Marin County, ABC daily paid circulation: 45,644

THE SAN MATEO TIMES, the only daily newspaper published in San Mateo County, ABC daily paid circulation: 48,002.

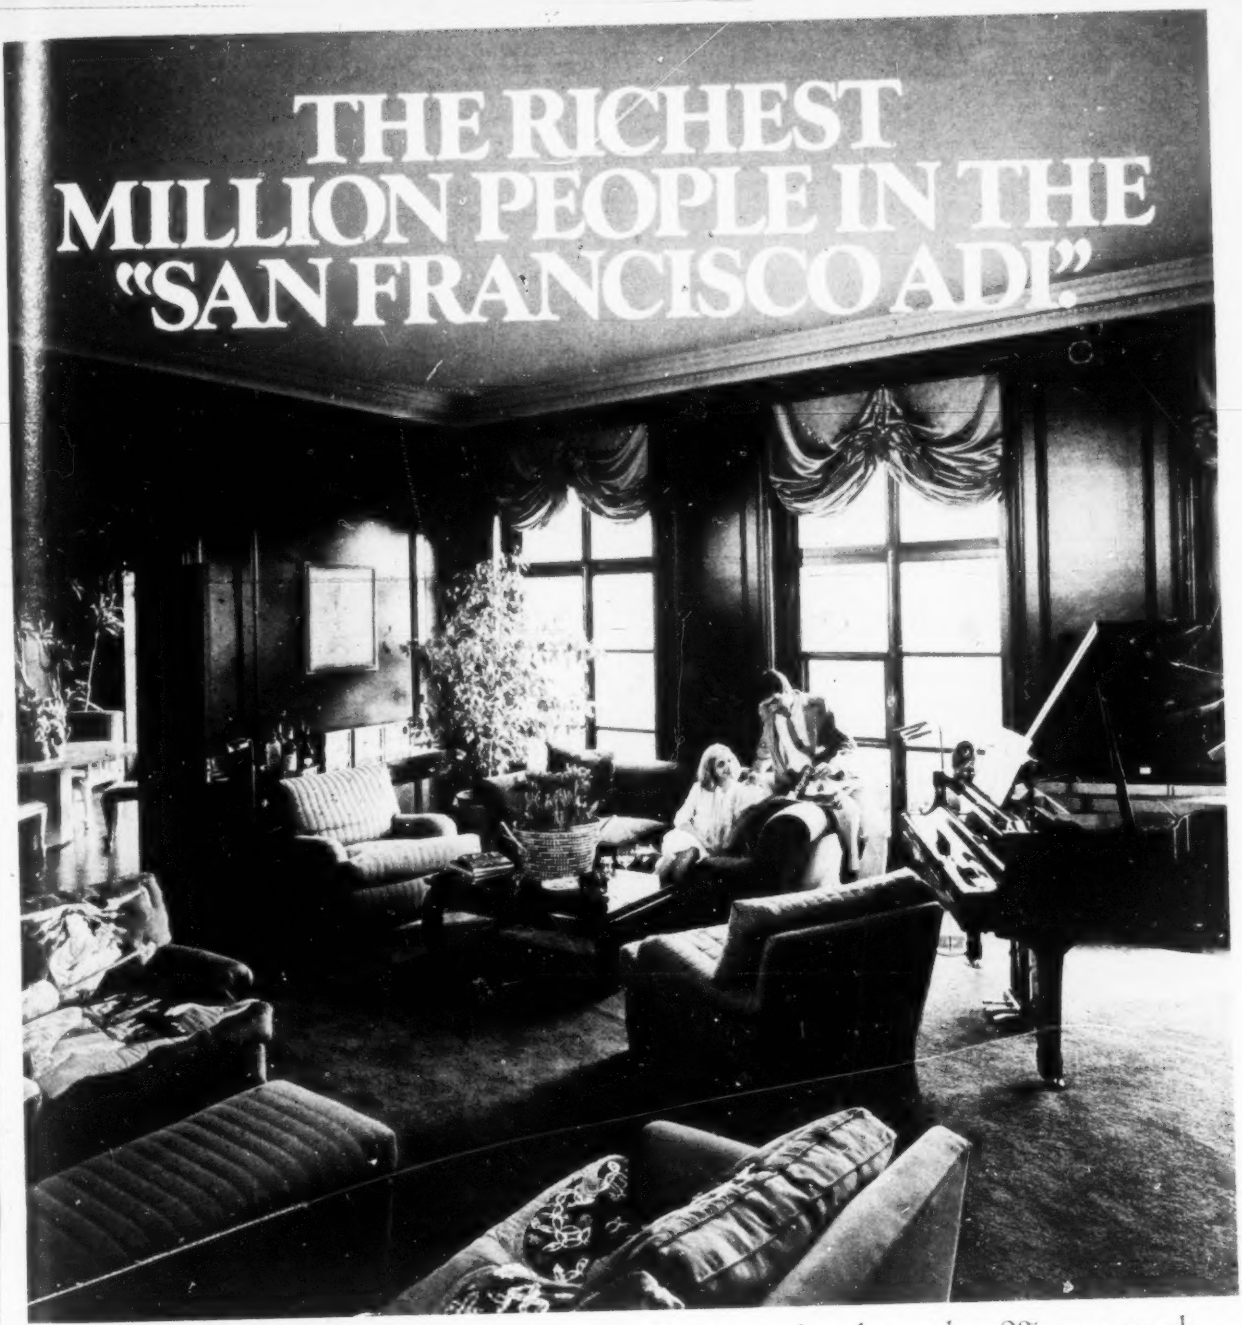
ALAMEDA COUNTY BAY SPARKS NEWSPAPERS, serves Southern Alameda County, The Hayward Daily Review, ABC daily paid circulation: 42,922. The Fremont-Newark Argus ABC daily paid circulation: 18,359. The Livermore Tri-Valle Herald, ABC daily paid circulation: 14,506. The Danvill Tri-Valley News, Published Wednesday, Friday and Sunday verified audited circulation: 34,089.

Total GGSG Circulation: 203,522.

The GGSG is a 1-order, 1-bill newspaper buy. The rate $2.16 per line, representing a 6% discount, plus a Newspla discount. Insertion orders are to be sent to: Golden Ga Suburban Group, c/o California Newspaper Markets, P. Box 1427, Burlingame, California 94010, (415) 342-943

Printing materials are to be sent to individual paper Independent-Journal (1 set), 1040 "B" Street, San Rafa CA 94902; San Mateo Times (1 set), 1080 So. Amphle Blvd., San Mateo, CA 94402; The Sparks Newspapers sets), P. O. Box 5050, Hayward, CA 94540.

Represented by California Newspaper Markets, Burlingam California and Western Dailies, New York, Detroit a Chicago.



Santa Clara County's 1.2 million people have an average household EBI of $24,673, the highest in the ADI.*

The Mercury News really reaches The San Jose SMSA (Santa Clara County): 54% daily, 5-issue reach 69%. The San Francisco Chronicle/Examiner barely reaches 9% on a good day. That's why the Mercury News is #1 in display, classified and total linage in the Bay Area.

THE SAN JOSE MERCURY NEWS

Reaching California's richest
million people.

*Among major counties. Sources: Sales and Marketing Management Survey of Buying Power, 1979. San Jose "CMS," 1978-79, Belden Associates. Represented by Knight-Ridder Newspaper Sales.

IN DENVER AND COLORADO, LET'S TALK ABOUT THE NEWS . . . FIRST! *

FIRST . . . in total Daily circulation
FIRST . . . in total City Zone circulation
FIRST . . . in 7-county SMSA
FIRST . . . in 14-county PMA
FIRST . . . in 38-county ADI
FIRST . . . in Colorado Daily circulation

*A.B.C. AUDIT REPORTS SEPTEMBER 30, 1979
*A.B.C. PUBLISHER STATEMENTS MARCH 31, 1980

We continue to gain. The afternoon paper continues to lose. And, we're rapidly approaching 300,000 in total Sunday circulation!

We're also FIRST in weekday readership of adults, men and women 18-24, 25-34, 35-44, 45-54*

FIRST in household income brackets $10,000-$14,999; $15,000-$19,999; $20,000-$24,999; $25,000 and over.

FIRST in most other categories.

*Belden Continuing Market Study, Denver, 1980

When you think of advertising to Denver and the hub of the Rocky Mountain West, think of the News FIRST.

Our readers do.

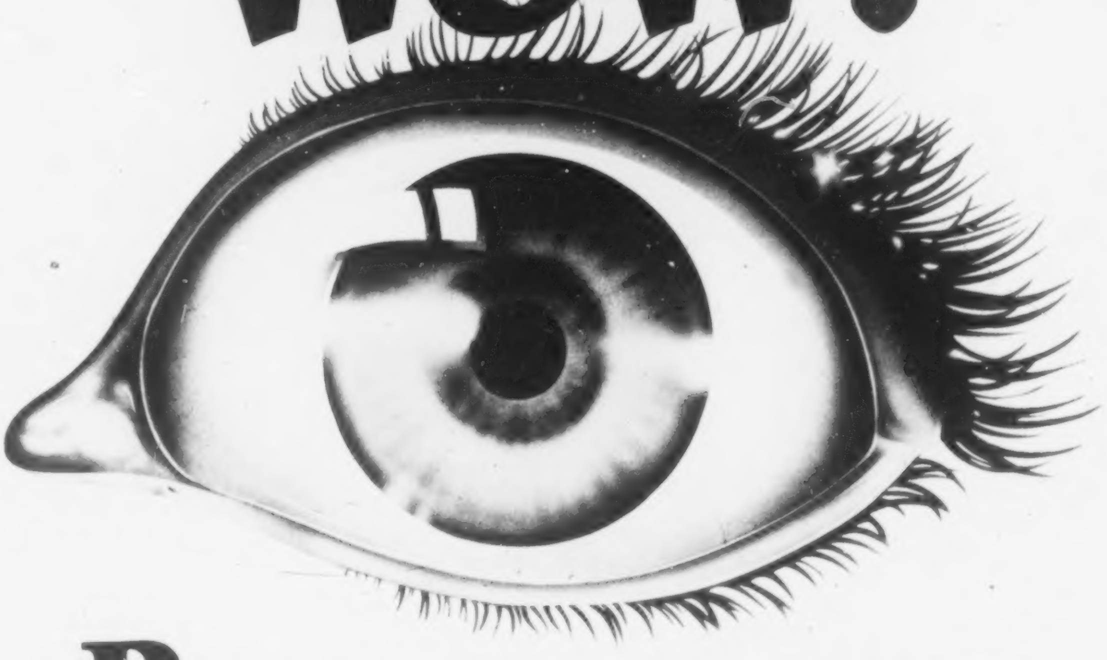
WHEN YOU WANT YOUR AD TO GO

WOW!



Put it in the Denver Post's Big Impact page. The Denver Post big full size pages work on the pocketbooks of more of Denver's upscale market than Denver's tabloid. An independent study shows 24% of women and 33% of men reading The Post have household incomes of $25,000 or more. This compares to 19% of women and 27% of men reading the other Denver paper. Big Impact pages also account for The Post carrying more national linage in these major categories: 59% food, 52% liquor, 66% travel and transportation and 58% new cars.

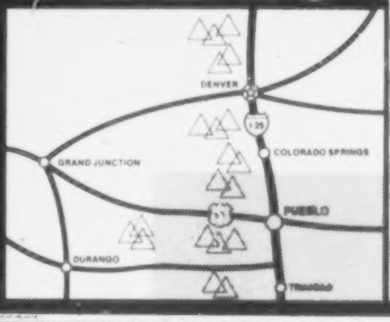
THE BIG DIFFERENCE

THE DENVER POST

For more facts on how to make The Post's Big Impact pages work for you in the Denver market, call us direct, collect at (303) 820-1421 or contact Sawyer-Ferguson-Walker.

Sources: Scarborough Research, 1978; Media Records, 1979.

THE DENVER POST MAKES A BIG DIFFERENCE



PUEBLO

SOUTHEASTERN COLORADO'S REGIONAL MARKETPLACE

1978 SALES EXCEED $1,824,000,000

A recent survey by Research Service Inc., 1979, shows Pueblo as the regional Marketplace for sixteen prosperous counties in Southeastern Colorado. **ONLY** The Chieftain and Star-Journal can reach this vast area with merchandiseable coverage. There is much more to Colorado than Denver and Colorado Springs.

The Pueblo Chieftain – PUEBLO STAR-JOURNAL

Whose income is not included in 'total EBI'?

The column headings under which the data are arranged are carefully chosen to enhance your use of the *Survey*'s information. A helpful explanation of what these column headings mean is provided in a special section titled "Explanation of Terms" that appears at the end of Section A. Most of the inquiries we receive concerning *Survey* data are due to the user's failure to check the "Explanation of Terms" section. You can save yourself time, as well as make more accurate use of *Survey* data, if you read the Explanation.

10 Reasons Why You Should Receive Your Own Personal Copy Of

S&MM
SALES & MARKETING MANAGEMENT
Who gets what and why

S&MM
SALES & MARKETING MANAGEMENT

1 You can depend on S&MM's experienced market analysts to help you develop a keen eye for **new product** and **market trends.** S&MM will tip you off early to changes in buying patterns—predict new selling opportunities with uncanny accuracy.

2 You can consult S&MM for the latest methods other top firms are using to motivate their salesmen. S&MM has all the details on the new **premium, incentive** and **compensation** setups that are sparking record performances in both large and small operations.

3 You can rely on S&MM to keep you in touch with proven authorities on industrial **advertising** and **promotion**—to be always up-to-the-minute with the latest **packaging** and merchandising ideas.

4 You'll maintain an open line to the leading specialists in **management development.** Time and again, S&MM will help you save time, trouble and money in spotting, interviewing and training others.

5 Because S&MM communicates with the top sales and marketing personalities from all over the world, you'll get the inside story on today's most successful marketing campaigns—plus the scoop on the ones that really flopped.

6 You can bet on S&MM to give you vital **market data** and statistics you need to pinpoint your marketing efforts. Whether it's the median EBI in Muskegon—the cost of a sales call in Phoenix—or the potential market for your product anywhere in the country, S&MM has got the answers.

(Many sales execs won't make a major move without consulting S&MM first. Literally thousands of marketing men depend on us to help them map their selling strategies on local, regional and national levels.)

7 S&MM is a virtual clearing house for personal success ideas. Each issue gives good, solid advice on how to keep in top emotional and physical trim—how to hone your high-level management skills—how to improve your leadership.

8 Think of S&MM as your own personal think tank. But eminently practical too. You'll find specific, proven methods for cutting **sales costs**—setting up a **budget**—developing a **catalog**—adding impact to a **sales meeting**—using **direct mail** more effectively.

9 Sales & marketing executives have discovered that S&MM tackles the most challenging, many-sided issues as well. Our in-depth research into subjects such as "Marketing Through the Outside Sales Force", "Service Management" and "Sales Compensation" are industry standards.

10 But you're not "all work and no play" and S&MM makes a special effort to charm and entertain as well as inform. It keeps you up to date on the best in restaurants across the country and gives you a "jaundiced" eye on sales problems and much, much more.

S&MM
SALES & MARKETING MANAGEMENT

. . . is the only magazine written by sales & marketing pros for sales & marketing pros.

To begin your personal subscription simply fill in and return the S&MM Reply Card in this issue or write or phone:

Washington's Amazing Market:

41% of Washington's households earn over $25,000 a year.

Washington has a higher percentage of working women than any other top market.

Among major markets, Washington is the lowest in TV viewing and the highest in newspaper penetration.

Sources: Sales & Marketing Management, "Survey of Buying Power" 1979. Bureau of Labor Statistics. Media Market Guide, First Quarter 1980. Circulation, '79-'80. Washington Today. The Scarborough Report 1980.

Washington's Amazing Post:

Nobody reaches the adults in those households like The Post, with an amazing 81% net daily and Sunday coverage.

60% of Washington's working women read Washington's Post every day.

Every day, 3 out of 4 Washington newspaper readers read The Washington Post.

The Washington Post

Nothing even comes close.

For more amazing information, call
Jack Kerrigan at 202 334-7750

Journalism:

It's the best way to sell around Washington.

Journalism is selling Washington where it lives—at home in the suburbs. And selling these upscale consumers in the place where they spend their money, and at a time when they're in the mood to spend it.

Journalism is putting out 5 separate Journal Newspapers twice a week, to over 400,000 readers. Each paper with its own staff specializing in professional community coverage of Alexandria, Arlington, Montgomery, Fairfax or Prince George's County.

Journalism is 4 color ROP that is the envy of the industry.

Journalism is *journalism.* Sensitive writing and accurate, in-depth reporting directed to people who read and buy.

Journalism is a better buy than any special edition of any big city paper. Journalism is selling power. And you can start using it today.

Journal Newspapers, Inc. has offices in Washington, D.C. at 475 School St., S.W., 20024 (202) 554-7552; in New York City (212) 753-1040.

"BULLSEYE"

We are the target you are shooting for.

Discover the golden markets of Florida.
Down the middle of the State of Florida lies an eight-county contiguous market group consisting of six New York Times daily newspapers. These papers influence the buying decisions of 156,000 households, or 65% of the households in this fast-growing area.
When comparing the demographics of this untouched golden market area with the major markets in Florida using Sales Marketing & Management's 1980 Survey of Buying Power, you will find rankings within the top three or four in the state.
These golden market papers are available to you through one insertion order, one bill arrangement to make buying these six papers as easy as buying one of the major market products. A national contract is available to make this buy even more attractive.
Call (813) 687-7883 for more details on this fast-growing area or contact your nearest Branham Newspaper Sales Representative or Publishers Representative of Florida.

Other New York Times newspapers available through this plan
Avon Park Sun, Avon Park, Fla. weekly
The Sebring News, Sebring, Fla. weekly
Marco Island Eagle, Marco Island, Fla. weekly
Fernandina Beach News-Leader, Fernandina Beach, Fla. weekly
The Zephyrhills News, Zephyrhills, Fla. weekly
The Islander, Anna Maria, Fla. weekly
The Dispatch, Lexington, N.C. daily
Star-News Newspapers, Wilmington, N.C. daily
The Times-News, Hendersonville, N.C. daily

Survey of Buying Power, 1980

Tourists didn't make Miami the 12th largest market.

South Florida is now the 12th largest market in the nation in population, 12th in effective buying income and 11th in retail sales.

In any given week, The Miami Herald and The Miami News reach 80% of all adults in South Florida; after four Sundays, The Miami Herald reaches 84% of all adults.

We're second in the number of international banks, second in international air passengers and Miami International Airport is ninth in the world in total passengers.

Some 100 multi-national firms have offices in Greater Miami. Foreign investments have passed four billion dollars.

There's a lot happening in South Florida—enough to write a book. So we did. It's called, "Miami and South Florida . . . Market of the 80's." Write for your free copy, on your company letterhead, to the Advertising Marketing Manager, The Miami Herald, Miami, Florida 33101.

A Knight-Ridder Newspaper Serving Miami's Latin Community A Cox Newspaper
Represented nationally by Knight-Ridder Newspaper Sales, Inc.

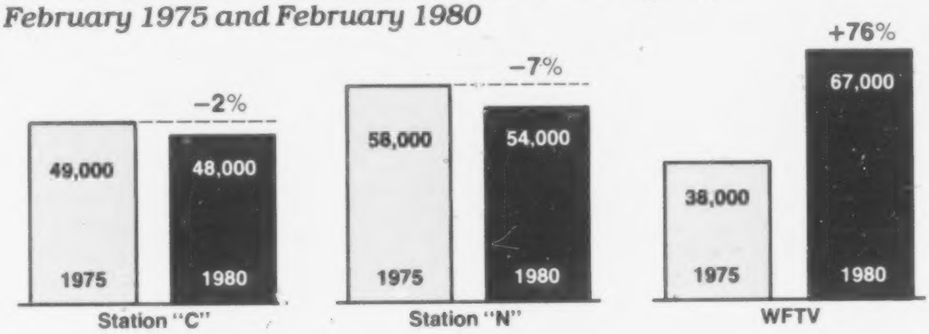
A 5-year plan that worked!

In 1975, WFTV (ABC), Orlando, set out to change the character of Central Florida television. Our plan to expand news coverage and serve communities throughout the region in a hundred ways has paid off . . . for us and our advertisers.

The comparisons below tell just a part of the story.

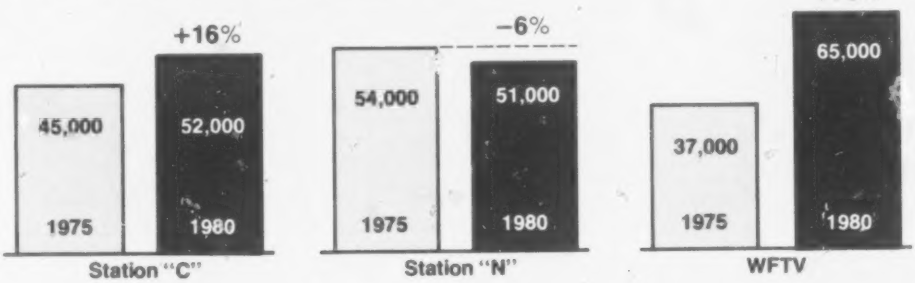
Nielsen Households (9 AM-Midnight)

February 1975 and February 1980



Arbitron Households (9 AM-Midnight)

February 1975 and February 1980



The next five years promise even more. Our commitment to localism and news dominance assures future growth for WFTV and even better buys for our clients. We're the growth leader at the center of growth in Florida.

Data herein are estimates from Nielsen and Arbitron reports, Orlando-Daytona Beach, February 1975 and 1980, day-part summary sections, and are subject to qualifications contained within subject reports.

WE'RE NO. 1 IN FLORIDA...
in per capita and household EBI.

There's a new number one on the horizon and it's in Florida right now ... specifically in the West Palm Beach-Boca Raton SMSA. This is where the sand sparkles, the palm trees sway on gentle ocean breezes and THE EFFECTIVE BUYING INCOME PER CAPITA AND PER HOUSEHOLD IS THE HIGHEST IN THE STATE.

At an affluent household move-in rate of 45 per day, this area is 15th in the nation in per capita EBI right now ... but it won't be for long ... if you catch our drift (growth).

The Post and The Evening Times
Palm Beach County's only a.m. & p.m. newspaper buy.

BLAIR

The Southeast's Fastest Growing Major Metro Market!

THE TAMPA BAY MARKET

. . . is comprised of Hillsborough, Pasco and Pinellas Counties, the heart of Florida's Gulf Coast.

- ☐ Tampa Bay is the fastest growing metro market in Florida!
- ☐ Tampa Bay is the fastest growing metro market in the Southeast . . . ahead of Miami and Atlanta!
- ☐ Tampa Bay is the third fastest growing major metro market in the U.S behind Phoenix and Houston! Not bad company!

ATLANTA
TAMPA
MIAMI

Tampa Bay is a great Test Market –
a real cross section of America because its citizens have been attracted by the magnetism of this dynamic market from all over the U.S. Tampa Bay is "Main Street America" today!

Advertisers reach this "hot" Tampa Bay Market
in The Tampa Tribune and Times at the lowest national line rate of all Florida major metro newspapers.

HOW DID WE GET TO BE SO BIG?

FORT LAUDERDALE NEWS

Sun-Sentinel

MARKET GROWTH:

The South Florida Market (Broward, South Palm Beach County area), ranks 2nd in the nation in per capita retail sales among the top 50 major markets*

*S&MM Survey of Buying Power '79

ADVERTISING GROWTH:

The FORT LAUDERDALE NEWS ranks 4th in the nation in total advertising linage among all 7-day newspapers, putting it ahead of the 7th-ranking Miami Herald by 12,525,935 lines*

The SUN-SENTINEL (5 days a week) ranks 10th in the nation in total advertising linage among all 6-day morning newspapers*

*Media Records '79

CIRCULATION GROWTH:

For Sunday editions alone, the FORT LAUDERDALE NEWS/SUN-SENTINEL posted the largest circulation gain in Florida—up 23,408, or 13.1% over 1979 (ABC Publishers' Statement 3/30/80)

READERSHIP GROWTH:

	% Adults Covered	Audience (000)
FORT LAUDERDALE NEWS/SUN-SENTINEL (Net Unduplicated)	55	360
Miami Herald	22	144
Palm Beach Post-Times (Net Unduplicated)	2	13

Fact: **The NEWS/SENTINEL combo reaches more than twice as many adult readers as all other major daily newspapers combined.**

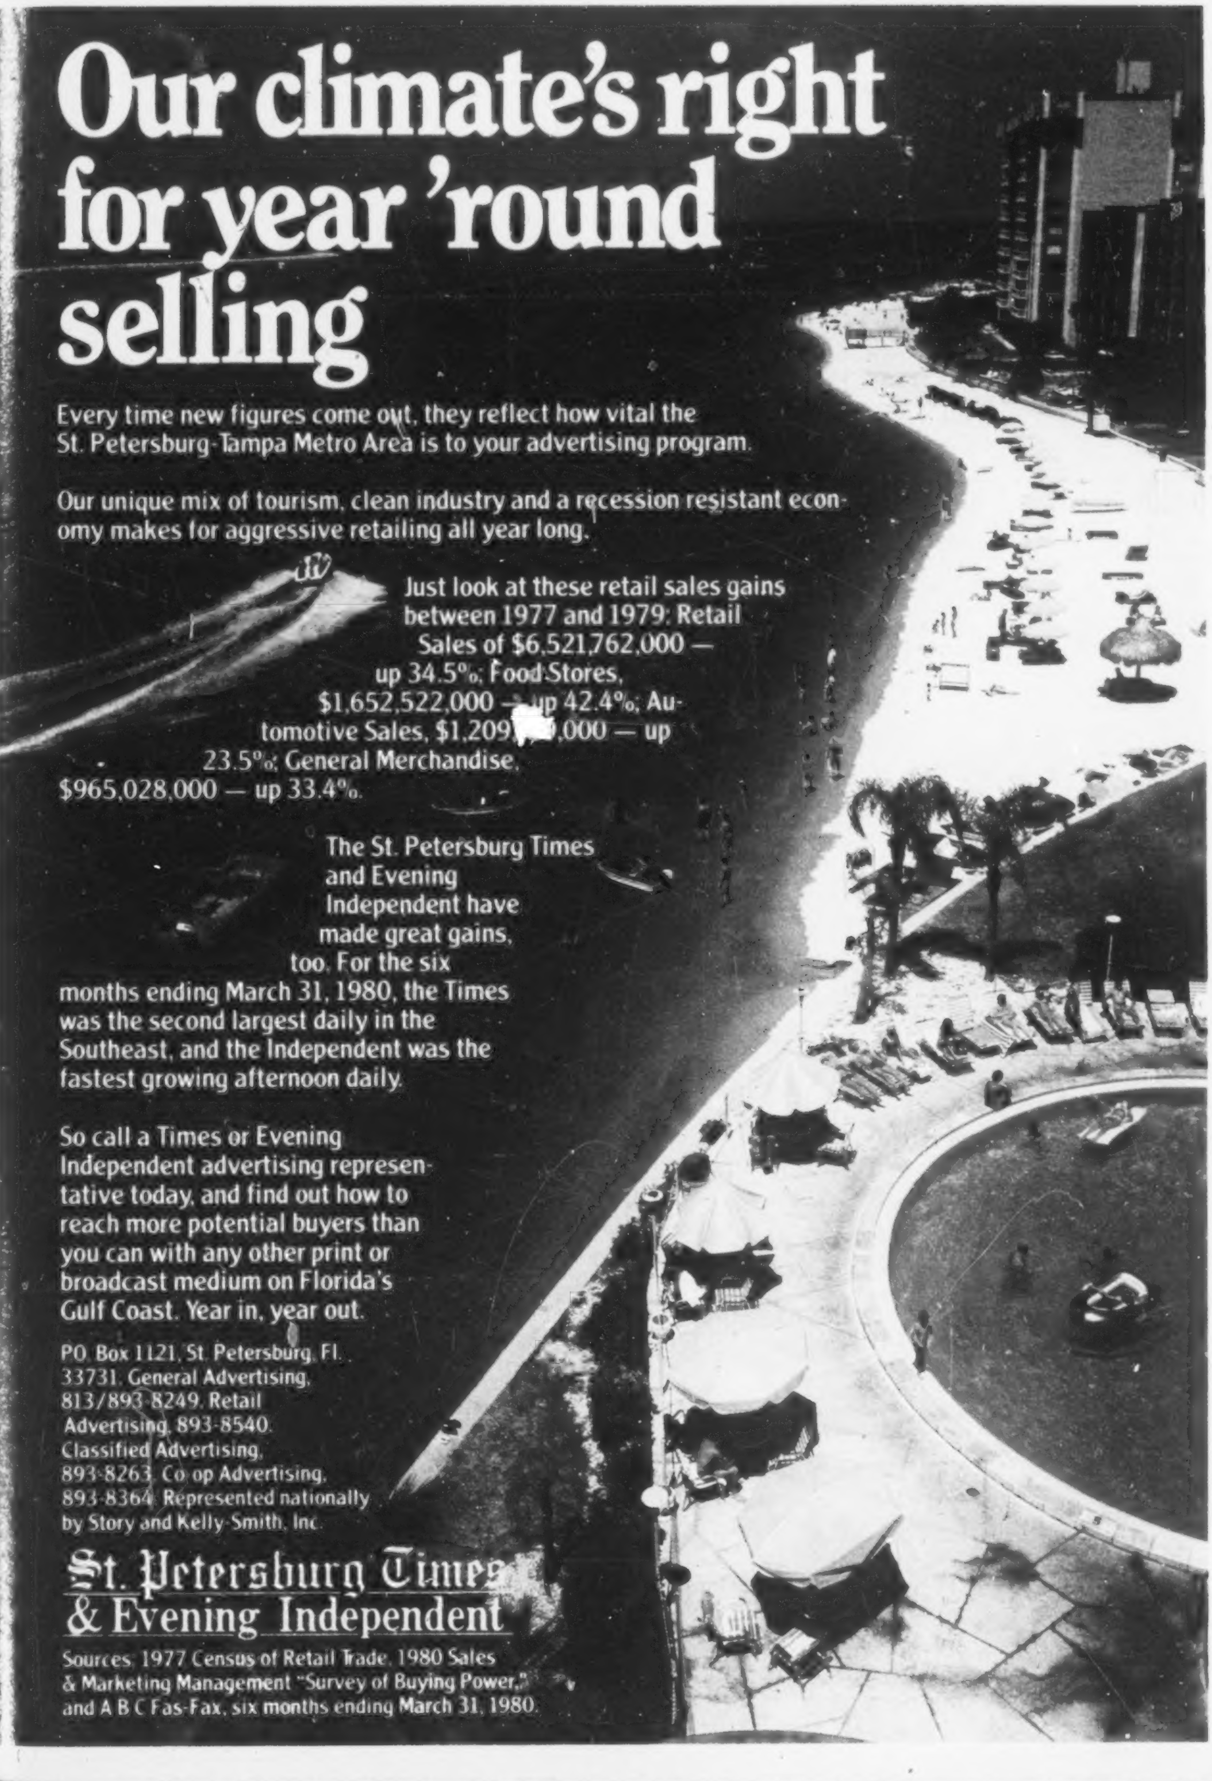
SARASOTA HERALD-TRIBUNE/JOURNAL
CLEARWATER SUN and LAKELAND LEDGER
(The Tampa-St. Petersburg 18th ADI Newspaper Group)
Tampa-St. Petersburg COMBINED reach only 47.9% gross household coverage in this 18th ADI.
BY ADDING OUR NEWSPAPER GROUP, YOU REACH 154,000 HOUSEHOLDS, BRINGING YOUR GROSS ADI COVERAGE TO NEARLY 65%.
Contact: Branham Newspaper Sales or Publishers Representatives of Florida.



Our climate's right for year 'round selling

Every time new figures come out, they reflect how vital the St. Petersburg-Tampa Metro Area is to your advertising program.

Our unique mix of tourism, clean industry and a recession resistant economy makes for aggressive retailing all year long.

Just look at these retail sales gains between 1977 and 1979: Retail Sales of $6,521,762,000 — up 34.5%; Food Stores, $1,652,522,000 — up 42.4%; Automotive Sales, $1,209,[illegible],000 — up 23.5%; General Merchandise, $965,028,000 — up 33.4%.

The St. Petersburg Times and Evening Independent have made great gains, too. For the six months ending March 31, 1980, the Times was the second largest daily in the Southeast, and the Independent was the fastest growing afternoon daily.

So call a Times or Evening Independent advertising representative today, and find out how to reach more potential buyers than you can with any other print or broadcast medium on Florida's Gulf Coast. Year in, year out.

P.O. Box 1121, St. Petersburg, Fl. 33731. General Advertising, 813/893-8249. Retail Advertising, 893-8540. Classified Advertising, 893-8263. Co-op Advertising, 893-8364. Represented nationally by Story and Kelly-Smith, Inc.

There is more to Georgia than Atlanta...the
GEORGIA GROUP
AUGUSTA•COLUMBUS•MACON•SAVANNAH

'THE NATION'S
#1 NEWSPAPER GROUP BUY'

Georgia Group Circulation
289,726
59,000 MORE CIRCULATION THAN THE WESTCHESTER GROUP

The Georgia Group would rank
38th in POPULATION
40th in TOTAL RETAIL SALES
and in all categories rank in the
TOP 40 MARKETS

	Georgia Group	National Rank
Population	980,300	38
Total Retail Sales	$3,602,813,000	40
Food Store Sales	$734,740,000	42

A

Hot 'lanta:

Hot prospect for heavy sales.

When it comes to buying power, the Metro Atlanta market is red hot. Compare Atlanta's position as the nation's 19th market in population to its sales-per household rankings among the top 20 markets. This trend-setter for the South rises to 5th in total retail sales per household, 1st in eating and drinking place sales, 3rd in general merchandise store sales and 3rd in gasoline station sales.* And a single newspaper buy reaches these active spenders with 51% daily penetration, 67% on Sunday and 80% over 7 days. The Atlanta Journal and The Atlanta Constitution. When you want to reach the South's buying power, reach out with our selling power.

CHICAGO
Sun-Times ★★★★★

In Chicago:

Now the Sun-Times reaches more adults 18-49 than the Trib!

Food
MARINADE

They're the active spenders—the movers of Chicago's marketplace. And the daily Sun-Times reaches more of them than the other daily paper. A healthy 31% more.

Want a younger audience? The Sun-Times also covers far more 18 to 34-year-olds in the SMSA. More working women, too. In short, the Sun-Times leads the Tribune in your key demographic targets.

Daily Coverage in Chicago SMSA

	SUN-TIMES	TRIBUNE
WOMEN 18-49	40%	30%
MEN 18-49	43%	33%
ADULTS 18-49	41%	32%
WOMEN 18-34	39%	27%
MEN 18-34	44%	31%
ADULTS 18-34	41%	29%
WORKING WOMEN	40%	37%

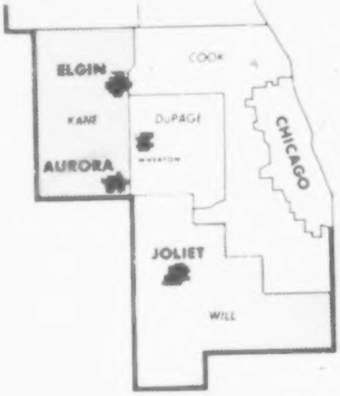
one-third of the Chicago SMSA is not effectively covered by the Chicago Tribune and Chicago Sun-Times



. . . . to reach that important market segment in Kane and Will counties, you need

Greater Chicago Newspapers

Greater Chicago Newspapers DELIVER 57% coverage of the suburban two-county "MARKET-APART" not reached by the Chicago newspapers . . .

- 590,400 POPULATION
- 186,100 HOUSEHOLDS

Greater Chicago Newspapers REACH

- ★ 1 out of every 2 adults with household incomes $25,000+
- ★ more than two-thirds of the people between the ages of 25 to 44
- ★ more than two-thirds of all adults in Kane and Will counties
- ★ almost twice as many adults as the Tribune or Sun-Times who are college graduates or better
- ★ twice as many people as the Tribune and Sun-Times who have traveled by airplane (domestic) in the past 12 months
- ★ over 58% of the professional/technical people in Kane and Will counties

MONEY MANAGEMENT

AS THE PUBLIC'S NEED TO UNDERSTAND GROWS, SO DOES OUR CIRCULATION LEAD.

The March 31, six-month figures show a substantial increase in our circulation dominance, daily and Sunday. These figures are good news for us and our advertisers, and they are likely the sign of a 1980's circulation trend as well.

More and more these days, people are seeking a deeper understanding of the issues and events which so deeply affect the way they live. And in Chicago, only one paper has the depth to satisfy the public's thirst for information completely: Chicago's complete newspaper, the Tribune.

To understand why we view this as the beginning of a trend, check the figures.

	Total Circulation		Primary Market Area Circulation		Suburban Circulation	
	Daily	Sunday	Daily	Sunday	Daily	Sunday
Tribune	789,767	1,146,474	686,962	997,753	412,220	637,901
Sun-Times	657,275	700,315	643,341	678,004	258,676	317,424
Tribune Lead	132,492	446,159	43,621	319,749	153,544	320,477
Increase in Tribune Lead March 31, 1980 compared to March 31, 1979	**20,817**	**8,490**	**21,566**	**11,755**	**6,433**	**11,297**

Naturally, ad linage has followed suit. For the three-month period ending March 31, 1980, the figures underscored our domination.

	Total Ad Linage	Display Ad Linage	Classified Ad Linage
Tribune	27,085,276	15,625,344	11,459,932
Sun-Times	13,044,765	8,768,220	4,276,545
Tribune Lead	**14,040,511**	**6,857,124**	**7,183,387**

In short, our domination of the Chicago circulation and ad linage continues to be very much like the newspaper itself—complete.

WE COVER THE TOP 86%
OF THIS $9 BILLION MARKET!

INDIANAPOLIS
SMSA

Reach 86% of all adults in the Indianapolis 8-county Standard Metropolitan Statistical Area.
Combine any weekday with Sunday, and we'll deliver 86% coverage. Quality coverage. Coverage of those most able to buy your product or service — those with higher household incomes and higher levels of education.

Make more than a million gross impressions.
With your ad in both dailies — The Star and The News — plus The Sunday Star, you will reach 690,000 adults and make more than a million gross impressions in the Indianapolis SMSA alone. This is an excellent start toward achieving your sales goals. And, it will show you why a regular schedule is a wise investment.

Indianapolis has more than $9 Billion to spend!
The total effective buying income (after taxes) for the Indianapolis SMSA is more than $9 Billion.

Indianapolis income is 13% above the national average.
The average household net effective buying income (after taxes) in the Indianapolis SMSA is $22,552. That's not only 13% above the national average, it is also a 14.4% increase during the past year.

Indianapolis retail sales per household are 13% above the national average, too.
In the Indianapolis SMSA, the average household accounts for retail sales of $12,810. And, total retail sales for the area are more than $5 Billion.

Loyal readers look to The Star and The News for their shopping information.
In today's economy where your advertising dollars have to work harder, it's important to invest them in a medium that has earned the confidence and trust of both your customers and prospects. Discriminating Indiana residents look to The Star and The News for reliable news coverage and for guidance on a wide variety of subjects. And, when they're spending their hard-earned dollars, these loyal readers also look to the same trusted sources for their shopping information. In fact, in a recent study conducted in the Indianapolis SMSA, 69% said they preferred newspapers for their shopping information.

Find out more about the profitable Indianapolis market.
Our comprehensive marketing publications are yours for the asking. See your Star and News representative. Or contact:

When newspapers brag about their coverage, the paper that comes out on top for A.D.I. penetration is the Dubuque Telegraph Herald. With 84.6% Sunday coverage and 81.7% daily coverage, the Telegraph Herald covers the Dubuque A.D.I. as no other paper covers its own A.D.I. You also get the bonus of another Telegraph Herald readers in the Cedar Rapids-Waterloo, Madison, Quad Cities and Rockford A.D.I.'s.

When media planners are pondering the Dubuque market, the Telegaph Herald looks especially dominant versus TV watchers. Some 90% of the Dubuque households subscribe to cable TV. These viewers now have a choice of 12 channels and within a year will have 35 to choose from!

For more information on the matchless media choice, call 319-538-5723 or contact Branham Newspaper Sales.

Oddball, like the newspaper situation in Iowa. With a single buy you penetrate a market richer than the St. Louis metro area!

Add the Oddball.

The oddball coverage of the Des Moines newspapers penetrates a big, rich state with a single buy.

A newspaper, named after a city that doesn't even make the top 100, can blanket a statewide market with more buying power than the St. Louis metro area?

Definitely odd. But true. For example, **one buy** gives you a 39% average penetration of four Iowa ADI's. **One buy** gets you an average 50% coverage in 83 out of Iowa's 99 counties. With **one buy** your ad will get into almost half a million homes — practically every other home in Iowa. And **one buy** lets you reach a market that has over $21 billion to spend.

If you're buying newspapers by SMSA's or ADI's, you're leaving a big hole in your media plan. Fill the hole. In one. Add the Oddball.

THE WICHITA EAGLE AND BEACON
MORNING
EVENING
SUNDAY

A Market Worth Harvesting!

KANSAS IS IN THE BAG!

Kansas' fertile economy, as the nation's wheat, meat, oil and airplane center, is worth cultivating with a heavy ad schedule!

Reach it with a single ADI (Wichita-Hutchinson) that nearly covers the state, with ***• 1,084,000 population • 403,300 households (54th ADI nationally) • $7,105,610,000 CSI (52nd ADI nationally)***

Reach it with a single newspaper buy! The Wichita Eagle and Beacon alone delivers ***• 38% ADI penetration • 161,277 total circulation***

Contact: Knight-Ridder Newspaper Sales, Inc.

The Wichita Eagle and Wichita Beacon

THE BLUE GRASS: A THOROUGHBRED MARKET

World renowned for champion thoroughbreds, the Blue Grass region of central Kentucky has also burgeoned into a thoroughbred market. The figures tell the story: a vast, lucrative, virtually untapped market...available only through the Lexington Herald-Leader.

	1975	1978	1983	% Change
EBI	$1.4 billion	$1.9 billion	$3.3 billion	131%
EBI/HH	$14,712	$18,983	$28,783	96%
Retail Sales	$848 million	$1.2 billion	$2.0 billion	134%
RS/HH	$8,715	$11,780	$17,267	98%
Population	294,700	305,400	324,400	10%

3rd in nation, per capita income growth 1969-1976*
SMSA pop. 449,600**
4th largest port in nation***
BATON ROUGE
$
College student population of 34,000
2nd largest oil refinery in nation****
Highest average effective buying income per household in Louisiana, $19,955**

Increase sales in the youngest, most affluent major market in Louisiana with the State-Times & Morning Advocate. Combined daily circulation has increased to 119,876 (ABC March 30, 1980). For the full story on using our newspapers to sell in the Baton Rouge market, call Don Stewart, (504) 388-0272. Or talk to our national representative, Brannam.

OOPS!

Everybody's human...even Sales and Marketing Management makes mistakes. The 1979 Survey of Buying Power understated the Baltimore SMSA Total Retail Sales by over 13%.*

Now that the correct data is available, take another look at the market and you'll be surprised at Baltimore's vitality and growth!

WJZ-TV has prepared a market analysis explaining the new data available for Baltimore. For your copy, circle #1 on the Worth Writing For Card insert, or send your request to Ms. Ruth Heltne, Market Development Manager, WJZ-TV, Television Hill, Baltimore, MD 21211.

Lowell, Mass.

"The changes in the region, and in Lowell in particular, are startlingly obvious."

—**The New York Times**
January 22, 1980

"One of the biggest current projects and the prototype for future national urban parks . . . is the Lowell National Historical Park.

. . . Lowell will again display, in refurbished 19th century dress, the historic resources that helped spark America's industrial growth and might."

—**The Washington Post**
February 17, 1980

"Lowell . . . is booming again as computer companies locate or expand their operations away from Boston."

—**Chain Store Age Executive**
May, 1980

Boston shops around The Globe.

The Economy
Travel
Food
Globe

The people who buy The Boston Globe buy a whole lot more. That's because they have the money to afford more. More vacations. More investments. More clothes. More home improvement loans. More of whatever you're selling. When you want to sell the people who buy, buy The Boston Globe. Because Boston buys what it sees in The Globe.

If we told you a buy with *one* ad in the Boston Herald American plus *one* ad in the Boston Globe costs less and has a better reach than two ads in the Globe you'd say:

"BULL!"

But it's all true. Fact. Not fiction. If you've pledged your allegiance to one Boston newspaper, you're missing a great newspaper scoop. And you're missing out on a truly brilliant media buy. Check out the figures.

	2 ADS GLOBE	1 AD HERALD AMERICAN 1 AD GLOBE
Cost per line	$7.40	$6.69
Reach (Adults 18+)	1,571,000	1,807,700
C.P.M.	$4.71	$3.70
Coverage of A.D.I.	41%	47%

That's 15% more coverage at 10% less cost.*
Now what do you say?
Call the Boston Herald American at (617) 426-3000.
Ask for Advertising Director Jack Sweeney.
Just say, "Bull!"

The Oakland Press.

To a lot of people in Oakland County, it's the only paper in town.

73,066 homes in Oakland County, the nation's 8th richest, read the Oakland Press. So if you're an advertiser, and if you want a big share of the market in Oakland County, you need the Oakland Press. For more information, contact your CWO & O representative.

THE OAKLAND PRESS

“The Free Press offset reproduction is excellent!”

Dianne Axmith, V.P.

“We use spot color. The Free Press offset reproduction is, of course, excellent. And that's one more reason why we use the Detroit Free Press.”

Dianne Axmith, V.P.
Camp Associates Advertising Limited

“The Free Press came through for us . . . It reaches the Detroit market. That's prime visitor country for us in Toronto.”

Ray Atkinson, V.P.
Tourism and Marketing
Convention & Tourist Bureau of
Metropolitan Toronto

“We are a couponing vehicle, and we need the Free Press in the Detroit market to reach our audience.”

Kim Walker

Kim Walker
Media/Operations Manager
Newspaper Co-op Couponing/Division
Marketing Corporation of America

“We can't do without the Free Press. Without it we would be sorely missing a great segment of the marketplace.”

Charles F. Buccieri, Sr. V.P.
Media Director
Leber Katz Partners

We're spreading our wings. The Detroit Free Press now has the world's largest offset newspaper plant. Resulting in everything from enhanced reproduction to more lifelike color. Plus increased production capacity and ad space availability. For superior reproduction . . . and superior readership . . . contact the Free Press or Knight-Ridder Newspaper Sales. In Canada, MPR.

Detroit Free Press

The right paper to reach the right people.

95 WJFM

We're playing their songs.

According to the Oct./Nov. 1979 Arbitron report, WJFM has moved into first place from 6 a.m. to Mid., Mon. through Sun., among women in the sales-active 18-34 age bracket. We're #1 among those women in each day-part during the week, too. And, more women 18-49 listen to WJFM from 7 a.m. to Mid. on weekdays than to any other station in the market. With all the power of the nation's strongest FM station, we're playing the contemporary mellow sounds young adults want to hear. In fact, WJFM is tied for first with adults 18-34 from 10 a.m. to 3 p.m. weekdays, and is second overall from 7 a.m. to Mid.

We're moving up with the people who are moving up. Why don't you come along with us?

1.0 mv/m and 50 uv/m Contours predicted in accordance with Section 73.313 of the Rules of the F.C.C. provide services as defined in Section 73.315 of those rules.

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

HOW TO REACH 149,159 AFFLUENT HOUSEHOLDS* IN THE DETROIT MARKET WITHOUT ADVERTISING IN DETROIT NEWSPAPERS.

It's simple. Place your ads in the Observer and Eccentric newspapers. You see, we reach directly into free-spending suburban Detroit. Places like Birmingham, Bloomfield and Southfield where you can be sure your message is reaching people with big dollars to spend. More people, in fact, in the areas they serve than the Free Press or the News. Call George Hagan **collect** at (313) 591-2300. Or call our National Advertising Manager, Kevin Curley at (313) 644-1100. They'll tell you how you can make the most out of the fifth richest market. And ask about "A Newspaper for All Seasons" report.

THE 12 TWICE WEEKLY

Observer & Eccentric

NEWSPAPERS

We reach more people in our own hometowns combined than the Free Press or the News.

Birmingham/West Bloomfield Eccentric, Canton Observer, Farmington Observer, Garden City Observer, Livonia Observer, Plymouth Observer, Redford Observer, Rochester Eccentric, Southfield Eccentric, Troy Eccentric, and Westland Observer

The Detroit News
FREE PRESS

Our Sunday edition is decisively number 1.

The Detroit News is read religiously every Sunday by more zealous souls than any other paper in Michigan. Talk to us. We'll make a believer out of you.

We're far and away first in classified.

When Detroiters want to talk to each other, they do it in The Detroit News. If you're a smart, cost-efficient advertiser, you'll do the same.

Overall, we're over all in Detroit.

The Detroit News. As always, we're number one. Which would seem to indicate that if you want to reach and sell the Detroit market, we might be of some assistance. Call us. (313) 222-2332.

AS YOU CAN SEE, WE COVER DETROIT. **THE DETROIT NEWS**

Member Million Market Newspapers, Inc., and Metropolitan Sunday Newspapers, Inc. Represented by The Leonard Company in Florida, Hawaii and Mexico. American Publishers Rep. Ltd. in Canada. For more information call: (313) 222-2332

uskie's '76 job
good but temp

And they read The Star and the Tribune.

[1] Among major metros (those with at least two million people), Minneapolis-St. Paul has the highest percentage of young adults 18 through 34 years old.*

[2] The $18,822 median income per household in Minneapolis-St. Paul is the seventh largest among the country's 15 major metro areas.*

[3] Minneapolis-St. Paul's percentage of high-school graduates was 70.6% according to the 1970 U.S. Census; and at that time, only two of what were then the 15 largest markets had a higher percentage.

Facts like these are part of the quality of life in Minneapolis-St. Paul: More technical and light manufacturing than heavy industry, with more white-collar and skilled workers, a lot of disposable income, and a low unemployment rate.

And when you advertise in The Minneapolis Star and Minneapolis Tribune, you reach 52% of all adults in the 10-county SMSA daily, 63% on Sunday. Readership jumps to 58% daily, 74% Sunday among the young, well-heeled and well-educated.

For full market and readership data, call our Display Advertising Manager, Jim Anderson (612/372-3907). Or our representative at Cresmer, Woodward, O'Mara & Ormsbee, Inc.

How To Reach Kansas City's Prime Consumers

Kansas City, the nation's 29th largest metro area, is a key location for marketing your products and services. Ranking number 5 among the nation's top 30 markets, in retail sales per household, Kansas City is a young, affluent and active buying market.

With a median age of 29 and nearly 60% of the population under 35, the majority of Kansas Citians live in households with effective buying incomes above $15,000. In fact, a third maintain yearly incomes over $25,000. Kansas City's Effective Buying Income of $18,500 is more than $2,000 higher than the national average.

The Kansas City Times and Star cover the area's prime consumers like no other medium can. They reach 558,000 daily and 658,000 Sunday readers.

Every day, 70% of Kansas City adults living in households with incomes of $25,000 and above read the Times/Star. On Sunday, that figure rises to 78%. Coverage of the prime 18-49 consumer group is 56% daily and 70% on Sunday. In addition, 74% of area college graduates are daily readers and 84% are Sunday Star readers.

When you need to reach Kansas City, do it through the Times and Star. Kansas City's dominant medium.

DAILY INSERTIONS	REACH	FREQUENCY	% OF MARKET
1	558,000	1.7	61
3	623,000	4.5	68
5	653,000	7.2	71

SUNDAY INSERTIONS	REACH	FREQUENCY	% OF MARKET
1	658,000	1.0	72
2	707,000	1.9	77
3	728,000	2.7	80
4	740,000	3.6	81

If you could buy only one TV station in Nebraska, which would you choose?

How about the one that's first in the NATION in prime time audience share: KOLN-TV/KGIN-TV.

Our 52% share* of TSA adult viewers, 18+, during prime time indicates how KOLN-TV/KGIN-TV dominates Nebraska's big Lincoln-Hastings-Kearney market. Get all the facts and figures from Avery Knodel.

Reno: The Market That Never Closes

"15th Fastest Growing Market in America", *S&MM Survey of Buying Power.*

Thriving, fast-paced Reno is the boom market of the New West. Set in the fastest growing state in the country.* Reno is attracting new businesses, new workers and new consumers every day, swelling the market population to more than a quarter of a million. And with a per household EBI of $24,130,** Reno offers buying power to match its growth.

The Gazette and Journal deliver 67% of the City Zone and 53% of the combined CZ/RTZ daily *** Don't miss out on this one-buy opportunity to fantastic Reno… the market that never closes!

BERGEN MEANS BUSINESS . . .

BIG APPLE

In Bergen, the only New Jersey county in the New York SMSA, median household Effective Buying Income (EBI) is $24,604 -- 52% above the national average; and per household retail sales are $12,246 -- 15% above the national norm.

If you want to do more business in the #1 market, advertise in The Record, with more circulation in Bergen County -- daily or Sunday -- than all the New York City and Newark newspapers combined.

Let us prove that Bergen means business.
Call (201) 646-4214.

New Jersey's Largest Evening Newspaper

The Record

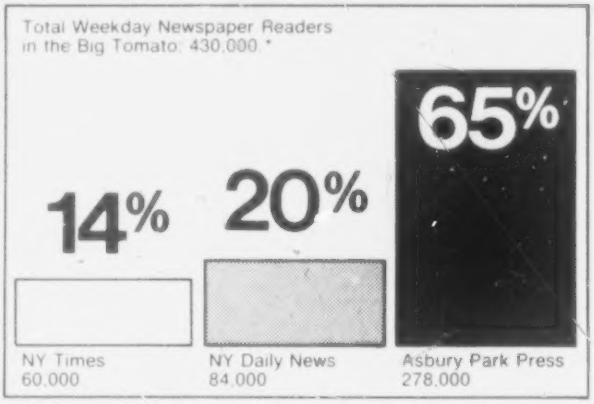
National representatives: Sawyer-Ferguson-Walker Co.

When you buy the Big Apple, you don't get the Big Tomato.



Readership for the other NY dailies less than 1%.

*Belden CMS, March 1980.

In the Big Tomato, New Jersey's Metro Monmouth and Ocean counties, the readership of the *New York Daily News* and the *New York Times* combined doesn't equal the readership of the *Asbury Park Press*.

Call our marketing department

Any way you slice it, it's one of the best EBI's in the New York ADI.

Jersey 2 has an average household EBI of $27,637*.

That's 21% higher than the average household EBI in the New York ADI of $22,853*.

And 34% higher than the average United States' household EBI of $20,685*.

*Source: S&MM Survey of Buying Power 1980

Jersey 2

Jersey 2 has the second largest evening circulation in New Jersey. This audience is over 1 million people and their retail sales expenditures are over 4 billion dollars.

So when you're consiđing EBI in your buy, plan the slice that really counts, Jersey 2.

COMING OCT. 27

SURVEY OF BUYING POWER—PART II

HIGHLIGHTS

NEW SPECIAL TABLES: Analyses of the critical changes taking place in regional and metropolitan markets.

METROPOLITAN MARKETS: Five-year projections of population, households, Effective Buying Income (EBI), average household EBI, retail sales, and Buying Power Index for S&MM's 300 metropolitan markets.

NEWSPAPER MARKETS: Population, households, Effective Buying Income, retail sales, and household coverage by local newspapers.

MERCHANDISE LINE SALES: Retail sales by product category for all 300 metropolitan areas and the leading distribution channel for each product class.

TV MARKETS: Total population, households, black population, Effective Buying Income, retail sales, and Buying Power Index.

'WORTH WRITING FOR' MEDIA/MARKETS SECTION: Local market data that are available from the media and other local sources of information.

ERRATA: Corrections for the few mistakes that are inevitably present in this issue of the *Survey*.

All Sales & Marketing Management subscribers will receive the October *Survey of Buying Power—Part II* as one of their regular issues.

Single copies of the *Survey—Part II* can be ordered at $20 each. The combination price for the two *Survey* issues is $57.50.

FOR RETAIL GOODS AND SERVICES BUFFALO TOPS NEW YORK STATE'S BIG SPENDERS

A cool $6.2 billion of Buffalo's $11.59 billion EBI is spent on Retail goods and services — that's 54¢ from every available EBI dollar. No other major metropolitan area in New York State can match this exceptional purchasing style.

And no newspaper in New York State outside Metropolitan New York City enjoys a larger reader audience than the Buffalo Courier-Express every Sunday. We're THE paper for 613,000 adult readers in this big 8 county market.

Daily and Sunday our highly competitive CPM rates let you reach more of the people who count — where retail goods and services are tops.

Good Morning

Courier-EXPRESS
795 MAIN ST., BUFFALO, NEW YORK 14240

Reaching Buffalo's ADI takes more than news.

1.8 million consumers with an Effective Buying Income of 11 billion dollars annually aren't sitting around.

So we publish Friday's Gusto Magazine for guides to great food, shows, listening and entertainment.

Saturday's Sports Magazine involves them in the athletic world. The plays, players, teams, standings and schedules.

Our Sunday Roto Magazine lets them know about colorful people, issues and the history that surrounds them.

They read us. Our demographics prove it.

So put your media message in front of an active consumer. Put it in the Buffalo Evening News.

For more information, call Hugh G. Monaghan at (716) 849-3422.

We deliver. 7 days a week.

SOURCE: ABC AUDIT REPORT - DECEMBER 31, 1979

The D.A.M.N.* unit was created with two of the fastest growing ABC newspapers in the New York City metro to offer advertisers the convenience of a unit buy at a discount rate. See our SRDS listings at the beginning of Connecticut and New York States and the individual listings by st[illegible]. Phone National Ad Director B. William Cangi at (914) 343-2181 or contact Branham Newspaper Sales.

For complete analysis, see D.A.M.N. Group (Danbury and Middletown Newspapers) ad in Connecticut Section "C."

Pocket Survey

of New York's Car Buyers

A lot of people in *New York City* carry subway tokens in their pockets—but no car keys.

A lot *more* people in the *New York Suburbs* carry car keys—but no subway tokens.

Combine car keys (1.7 cars per household) with check books and credit cards ($26,620 household income) and you have the Westchester-Rockland Market.

For 1979 and 1980 to date, the Westchester-Rockland Market had the greatest number of new passenger cars sold per 1,000 households of any major market in the New York ADI.

High *new car sales* per thousand means lower *cost* per thousand for new car advertisers. It's a good time for it.

New Passenger Car Sales Per Thousand Households (Year 1979)

Westchester Rockland Market	**188**
Bergen County	181
Nassau-Suffolk	172
Newark SMSA	148
New York City	52

(Westchester-Rockland-Putnam was also on top for the first two months of 1980. Source: R.L. Polk.)

Syracuse.
Good numbers. Better results.

Every smart media planner knows that no matter how good the numbers look, there's nothing like a track record to determine media effectiveness.

And judging by the reputation of The Syracuse Newspapers, we're high on the effectiveness scale. Syracuse didn't get to be #13 nationally in food lineage by accident!

Our combined morning and evening unduplicated cumulative weekday audience of our three-county SMSA tops 84% and on Sunday . . . 87%. That's 446,000 total adults with a median household income $874 above the national average.

But on top of that, our actual coverage includes the five* counties in our retail trading zone—over 800,000 people.

Those extra two counties are the "hidden bonus" you get when you buy The Syracuse Newspapers.

Like the man says: Don't buy the numbers . . . buy results.

Call The Syracuse Newspapers at 315/473-7765.

*(Onondaga, Madison, Oswego, Cortland, Cayuga)

BERGEN IS A SUPER MARKET... BIG APPLE

In Bergen, the only New Jersey county in the New York SMSA, per household food store sales are $2,673 annually. That's 36.8% greater than the average in the New York SMSA.

If you want to reach the big spenders, advertise in The Record. It has more circulation in Bergen County -- daily or Sunday -- than all the New York City and Newark newspapers combined!

For more information call (201) 646-4214.

New Jersey's Largest Evening Newspaper

OVER

5,700,000

LINES

Capital Newspapers Group's National Advertising department produced over 5,700,000 lines of advertising last year. That breaks down to almost 110,000 lines per week! It goes to show you that when advertisers and their agencies find a viable cost efficient market they use it — time and again. When you advertise in the Albany market, use the combination that works. Go with the winners — the Knickerbocker News, the Times Union, and the Sunday Times Union.

Call Chris Cunningham, Jr. at (518) 454-5680.

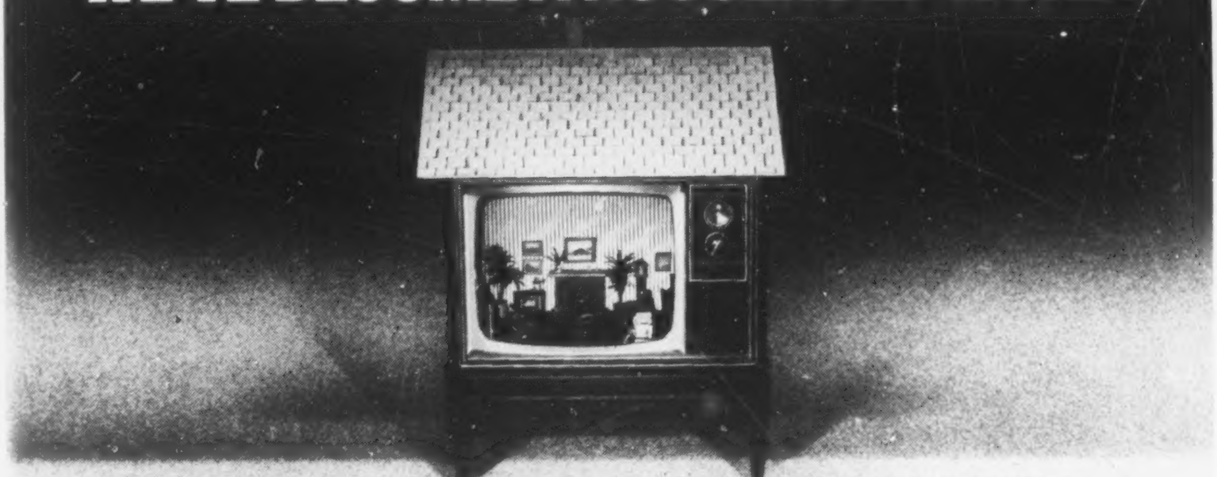
WE'VE BECOME A HOUSEHOLD WORD.



Television household, that is. And the word is growth.

According to Television/Radio Age, Raleigh-Durham doubled its television households in the last ten years. No other top one-hundred ADI grew as fast.*

And no other television station dominates Raleigh-Durham like WRAL-TV.

Raleigh-Durham and WRAL-TV — we've built a firm foundation for the 80s.

Katz American agrees.

WRAL-TV 5 RALEIGH

Raleigh-Durham, North Carolina • 919/828-2511

*Television/Radio Age, March 1980

WHATEVER AUDIENCE YOU'RE SHOOTING FOR, GO WITH THE BIG GUNS

The simple truth of the matter is this:

No matter what audience, what demographics, what market group you're trying to reach in the Carolinas, the big guns in this active marketplace are The Charlotte Observer and The Charlotte News.

No other media comes close to reaching the over $15,000 and over $20,000 income groups as effectively and in as much depth as these two newspapers. Or as economically.

And with an area unemployment rate that's barely half the national average, it's a stable, consistent market as well.

For all the facts, figures, demographics and information on Charlotte, its SMSA, and ADI market areas, contact Gene Williams, Advertising Director.

He'll show you how to hire the biggest guns in the territory without blowing your bankroll.

THE CHARLOTTE NEWS
The Charlotte Observer
Post Office Box 32188, Charlotte, NC 28232. 704/374-7087

It Takes 3 Papers To Effectively Cover The Carolinas' #1 SMSA.

A large share of the Carolinas' #1 SMSA, Greensboro/Winston-Salem/High Point, live in North Carolina's 6th largest city, High Point, and in the growing city of Thomasville. The Greensboro Daily News-Record and the Winston-Salem Journal-Sentinel don't successfully reach this important market with a total city zone household coverage of only 17.1%.

BUT, another newspaper does. The High Point Enterprise/Times, with a daily circulation of 38,471, reaches 85.2% of this important market.

So the next time your media buy includes the Greensboro/Winston-Salem/High Point SMSA, don't forget the High Point Enterprise/Times. WE WANT TO WORK FOR YOU!

Number 18. in a series of "go to's"

Go to Texas for size.

But come to Columbus for growth.*

* Over 70% population growth in the past ten years. And those newcomers are pumping a lot of money into the Columbus marketplace. Our buying power has increased over 321%* for the same period. Fact is, with over a million people and counting, Columbus is one of the fastest growing cities in the whole country! (Chances are, your sales can grow in Columbus, too.)

You can reach this multiplying market through the pages of *The Columbus Dispatch* and *Citizen-Journal*. Be sure to ask us about TMP—Total Market Penetration. For more information, just call us at 614/461-5204. Belden readership studies are available.

in Florida — The Leonard Com

The city that gave you aviation is the 44th ADI and climbing.

Dayton has both feet on the ground with new market selection figures in. We're now the 44th ADI. Our total effective buying income for ADI ranks 38th in the country or $19,157 per household.

Add that to the 69% penetration ... 59% Sunday ... you can get in the single Dayton/Springfield Newspapers buy. Ask for "Dayton in Detail" and/or Belden Readership Survey, free, by writing Ken Tinderholm, Dayton Newspapers, Inc., 4th & Ludlow Sts. Dayton, Ohio 45401. Call (513) 225-2085.

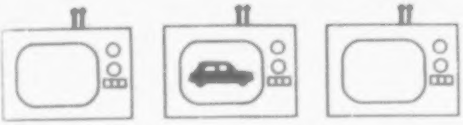
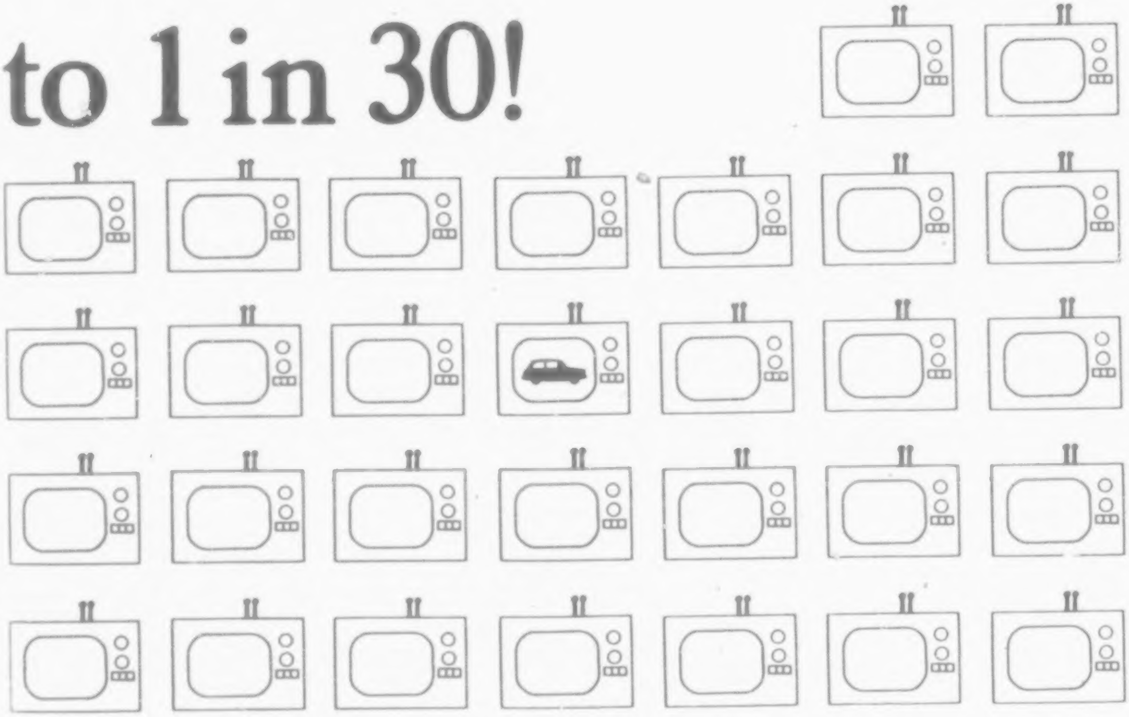
The chance of having your product seen by Tulsa TV viewers has dropped from 1 in 3



to 1 in 30!



When cable TV came to Tulsa, it was good news for the viewer, but bad news for TV advertisers. Suddenly, the chance to expose your advertising message to a viewer was divided among thirty stations.

If you want prime, unfragmented exposure to over a half-million people in the Tulsa area, advertise in the Tulsa World and The Tulsa Tribune.

TULSA WORLD ★ The Tulsa Tribune

Two independent and separately owned newspapers represented nationally by Branham.

Second in size . . . FIRST in growth!

EUGENE/SPRINGFIELD

Oregon's other IMPORTANT market!

Eugene/Springfield leads all Oregon SMSA's in the rate of growth of population, households, and retail sales.

And the Register-Guard's continuing circulation growth, up 6½% daily, 7% Sunday, provides the only guaranteed in-depth penetration of this rich $1,868,625,000 E.B.I. market.

It takes 2 in Oregon . . . Portland and EUGENE!

Eugene Register-Guard

P.O. Box 10188, Eugene, OR 97440
(503) 485-1234

Represented Nationally by Sawyer, Ferguson, Walker

How to cultivate a growth market that thrives in the rain.

Take the fastest growing state on the West Coast.

Sprinkle it liberally with an incoming population of 24-35 year old professional and skilled workers.

Then cover it like a blanket with Oregon's only statewide medium.

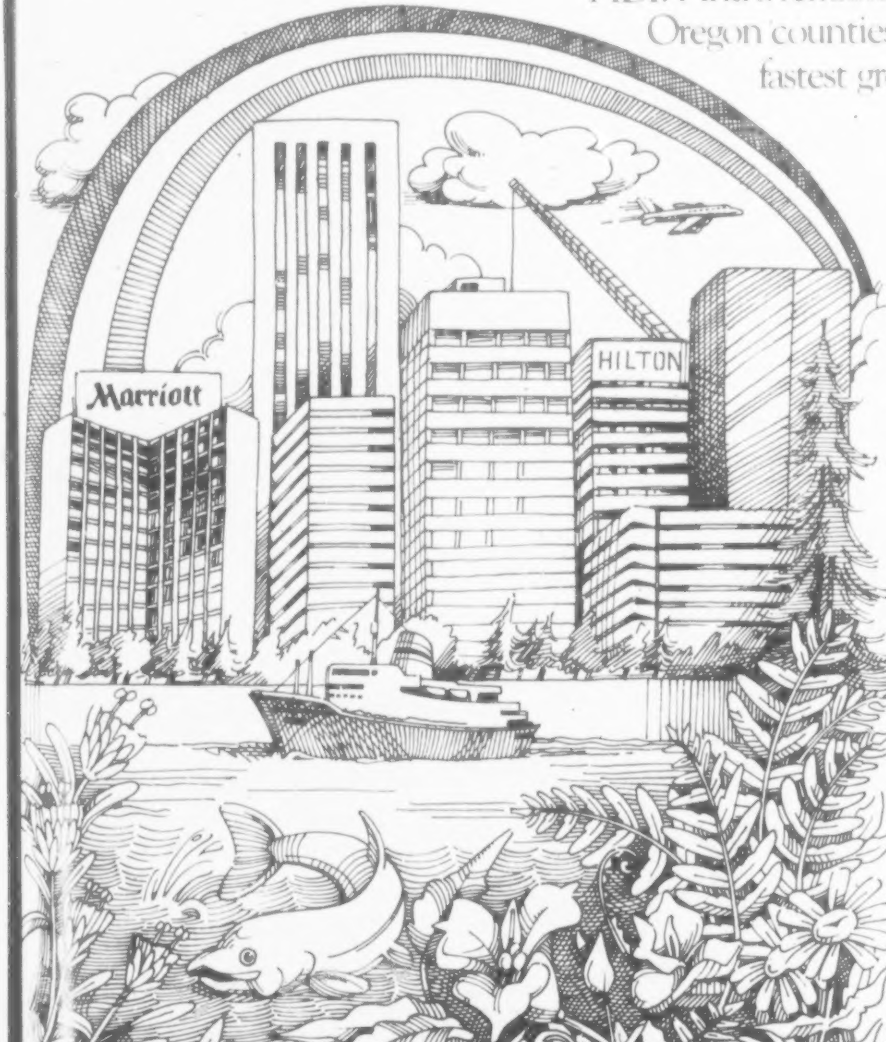
The result: a thriving growth market, and the perfect tool to cultivate it.

Combined, the Oregonian/Oregon Journal reach 900,000 people throughout the total marketing area. No other single medium can deliver so many customers, so efficiently, under one umbrella.

Each day you reach 49.3% of households in the Oregon counties of Portland ADI. And a remarkable 68.5% in the three Oregon counties of Portland metro — the fastest growing area of the state.

So to cultivate this fertile new growth market, *send today for our free Oregon Marketing Manual.*

Then break new ground with the Oregonian/Oregon Journal. It's the best coverage in Oregon.



I see Oregon in a whole new light.
What else is at the end of the rainbow?

Oregon without rain?

Just as incredible as the Portland ADI without Salem

Buying the Statesman Journal newspaper is necessary to reach more than 50 percent of the households in the Portland ADI. Any media plan without Salem's daily newspaper is incomplete.

You can reach the Salem market seven days a week with

Statesman Journal Newspaper

Represented nationally by Gannett Newspaper Advertising Sales

Statesman Journal Newspaper • P.O. Box 13009, Salem, Oregon 97309 • (503) 399-6648

WHAT SELLS IN THE NORTHWEST?

Fisher Broadcasting knows. For two years, we've been tracking retail buying and selling in the Northwest. Brand names. Share of market. Chief shoppers. Where purchased. Media habits. And more. For all the product categories shown below. And, because the Northwest's leading retailers help us select the categories measured, we know the most about what they want to sell too.

AIRLINES
AUTOMOTIVE
Motor oil
Mufflers
Batteries
Shocks
Tires
General accessories
Tune up parts
Engine parts
Specialized equipment

CHILDREN'S APPAREL
Infant/toddlers
Boys clothing
Girls clothing
Boys/girls shoes

COSMETICS
Facial or skin treatments
Color makeups
Perfume/cologne

DOMESTICS AND LINENS
FAST FOOD RESTAURANTS

2,BILLION
IN BUYING INCOME

That's the estimated buying income of Pennsylvania's Capital Market—the most prosperous in the state. Buying the Harrisburg Patriot-News gives you access to these people and their resources. The Patriot-News covers 74% of the Harrisburg Market Area.* Harrisburg is also the 16th market* in the nation in per capita income growth, and 29th in median household income. While industry continues to build in Harrisburg, state and federal jobs add to employment every year. The Patriot-News makes these people—and their high-buying incomes—accessible to you. Make sure Harrisburg is included in your '80-'81 schedules.

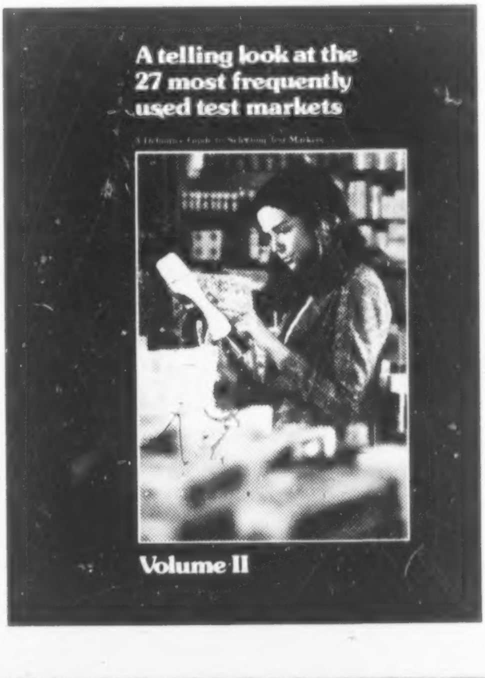
Wondering Where To Test Your New Product?



A telling look at the 27 most frequently used test markets

A Definitive Guide to Selecting Test Markets

Volume II

Are you questioning market testing methods, cities, demographics? Are you confused by reports on past product tests and are now considering your own time consuming research to find the market that is right for you?

Maybe you didn't know that the reliable information and documented statistics that you need are already available in an updated study that covers such topics as:

—**Why Test**
—**How To Set Up Your Test**
—**How to choose your market based on:**
  1.) Market Size
  2.) Demographics
  3.) Media Availabilities
  4.) Media Isolation
  5.) Control & Audit

This study also includes valuable data on the 27 most popular test markets and how they compare to the national profile in population, effective buying incomes, retail sales, demographics, and ADI and SMSA costs, coverage and ratings for broadcast and print media.

This free brochure includes all of the above information plus much more. Send in the coupon below to receive your copy.

Please send me a free copy of your test marketing brochure.

MARKET PLANS THRIVE ON LANCASTER COUNTY PLANTS

LANCASTER COUNTY is Pennsylvania's fastest growing SMSA. Our busy workers earn $647.1 million annually from 674 industrial plants ... plus an additional $455 million from farm production and value of livestock. The morning Intell and evening New Era reach 73% of the county's adults on a "read yesterday" basis ... 85.5% on a weekly cume.

$ $ $

As a bonus, The Sunday News carries your sales message to neighboring York, Adams, Lebanon and Chester counties as well as Lancaster. Reap a richer harvest of sales from this vital market by advertising in these Lancaster newspapers. For details call Mel Williams, 717 291-8700 or write:

at combination discount

In Philadelphia, The Bulletin delivers the "at home" reader. And the "at home" reader delivers the sales.

The 1979 Belden Study of Shoppers Who Read Philadelphia Newspapers is providing "landmark" findings for advertisers searching for a quality audience.

It compares daily "at home" readers versus "out of home" readers.

With these results:

"At home" readers spend 26% more time with their newspapers.

"At home" readers are more involved with their newspapers — take specific action like clipping an ad or coupon. (84% versus 70%)

"At home" readers make more purchases. (79% versus 65%)

"At home" readers "shop the ads" more often. (46% versus 30%)

"At home" readers make more trips to advertiser stores. (73% versus 58%)

58% of all shoppers who read a Philadelphia newspaper at home read The Bulletin.

That's in the 8-County Metropolitan Area (SMSA) — where The Bulletin's circulation lead over the Inquirer is 108,820. And 90% of Bulletin readers read The Bulletin at home.

The Bulletin delivers the "at home" reader and the "at home" reader delivers the sales.

That's "House Power." And in Philadelphia, only The Bulletin has it.

"Keep on delivering shoppers, Bulletin. That's why you're Number One."

The Bulletin

Morning, Evening, Weekend, Sunday

Nearly everybody reads The Bulletin

We don't promise a pot of gold . . .

but, quite frankly, our newspapers dominate Pennsylvania's 3rd EBI market. No other media can make that claim. So even though we can't promise gold, we can promise results. For solid proof, call Bob Richelderfer (215) 820-6634 or Story & Kelly-Smith for our latest Beldon CMS.

Solomon Top Cop

You've got to break some old habits to get to today's Philadelphians.

Nothing is changing faster these days than the Philadelphia scene. Gone with the past is the "tradition" of choosing a single evening paper. The Uni-Buy — The Inquirer and Daily News — is your smart buy today. With 43% more gross daily circulation, the Uni-Buy is way ahead of The Bulletin. And the lead keeps growing.

No wonder the Uni-Buy today is carrying 191% more full-run national automotive display advertising and 38% more financial advertising than the old-fashioned "evening choice."*

Nobody outnumbers us.

Philadelphia Inquirer & Daily News

Ask your Knight-Ridder representative for the fact-filled booklet, "The Uni-Buy That Buys Philadelphia."

THE GLOBE-TIMES is the MEAT in the SANDWICH of Penna.'s 3rd largest market!

If you're not using The Globe-Times you're missing thousands of homes in the most lucrative segment of this big metro-market.

ONLY The Globe-Times delivers to 3 out of 4 homes in the BETHLEHEM CITY ZONE.

Median Household EBI

ALLENTOWN	$17,763
BETHLEHEM	$20,002
EASTON	$15,045

Nationally Marketed by LANDON ASSOCIATES, INC.

Make an Impact on the Third Largest Corporate Power Center

23 Fortune 500 companies, more than 25 other major corporations make Pittsburgh the nation's third largest headquarters city.

Decisions made in Pittsburgh every day are important in shaping the nation's and the world's business environment.

Alcoa, Dravo, Gulf Oil, H. J. Heinz, Koppers, PPG, Rockwell International, Westinghouse, U.S. Steel and a host of other major companies are central to Pittsburgh's strength.

It takes tremendous financial power to support these significant corporate forces. Three of the nation's top 100 banks, Mellon, Equibank and Pittsburgh National, help provide this support. Their assets total more than 23 billion.

Take another look at Pittsburgh—soon. You'll be surprised at what you find!

Surprising Pittsburgh

The Pittsburgh Post-Gazette

The Pittsburgh Press
a Scripps Howard-newspaper

Represented nationally by Story & Kelly-Smith, Inc.

In the Primary Retail Market (PRM), the Providence Journal-Bulletin gives you 73.9% coverage and the Sunday Journal 68.5% coverage.

The daily Journal-Bulletin reaches 176,775 households in the PRM and the Sunday Journal 163,763 households.

And the PRM is where the action is: 73.5% of occupied households, 72.5% of car expenditures (new and used), 67.3% of furniture expenditures, 75.5% of apparel expenditures, 70.6% of food at home expenditures, 87.9% of food away from home expenditures, 70.3% of non-prescription drug expenditures.

In the entire state of Rhode Island, both the Journal-Bulletin and Sunday Journal have over 60% coverage.

Write or call Bill Peckham, General Advertising Manager, Providence Journal Co., 75 Fountain St., Providence, RI 02902/(401)277-7172, or contact Cresmer, Woodward, O'Mara & Ormsbee, Inc.

In South Carolina, Metro Greenville is the No. 1:

- ☐ Food Market
- ☐ Automotive Market
- ☐ Home Furnishings Market
- ☐ Building Supply Market
- ☐ Drugstore Market
- ☐ Market for Effective Buying Income
- ☐ Apparel/Accessories Market
- ☐ White-collar Employment Market
- ☐ Market for Population
- ☐ Market for Households
- ☐ Market for Total Retail Sales
- ☑ ALL OF THE ABOVE

Metro Greenville is the first and only $2 billion market for total retail sales in South Carolina.
Reach it efficiently with

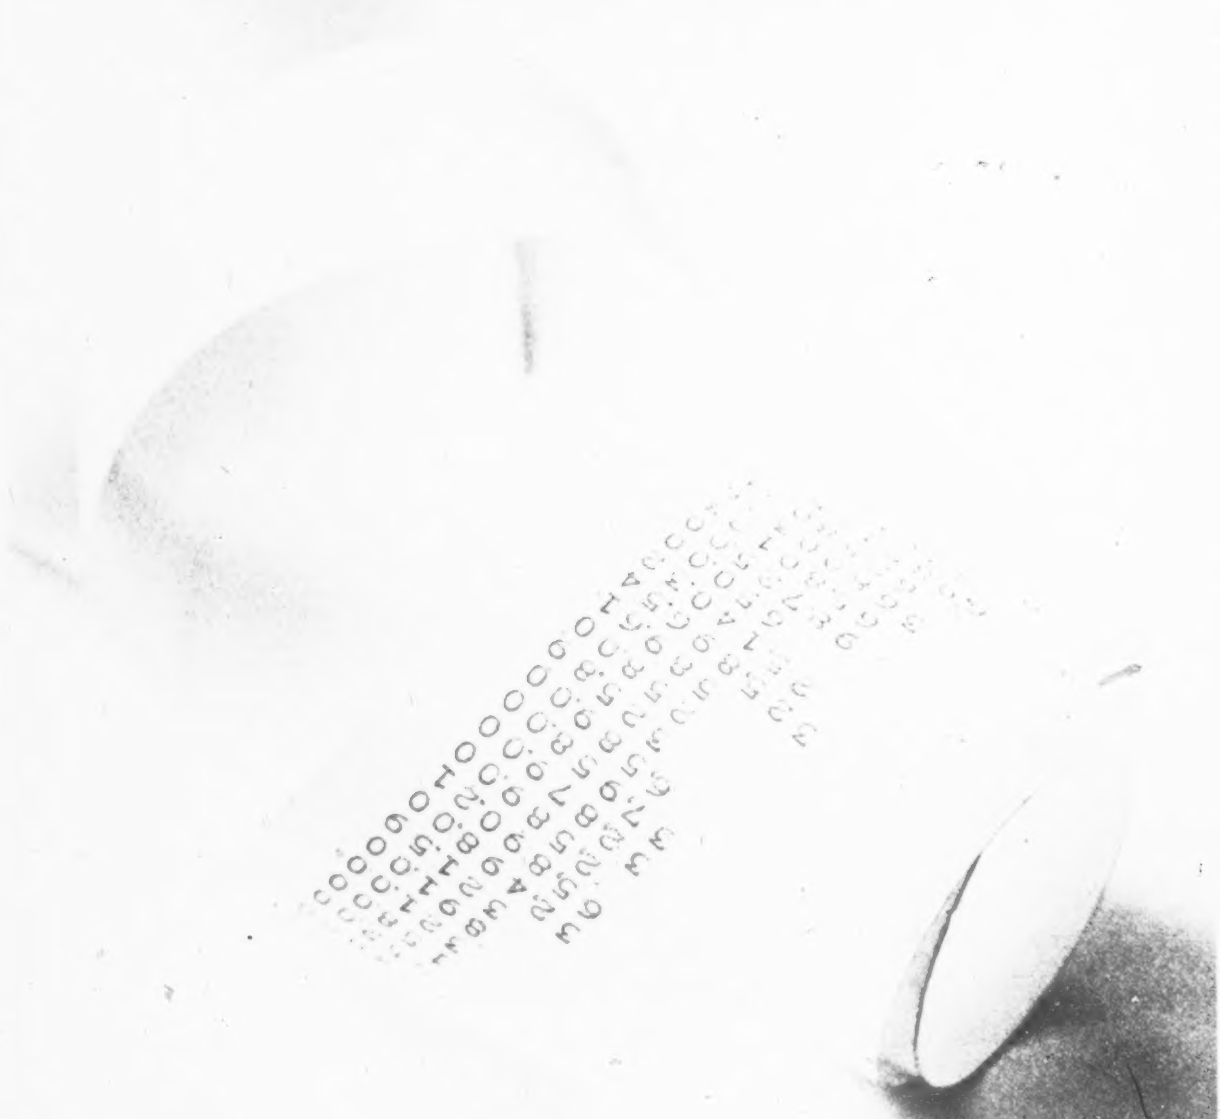
Metro Greenville is the Greenville/Spartanburg SMSA. Contact your nearest Sawyer-Ferguson-Walker office or call Greenville, S.C., 803/298-4342.

The only numbers worth counting are the numbers that count.



So, when you're buying South Carolina, all you need to remember is this: we deliver more papers every day than anybody in South Carolina (152,972), to an audience with the highest per household income in South Carolina ($21,593), for the lowest cost-per-thousand in South Carolina ($8.89). Are there really any other numbers worth counting?

Invited to the recession but declined to attend

. . . Knoxville, TENN.

Home of Oak Ridge, TVA and the University of Tennessee, Knoxville is a market "charged" with activity in research and development . . . also the site of the International Energy Exposition and World's Fair in 1982.

Knoxville ranks as the 12th metro area in the nation in per capita income growth ('69-'77), 20th in per family income ($21,100), 23rd in retail sales gain ('72-'77) (92%), and is one of the nation's top 50 test markets. Get the full story now from your Story and Kelly-Smith rep.

Knoxville, Tennessee, 37901 — Phone A/C 615-523-3131

THE KNOXVILLE NEWS-SENTINEL • The Knoxville Journ

Q:
Why buy Clarksville, Tennessee?
A:
Over $530 million in Total Retail Sales
Nearly $900 million EBI
Over $19,000 EBI per household
In the top 200 U.S. markets
A single rate paper
THE LEAF-CHRONICLE

FRESH
FROM MPC

TAKING A BITE OUT OF THE MEMPHIS MARKET

Memphis Publishing Company has the means for a polished media comparison — a refined approach to wise buying decisions for the Memphis Market. And the information we're providing decision makers really gets to the core of the matter — that newspaper is your best pick in Memphis — reaching 79% of the adults in the Memphis SMSA in a 5-day period.* You can bet our fresh data on reach and frequency is upsetting some long-standing apple carts.

Buy deep in the heart of Texas.

Our group buy delivers Texas' 3rd largest "newspaper market" with 54% penetration

At a 10% rate discount, our Group I "newspaper market" is an efficient buy. Our total population of 1,377,300 is third in Texas, as well as third in spendable income and retail sales. You get 11 markets in 65 counties with a combined daily circulation of 285,196. There's no significant duplication by metropolitan newspapers. One order, one bill.

CORPUS CHRISTI

Sparkling City by the Sea

Sunshine...sandy beaches...gentle breezes.
Corpus Christi has a lot to offer.
Our SMSA is the market place of South Texas.
The Caller-Times reaches almost
8 out of 10 households in the metro market.

We are ranked 18th in per household retail sales,
98th in food sales and 91st in apparel sales.

When you buy Texas, make sure you've
got South Texas covered.

We'll put the wind in your sales!

Corpus Christi Caller-Times

BRYAN OR DALLAS

When you buy Dallas, you'd better know the difference between Tyler, Texas and Tyler Street.

Buying a market you're not familiar with is at best, difficult. And with all the claims made by the competition about being number one everywhere in the state, it's hard not to believe them.

But remember this, when you buy the Morning News, you get almost a third of your reach outside the Dallas County Trade Area. In places like Tyler.

So if you want to reach the people of Dallas – like the ones that live on Tyler Street, you need the Dallas Times Herald. We'll deliver 21,000 more households in Dallas County than the competition. Because in the Times Herald, you get exactly what you pay for. Dallas. And more of it.

So go ahead and tell your media director you bought Tyler, Abilene, Marshall and Bryan. But only the ones with Dallas zip codes.

Dallas Times Herald
The newspaper Dallas can be proud of.

Represented nationally by Branham Newspaper Sales, Inc.

Chronicle Co-op is big in Houston

You get more when you co-op with The Houston Chronicle: more reach, more services, more placement options than with any other newspaper in Houston.

Big on reach:
With a readership of 685,000 adults daily and 951,000 Sunday, The Chronicle brings your advertising message to more people — and that translates to more customers per advertising dollar.

Big on services:
The Chronicle offers you up-to-date market research, custom designs in art and layout, manufacturer and dealer meetings, and special co-op invoicing to meet manufacturer billing requirements — services not generally offered by smaller newspapers.

Big on placement options:
Chronicle co-op programs offer you more choices for placing your ad — standard ROP sections, special advertising sections, pre-prints, zoned sections, our locally produced rotogravure magazine, Sunday Comics, or TV Chronilog. You pick the environment that fits your market.

It's easy to co-op with The Chronicle. Just call Jim McElgunn, our co-op advertising co-ordinator, at (713) 220-7650. We'll be happy to help you set up a program.

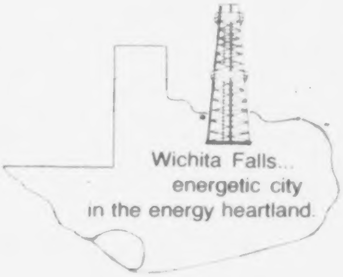
The name to remember
for a true test market

Wichita Falls Times and Record News

91% net reach SMSA
No. 1 advertising medium
in an ideal test market

c. 1980 S&MM Survey of Buying Power



Wichita Falls...
energetic city
in the energy heartland.

Wichita Falls...population,
economic center NC Texas

- Diversified industrial base
- Economic stability
- EBI $19,878 in SMSA
- SMSA 21st in retail sales per househould

Find out more from CWO&O about why Wichita Falls Times and Record News is an ideal test medium.

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

RICHMOND NEWSPAPERS HAVE MORE METRO AREA HOUSEHOLD COVERAGE THAN 93 OF THE TOP 100 COMBINED DAILIES IN THE NATION*....WHY?

When you publish more international, national, state and local news plus page after page of special interest news and features for the young, old and in-between ...including more sports, business, homemaking, weather, gardening, and food than any other medium in central Virginia, then you've got to be the best-read publication around.

And in the total market: • More Circulation
• More People• More Dollars
• More Retail Sales• More National Linage
• More Than Any Other Virginia Daily

To reach the central Virginia consumer, use the complete advertising medium.

*7th in the nation in percent of circulation to metropolitan area households. (Source: Circulation 79/80, American Newspaper Markets, Inc., Survey of Buying Power 1979, S&MM

WASHINGTON
MONTANA
SPOKANE
OREGON
IDAHO

Come over the mountains to a brighter market!

When you buy the Pacific Northwest include Spokane. It's the bright, rich market on the east side of the Cascade Mountains.

Bright Economy

Spokane's economy is exceptional. In the midst of national economic uncertainty, its diversified base stands strong. The 1.4 million people who live in this 35-county area spend $5.3 billion on retail sales.

Bright Test

Sales & Marketing Management includes list of test markets. Perfect. Spokane in its prestigious demographic characteristics. Isolation from outside media.

Bright Newspapers

It's rare to get massive coverage, strong circulation and intensive penetration of an entire market with just one newspaper buy. You do with the Spokane dailies. The Spokesman-Review and Spokane Daily Chronicle deliver 88.2% un-duplicated coverage in this dynamic 80,000 square mile area that spans parts of three states.

Find your place in the sun! When you buy the Pacific Northwest, include the market with sunshine — Spokane!

THE SPOKESMAN-REVIEW

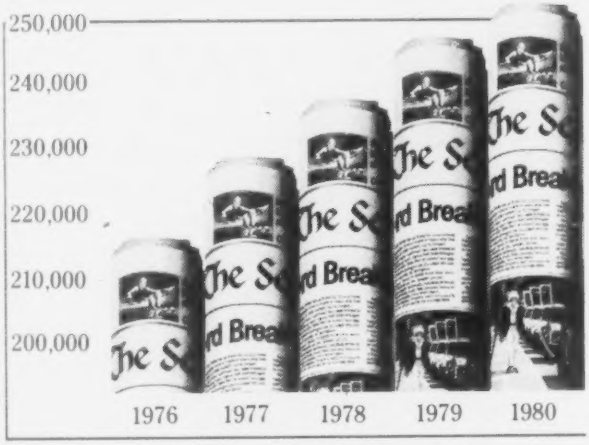
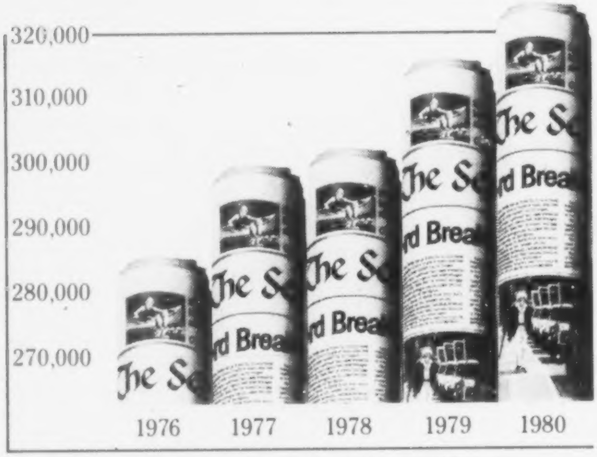
Cresmer, Woodward, O'Mara & Ormsbee, Inc.

ANNOUNCING TWO RECORD-BREAKING TIMES.



Seattle Times Daily Circulation.



Seattle Times Sunday Circulation.

It's official.

The Seattle Times now has the biggest lead ever over the Seattle Post-Intelligencer: 95,000 daily and 150,000 Sunday in the City and Retail Trading Zones.

Which simply means we can help you reach more people in Seattle than any other newspaper.

More professionals. More college graduates. More households with incomes of $25,000 and up.

And with our new morning edition, we'll help you reach them all day long.

So when you're looking for a more efficient media buy in Seattle, call our National Advertising Department at (206) 464-2441.

WHAT SELLS IN THE NORTHWEST?

Fisher Broadcasting knows. For two years, we've been tracking retail buying and selling in the Northwest. Brand names. Share of market. Chief shoppers. Where purchased. Media habits. And more. For all the product categories shown below. And, because the Northwest's leading retailers help us select the categories measured, we know the most about what they want to sell too.

AIRLINES
AUTOMOTIVE
Motor oil
Mufflers
Batteries
Shocks
Tires
General accessories
Tune up parts
Engine parts
Specialized equipment

CHILDREN'S APPAREL
Infant/toddlers
Boys clothing
Girls clothing
Boys/girls shoes

COSMETICS
Facial or skin treatments
Color makeups
Perfume/cologne

DOMESTICS AND LINENS
FAST FOOD RESTAURANTS
GROCERY STORES
HOME FURNISHINGS
Furniture
Rugs/carpeting
Floor covering
Draperies/curtains

HOME IMPROVEMENTS
Construction items
Paint
Electrical supplies
Shop tools
Hardware accessories
Wallpaper
Insulation/weatherstripping

JEWELRY
Watches
Fine jewelry
Costume/fashion jewelry

LAWN AND GARDEN
Plants
Outdoor power tools
Fertilizer/chemicals

MAJOR HOUSEHOLD APPLIANCES

MATTRESSES/WATERBEDS
MEN'S APPAREL
Suits
Sport coats
Dress slacks
Top coat/rainwear
Shoes
Active sportswear
Dress shirts
Basic furnishings
Casual pants/jeans
Casual shirt/top
Sweaters

PHOTOGRAPHIC EQUIPMENT
35mm camera
Pocket camera
Photographic accessories
Film
Film processing

SIT DOWN RESTAURANTS
SMALL ELECTRIC APPLIANCES

SPORTING GOODS
Athletic shoes/footwear
Ski equipment/clothing
Hunting/fishing/camping equipment
Other sporting goods

STEREO AND TAPE EQUIPMENT
TELEVISION SETS
WOMEN'S APPAREL
Active sportswear
Sportswear separates
Tops and blouses
Dresses
Jeans
Pants
Shoes/boots
Lingerie and foundations
Coat/jacket
Fashion accessories
Hosiery
Sweaters
Loungewear/sleepwear

WE'D LOVE TO SHARE!

If you're marketing in the Northwest, or seriously planning to do so, fill in the coupon below. Or call us.

☑ YES! I'd like to know more about the way my product moves in the Northwest.

WASHINGTON STATE OPEN BOOK QUIZ

(Reference to S&MM data encouraged.)

What major city in Washington has:
1. The highest median EBI?
2. The fourth largest population?
3. The fourth largest total in retail sales?

What newspaper covers this area and:
4. Has a circulation of 72,000 daily?

ANSWERS

1. Bellevue
2. Bellevue
3. Bellevue
4. Journal-American

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

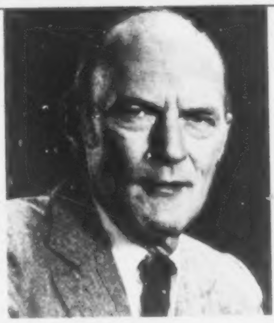
THE MILWAUKEE JOURNAL/MILWAUKEE SENTINEL

Our Co-op Action Plan, CAP for short, helps get your retailers and distributors into successful advertising action. Bill Born and his staff will help you plan a program that will fully utilize your co-op accruals. And CAP qualifies for retail rates. ☐ Here are sample formats we've used successfully with over 300 advertisers. ☐ dealer-corporate tie-ins ☐ dealer list ads ☐ and special sections ☐ It's up to you. Each program is custom-designed for maximum impact and dollar efficiency. ☐ Sales Managers and Advertising AE's are discovering how Bill Born and the Milwaukee Journal/Sentinel can help during initial co-op advertising planning. Simply send Bill the coupon below for our CAP brochure, or call him collect at (414) 224-2471 for immediate response.

START CO-OP DOLLAR PLANS HERE



Please direct our coupon to my attention:

Bill Born
The Milwaukee Journal
Journal Square
Milwaukee, WI 53202

Please send me your brochure outlining effective action courses for co-op advertising dollars.

∆ A potential metro area as defined by S&MM.
*The county in a multicounty market where the central city is located. If more than one county has an asterisk, it is because a multiname market has central cities in more than one county. The central city of a one-county market will be located in that county.

A Public Service of this magazine & The Advertising Council

AMERICAN RED CROSS
VOLUNTEER

Your Business can be one, too.

Red Cross needs individual volunteers, and donors of blood and money, by the millions.

But we need even more help. We need the solid support of American Business. And we never needed it more.

If your business is already helping, by organizing blood drives, and by supporting payroll deductions—either directly for the Red Cross, or through the local combined fund drive—the whole community owes you thanks. And we thank you, too.

Last year, with help from our friends, we offered major aid at over 30,000 disasters—from typhoons, to local (but just as devastating) house fires.

We were able to help the elderly with practical programs, we helped veterans by the hundreds of thousands, we taught people by the millions to swim or swim better. And that's just the tip of the iceberg.

Think of America without The American Red Cross.

And you'll know why we need your business as a Red Cross Volunteer. In your community. And all across America. Contact your local Red Cross Chapter to see how your company can become a volunteer.

Red Cross is counting on you.

1980 CANADIAN SURVEY OF BUYING POWER

Energy development heats up Alberta's population growth while the rest of the country slows down. Visions of an oil boom make Newfoundland, lowest on the buying power scale, hope for a similar miracle.

Alberta today—Newfoundland tomorrow?

By THAYER C. TAYLOR
Editorial Director
Survey of Buying Power

In the west, Fort McMurray . . . Lloydminster . . . Fort St. John. In the east, Hibernia P-15 . . . Adolphus 2K-41 . . . Hopedale E-33.

These are the names—frontier towns in the west, test drilling sites for oil off Newfoundland's coast in the east—that symbolize current and, possibly, future Canadian population mainstreams.

Fort McMurray, a new town created by discoveries in the oil-rich Athabasca sand and shale, Lloydminster, astride the Alberta/Saskatchewan border amid deposits of heavy oil, and Fort St. John, a farming community that abuts an oil-sand basin in northeast British Columbia, are three of the boomtowns created almost overnight by the rush to develop oil and gas resources in Canada's two westernmost provinces: Alberta and British Columbia.

The energy magnet triggered rapid growth in the 1970s. Between the two census years of 1971 and 1976, each province doubled Canada's growth rate—2.6% per year vs. 1.3%. Since 1976, *Sales & Marketing Management*'s estimates show, growth has prevailed, but this time with an unusual twist. While Canada's annual growth rate ebbed a mite, to 1.2%, Alberta's accelerated to 3.7% and British Columbia's dipped to 1.7%

The westernization trend has been strong enough to enable the two provinces' metropolitan markets to buck the slowdown that has overtaken Canada's biggest metropolises. The top ten metro markets (see table), collectively, posted an above-average annual growth rate of 1.4% in the 1971–76 period. In recent years, as Canadians turned away from the bigger metros (just as in the U.S.), the top ten's growth rate slipped to a below-average 0.8%

However, no such letdown occurred in Alberta, where population growth of its two metro areas, Calgary and Edmonton, gathered momentum as the decade wore on. Calgary's population growth rate shot up from 3.3% in the 1971–76 period to 5.2% in the 1976–79 period; Edmonton's from 2.3% to 2.6%. They are, in fact, the only markets among Canada's top ten metropolises to chalk up faster growth rates in recent years compared to the early 1970s.

Only one other major metro

Top ten metros

	1979 Pop. (Thous.)	Annual % Growth Rate	
Census Metro Areas		1976–1979	1971–1976
Toronto	2,866.9	+0.8%	+1.5%
Montreal	2,787.3	–0.2	+0.5
Vancouver	1,196.8	+0.9	+1.6
Ottawa-Hull	729.1	+1.7	+2.4
Edmonton	597.9	+2.6	+2.3
Winnipeg	586.4	+0.5	+1.0
Quebec	543.7	+0.1	+1.6
Calgary	542.8	+5.2	+3.3
Hamilton	536.5	+0.4	+1.0
St. Catharines-Niagara	310.1	+0.9	+1.1
Total	**10,697.5**	**+0.8**	**+1.4**
Canada	**23,787.7**	**+1.2%**	**+1.3%**

Note: Census metropolitan areas as defined by Statistics Canada.

market is currently expanding faster than the all-Canada rate. That's Ottawa-Hull, which averaged 1.7% a year in the 1976–79 period. The primary reason: Ottawa is the home of the federal government, and government bureaucracy is as much a "growth industry" there as in the U.S. Notes Russell E. Harrison, chairman of Canadian Imperial Bank of Commerce, in the current issue of the bank's *Spectrum* newsletter: "Total government expenditures, which in the mid-1960s amounted to about 30% of gross national product, rose to more than 40% in the second half of the 1970s."

While U.S. marketers will focus on the booming western markets for the near-term future, those with longer planning horizons are watching the waters off the Newfoundland coast, from the Grand Banks up to the Labrador coast. Today, the buying power of Newfoundlanders is the lowest in the country, about one-third below the Canada norm, but visions of an oil boom may make the province an Alberta in the East.

Although test drilling has proven the existence of "black gold" under the sea floor, estimates of the potential range from 2.5 to 10 billion barrels. Recovering the oil and gas will be extremely tricky—the Grand Banks, the world's most prolific fishing grounds, are involved—and technologically difficult, more so than was the case with Alaska's North Slope and Great Britain's North Sea. In addition to the hazards of violent storms, there is the unique danger of floating icebergs.

The latter threat, says John H. Hayward Jr., vice president at Merrill Lynch, could give "marketers of subsea production and other specialized equipment the first general use of their equipment for large-scale field development." He estimates that, based on potential development costs of $15,000–$20,000 per daily barrel of productive capacity and minimum production of 100,000–150,000 barrels per day, development of just one field would total $1.5–$3.0 billion.

Involved, too, are critical trade-offs that will have to be confronted. "The vision of large-scale oil development is one of terrible beauty for Newfoundlanders," says *Canadian Business* magazine. "An oil boom might also mean a devastated fishing industry, a coastline awash in oil slicks, and permanent loss of 'traditional Newfoundland values.'" Progress never comes easy, and remember the devil always wants his due. ■

When you've got something to say to Toronto, say it in The Star

If you haven't considered Toronto as a prime target market for your product, consider this. Toronto is the largest city in Canada with a population of 2.9 million people, and still growing. It's Canada's commercial and financial centre. In 1978, it generated 9.7 billion dollars in retail sales — that's about 13% of Canada's total retail business activity.

In fact, Metro Toronto ranks 12th in importance as a North American target market*. And that should mean a lot to you.

To get to this major market, get your message in The Toronto Star. It's the economical and immediate medium to choose. You'll see why when you look at the alternatives.
More than 16 TV stations or cable programs are available to Torontonians. So are 35 AM and FM radio stations. There are three independent daily newspapers. But there is no other individual medium which gives advertisers such an effective reach of your potential buyers in the Toronto market as does The Star.

Take a look at the facts yourself. The Star's Monday to Friday circulation places it up there with the top 15 North American daily papers. And here's the breakdown.**

	Monday to Friday	Saturday	Sunday
C.M.A.	387,916	576,143	242,035
All other	96,848	204,534	99,140
	484,764	780,677	341,175

So if you have something to sell in Canada's most dynamic marketplace, The Star should mean a lot to you.

Kitchener, Waterloo, Cambridge

The *fastest* growing CMA in Ontario and one of the top 5 in Canada!

*FASTEST 5 YEAR GROWTH!**

Retail Sales $1.6 Billion - up 71.3%
Average Household Buying Income $33,939 - up 48.2%
Population 300,000 - up 8.5% Household Formation up 12.1%
K-W Record Circulation up 13.0%

Still the best way to reach any target group in the market is with the Kitchener-Waterloo Record. Seven out of every 10 adults read it each week.

Building permits in 1979 exceeded $150,000,000. Just some of the projects under construction are shown at right.

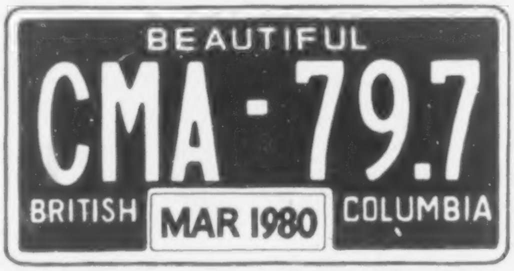
Vancouver's more than just a pretty face.



The city's scenery may be spectacular.

But so is its buying power.

Nearly $4.5 billion in retail sales last year makes it Canada's third largest market.

And the medium with the broadest reach in this growing market is the twin buy of The Vancouver Sun and the Province.

In a March 1980 research study, approved by C.A.R.F., these two newspapers had a combined unduplicated weekly reach of 79.7% of all adults in the Vancouver C.M.A.

Equally impressive is that on any given weekday The Sun and the Province are read by 516,000 or 56.7% of all adults.

More Vancouver market readership and demographic data will soon be available through Newspaper Audience DATAbank. And it will be accessible through IMS and TELMAR.

With The Sun and the Province, Vancouver has never looked so good.

THE SUN - THE PROVINCE

You'll be better RED

In the new Edmonton Journal

And better blue, green, yellow — even better black and white.

Why such superior colour? It's all due to our new Web Offset newspaper presses. They're the most sophisticated in the world, and the results prove it. Brighter ads in spot or full colour. Sharper, snappier type. And a crisper look for your photos, art and illustrations.

With preset colour and registration controls, our new presses will guarantee consistent reproduction over an entire press run. Your ad will look just as good whether it's in the first or last paper coming off the press.

Get in the colourful new Edmonton Journal, where you'll be better red than ever before. And better read, too, by the more than 400,000 potential buyers in the Edmonton market area.

Contact your Edmonton Journal advertising representative for further details.

We've got a simple formula for sales success. 1 Bill + 1 Order = Saskatchel
serving one of the fastest growing markets in Canada.
We've got good reason to be excited about the future —
and it's easy to share in the excitement.

POTASH-OIL-COAL-URANIUM-AGRICULTURE
PLUS THE HIGHEST RETAIL SALES ACTIVITY LEVEL IN CANADA!

That's

Saskatchel

Only one newspaper delivers Spectator Country.

We may be close to Toronto, but we're certainly not part of it. We're a dynamic, growing market that spends well over two billion dollars a year. On a map, it's known as Hamilton/Burlington and area. But what the map won't tell you, is that this market is effectively reached by only one newspaper. The Spectator.* In fact, no other newspaper comes even close.

WE TAKE YOUR MESSAGE TO THE TOP

When you read about our readers, we know you'll want them to read about you.

As of February, Saturday's LA PRESSE reached a net circulation of 275,000 and we're still counting. That means a lot of readers, but we wanted you to know more about them.

***44%** of Saturday LA PRESSE subscribers are between the ages of 25 and 34.

***45%** of household heads (in total) consist of professionals, semi-professionals, administrators and business people.

***66%** own their own home.

***55%** have incomes in excess of $20,000, while **34%** earn over $25,000.

***58%** of our Saturday homes have children.

You can count on LA PRESSE to reach one of Canada's most lucrative markets. It is the big weekend package that our readers count on.

Count on la presse our readers do.

Ocean Spray's canny marketing

Sales are churning as fast as cranberries in a processor for Ocean Spray Cranberries, which this year will sell more than $200 million worth of its sauces, cranberry juice drinks, and grapefruit juice. Keeping the growth on target are George H. Kilpatrick, senior v.p., marketing (*l.*); Andrew J. Murray, v.p., sales; and John D. Walsh, director of marketing, domestic. Article begins on page 31.

S&MM MARKETGRAPH

The middle class: The big squeeze is on

That cry about "the squeezing out of the middle classes" is supported by the latest goverment data on family income. During the 1970s, the biggest increases in number of families occurred at both extremes of the income spectrum—among those making less than $10,000 a year as well as over $25,000. Marketers can be cheered by the phenomenal gains registered at the top end of the income scale. Here, minority group gains dramatically eclipsed those of white families despite the fact that overall they fell further behind when measured against white-family buying power. The number of black families pulling down $25,000 or more shot up by two-thirds, Hispanic families by two-fifths.

Faster gains in white family income in the 1970s . . .

Recruiting and hiring without surprises

★ ★ ★ ★ ★ ★ ★

Increasingly, companies need better qualified sales candidates, and they're finding them. One reason: they're spending more on recruiting than ever before. Another: on college campuses, selling is no longer a dirty word.

Higher stakes—but better odds

By ARTHUR J. BRAGG
Senior Editor

Each time Jack Neff, vice president, North American Marketing, a part of Dana Corp.'s Industrial Group (S&MM, Apr. 7), sets out to recruit a new salesperson, the odds are about 30 to 1 against him. But he's not complaining. That's because Neff needs technically competent, applications-minded people—what he calls technical types—who *appear* to be able to sell. Accordingly, Dana recruits on college campuses.

Each prospect is subjected to a long morning's or afternoon's interview. If he or she is technically "up," and only then, the interview turns to personal goals and family background, for Neff believes that candidates whose families are studded with achievers tend to belong to that mold, too. The candidates who survive their campus interviews are invited to do it all over again with Dana's sales and marketing management, at company headquarters in Warren, MI., where the actual selection is made.

More companies are investing the same kind of careful effort in recruiting and hiring that Dana does. Hugo C. Kapelke, marketing vice president for Up-Right Scaffolds, Berkeley, CA, gives a basic reason: "A thorough recruiting and hiring technique results in a professional sales organization." Among other reasons are the increasing sophistication needed in selling today and the mounting costs of sales force turnover. An exclusive S&MM survey on recruiting and hiring, done in June and July, shows that just as companies must have superior new salespeople, the quality of recruits is higher than ever—and so is the challenge of landing them.

Example: The survey shows a reversal of an attitude among college students, often reported on by S&MM, that to them, selling is a dirty word. In the survey, 72% of 227 respondents reported that 51% or more of their new hires in the past year had a college degree (see Table 5). Moreover, almost a quarter of the 138 respondents who answered the question, "What percentage of your new hires had computer training while in school?" put the figure at 50%; another 26% said that anywhere from 21% to 50% of their new hires had such training before signing with them.

"A large percentage of students appear to have a favorable image of a sales job," says Southern Methodist Univ. professor Alan J. Dubinsky. Many, he says, cite as the chief attractions of field selling: a sense of challenge and accomplishment, that it is complex and nonroutine, that it would allow them to be creative, and that it provides opportunity for rapid advancement. In short, many students believe that selling is a good use of a college education.

The survey also shows, however, that once on the job, a college graduate can present special problems for management. Cited especially was unrealistic expectations about how far and how fast they should go in selling. Says Louis W. Kimble, a sales team manager at Pitney Bowes, "It is getting harder to keep the new college graduate satisfied in both compensation and advancement."

Still, trainers will increasingly be dealing with degree-equipped new hires, a certain number of them in selling only because the recession is crimping the number of job offers in many other fields, whereas most companies are adding to

Thank you

S&MM's survey is based on a questionnaire mailed in June to 1,000 subscribers, all of them sales executives at consumer, industrial, or service companies. Data was asked for all new hires, experienced or not.

A total of 315 questionnaires were returned to us, the greatest response to one of our surveys in recent years, indicating to us the importance of recruiting and hiring today. Note: 48 of the questionnaires were from executives who use independent sales agents; these were not included in our tabulations because recruiting such reps is vastly different from the techniques used in connection with company salespeople.

We thank everyone who participated in our survey.

What's their/your sales intelligence?

How well would you do on a test that's aiding sales executives in selecting salespeople? Take the test to find out.

Presented here are 10 questions adapted from the 40-question Diagnostic Sales Intelligence Test being used by Sales Aptitude Corp., a division of Personnel Sciences Center of New York, for recruiting salespeople. The company has evaluated over 27,000 salespeople for such companies as Emery Air Freight, E.F. Hutton, Almay, Inc., Sun Chemical, Hilti, Inc., and Melville Corp. and its Thom McAn division.

The best score is 11 (the final question requires a double answer); the worst possible score is 0.

Preparation

1. As a salesman of complex industrial equipment, which of the following would be most important to you?

a. a full understanding of the equipment
b. an ability to cite exact figures about the equipment's efficiency, life span, production capacity, etc.
c. information about companies that have used this equipment
d. memorizing a standard sales presentation covering all important features of the equipment

2. The salesman should try to understand his prospect in order to (check the *worst* answer)—

a. show that he is interested in the prospect
b. make the sale as fast as possible
c. see the prospect's viewpoint regarding the product
d. quickly establish rapport with the prospect

Opening

3. Prior to your presentation, your prospect, whom you have just met, is talking to you about something not related to your product. While this is going on, the worst thing you could do is—

a. listen attentively
b. mentally review your presentation but appear attentive
c. attempt to politely interrupt so that you can start your presentation.
d. try to get some clues about his personality

4. You have found out that your prospect wants very much to impress his boss. The best way of establishing your relationship with your prospect would be to—

a. mail him a news clipping in which his boss is mentioned
b. put in a good word for him to his boss
c. give him ideas he can present to his own management
d. ask him what you can do to help him impress his boss

Presentation

5. When presenting information about your product, advertising material is best used—

a. as an initial attention-getter
b. in the middle of the presentation to break up whatever boredom there may be
c. as a visual aid, to be referred to from time to time
d. at the end of the presentation, and left with the prospect

6. During the course of a presentation, a prospect inquires about his competitor's plans, with which you are familiar since the competitor is also one of your customers. Which would be the worst course to take?

a. show how ethical you are by refusing to answer such a question
b. help the sale along by telling what you have learned
c. avoid answering by saying that you are not aware of the plans
d. impress your prospect with the idea that he wouldn't want you to divulge such information about his organization

Overcoming Objections

7. When a prospect points out that in certain areas your competitor's product is better, the worst thing you can do is—

a. show how your competitor's product is lacking in other areas
b. point out that this is only a very minor advantage compared with the advantages of your product
c. point out the benefits of your own product
d. subtly deny that his statement is valid

8. Your prospect is a "yes" man who agrees with every point you make. However, when the close is attempted, he says that he needs more time to think it over. When you call on him again, the same situation occurs. What should you do on the third call?

a. continue your presentation, but inform him that you can't call again
b. attempt to close the sale, but if this is not successful, leave and forget this prospect for the time being
c. make a far-fetched claim about your product to see if your prospect is listening
d. ask your prospect directly why he is not giving you the order

Closing

9. What should you do if the buyer of a company constantly refuses you?

a. alter your presentation
b. study the methods of your competition
c. don't call on him for a while
d. attempt to influence his subordinate personnel

10. After completing a rather lengthy presentation which included most benefits and features of your product, you should (check both the best *and* the worst action)—

a. summarize the features in which the person has shown interest
b. suggest that he think a minute before making a decision
c. ask him when he thinks he can make a decision
d. ask him how much of your product he wants to order

Answers appear on page 54.

their sales force (S&MM, Dec. 10, 1979). These "refugees" offer an opportunity and a problem: their first experiences as salespeople could prompt them to make a career of selling. Otherwise, as the economy frees up, they could look for other jobs.

S&MM's survey also indicates what today's potential new hires are most interested in as rewards for their labors—indicating, of course, which inducements now need to be emphasized, which de-emphasized. The first concern of recruits now is what the employer can offer to ensure that they can expect a sound, profitable career as a salesperson (Table 16). A close runner-up: concern about the rate of compensation. Much less important (only 5.7% of the respondents mentioned it as a prime concern) is worry over having to relocate. Companies seem to fret over this more than do salespeople.

Other concerns cited include the degree of security the company can offer, how much personal independence they can expect to enjoy, and the stability of the company or product line. In fact, Charles Decker Jr., marketing and sales director at Medicornea, Inc., listed as the *primary* concern of the applicants he has recently interviewed whether the company would be able to ensure product availability and "continuity"—a pledge he was quick to make. Another minor concern, despite frequent mention of it in publications, was the amount of time a salesperson spends away from his family; this was rarely cited by companies that interview college graduates. Says Dana's Neff, "College people expect to move because they're usually looking for the best opportunity, and they're not yet tied down with a mortgage."

Not every applicant, even today, knows what his goals should be—and, warns Sally Stevens, a principal at H.R. Chally Co., Dayton, OH, which specializes in evaluating prospects for both small and large companies, therein lies a trap for the unwary sales manager interviewing a prospect.

Says Stevens, "The biggest mistake the manager can make is talking about what *he* wants. The applicant would be stupid not to reiterate it. A manager should start out asking open-ended questions about the applicant, like, 'What are your goals?' or, 'What do you expect to get out of this job?' If you start out telling the applicant what you want, that's what you'll get back."

Additional pitfalls when interviewing are described by John Dobbs, vice president, Development Dimensions International, a Pittsburgh-based manpower and training company. "Salespeople are selected by personality essentially. Not as much attention is given to some of the managerial skills, such as planning and organizing, his ability to analyze data, and, especially, make decisions. These are important skills for a salesperson, but they are often overlooked. Another problem, and it comes up especially when hiring college graduates, is that the company looks for someone who can sell but never has the chance to see the person actually selling. So it ends up how the individual reacts in the interview. They assume that if he's a good interviewee, he'll a good salesman, and that's not necessarily true. Further, we find that there is often no consistency in hiring criteria by different interviewers of the same company."

Despite a consensus that candidates are of better quality than ever before, there are still companies that have more trouble than ever finding what they describe as "qualified" people; in the survey, fully a quarter of the respondents made this complaint. One reason for this may be that they aren't trying hard enough (i.e., spending hard enough). Almost 20% of the respondents who gave data about how much they spend on recruiting and hiring the typical salesperson reported an amount less than $500, and, in some cases, only what it costs to place a classified ad and then take the applicant to lunch. Another 15% said that their spending does not exceed $1,000 per new hire.

In contrast, over 40% of the respondents now spend $3,000 to as much as $25,000 on each new hire, and most of these say that their spending is increasing faster than the inflationary rate. One respondent, who did not identify himself, noted that his company now puts out $5,000 per recruit, a 100% increase over a year ago. A possible explanation: the company's sales force turnover is a whopping 45%, and that scares off all but the most daring of recruits.

Bernard Aiken, national sales manager, Flexion Co., Spencer, MA, who does triple duty (he is responsible for recruiting and interviewing and does the actual hiring) spends an average of $6,000 to find the right individual. Other high spenders are Sperry Vickers, AMD Div., which will put out between $10,000 and $15,000 for the right recruit, and 3M's Static Controls Systems, a whopping $25,000 (a 35% increase over last year). Another heavy investor, at an average of $20,000 per new hire (includes training), is Chicopee Mfg. Co., a textile producer in New Brunswick, NJ, which hires only college graduates, nearly half of whom in the past year were women and 20% black.

Some of the major factors affecting how much the respondents' companies spend include *place* (New England still leads as the costliest locale, followed by the West Coast) and *time*

look no further

There's no need to look further than Bryant Bureau to fill your most demanding personnel needs. Circle No. 142 on Reader Service Card

(several companies noted that their spending is dependent on the current phase of the annual budget). Some respondents put no limit on their spending—"it depends on our needs at the moment"—and several explained that their outlays will vary "according to the value of the recruit." Another respondent summed up, "We spend a sizeable amount per new hire, and we like our campus recruiters to spread the word about it. Today's college people, especially the cream of the crop, find their way to our tables because they're impressed with our high-dollar figures."

But in exchange for a job and the kinds of rewards they value, how long will new salespeople stay with the company? Half of the 236 respondents who answered the question said that their average new hires remain between four to seven years, and 35% said their new hires stay even longer, suggesting that their recruiting and hiring techniques are up to the job. A vast majority (88%) do not try to get their new hires to agree to stay for a specified period; the few who do get a verbal agreement in the interview. Not a single respondent reported using a contract or other written agreement to ensure that new hires stick around.

Instead, companies rely on such methods as vested interests, compensation plans that benefit the long-term worker, and, especially, career pathing, including carefully explaining the typical amount of time for the new hire to become qualified for advancement. Another popular method: guaranteeing the new person's income until he is established as a salesperson. One sales manager's advice to anyone who demands that his new hires pledge to stay with the company for a specified time: "It won't work."

Still, today's turnover rates mean a continued strong market for employment or placement companies. Joel Rice, at Sales Consultants, a Cleveland placement firm (last year Rice, based in Encino, CA, was its National Account Executive of the Year) traces some of the turnover rate to companies being less than candid with candidates. "An important factor is misrepresentation of the job," he says. "An example: A person takes the job because he's also told he'll have responsibility over five people. But when he gets into the job, he finds out that he doesn't have the real responsibility over them. A lot of companies will do that just to draw people in. A good recruiter will try to find the forest through the trees—try to decipher the blue skies and tell what the job is really all about."

A major problem for companies, the survey shows, is minority hiring. While the percentage of new hires who are women or blacks is on the rise, it's because the minority of companies that hire them are doing it more often. Example: of all Pitney Bowes' new hires in the past year, half were women, 10% were black; five years ago, the figures were 10% women and 10% blacks. But the majority of the companies represented in the survey reported no minority hiring at all, overwhelmingly citing attempts to do so that failed.

Development Dimensions International's John Dobbs notes, "I think there is in most companies an overt attempt to hire minorities of all kinds. One of the problems is that they lower their standards when they do this because there aren't as many good candidates out there." He adds, "The big problem in hiring minorities is that the person just doesn't have the experience, and you can certainly relate experience and qualification in sales. The result is managers have less to go on, so they're more likely to make mistakes."

Whatever the perils, companies will have to risk them. The federal equal employment law will be one stimulant to do so; the other is demographics. In the next ten years, the number of 16–24 year olds in the labor force, the age group that supplies most sales trainees, will drop by more than 1.3 million, but the number of young blacks will double, and, by 1990, women will outnumber men (S&MM, Dec. 10, 1979).

A minority of the respondents echoed some old complaints about the people they hire. A few cited their "attitudinal" shortcomings. "People nowadays are too unsettled to know what they want," said "Dutch" Heider, sales manager, Coca-Cola Bottling Co., Corpus Christi, TX. "There's

Showcase. It's for the birds.

The high-flying Rain Bird Sprinkler Mfg. Corp. brings its automatic watering systems right into the homes and offices of prospects with the Technicolor® Showcase and a color, sound motion picture that graphically demonstrates Rain Bird® in action.

With Showcase, Rain Bird representatives can set up the show in seconds. The Super-8 film cartridge snaps in, starts at the touch of a button. There's no threading, no reels, no rewinding. When the film ends, it's at the beginning, ready to sell again.

The Showcase built-in screen is perfect for small group viewing. And a flip of the lens gives you front screen projection for larger audiences.

For travel the handsome, compact Showcase slips easily under an airplane seat. It's warranted for a full year and supported by a worldwide network of dealers and service facilities.

Let Technicolor help get your sales presentation on the wing. Just give us a chirp or a coupon.

an increasing tendency for them to be dependent on the 'Company,' expecting it to provide all the support. There's not much self-development any more, even among the well-educated," declared I.K. Parker, general sales manager, Moews Seed Co., Granville, IL.

The most common failure laid to today's new hires is lack of agressiveness. "Young applicants don't seem to have the drive or the responsibility compared to five years ago," said Robert Parker, general sales manager, Scripto, Inc. "They're not self-starters—they need to have prospects or accounts assigned to them," noted Ray E. Phillips, sales manager at Rockford Paper Mills, Rosemont, IL. One result: approximately two of every three respondents reported that they now use psychological testing.

The majority view, however, is that new salespeople come to the job with what it takes to excel, as never before. Respondents would overwhelmingly agree with Bernard Barnett's enthusiasm for today's new hires. Says Barnett, director of sales and operations at Sealy Mattress's St. Paul, MN, division, "My expectations have changed as far as longevity is concerned, but I think that their quality is excellent. As a group, they're more articulate and brighter than any I've seen before."

Survey highlights

1. Who in your company is responsible for recruiting and hiring salespeople?*

	Percentage of companies
National sales manager	45.7%
Regional/district manager	30.9
First-level sales manager	29.3
Personnel manager	7.8
Outside agency	2.3
Campus recruiter	1.2
Sales trainer	.8
Other	5.5

2. Who interviews potential recruits?*

National sales manager	56.3%
Regional/district manager	44.5
First-level sales manager	34.0
Personnel manager	23.0
Sales trainer	3.1
Outside agency	3.1
Campus recruiter	1.2
Other	9.4

3. Who hires the recruit?*

National sales manager	43.0%
Regional/district manager	28.5
First-level sales manager	24.2
Personnel manager	2.7
Sales trainer	.4
Campus recruiter	.4
Outside agency	—
Other	7.0

*Based on 256 responses. Multiple answers make totals more than 100%.

4. Has any of the above changed lately?

Yes	6.7%
No	93.3

Based on 239 responses.

Selling getting expensive?

No question about it, selling is getting very expensive. That's why so many cost-conscious marketing managers are turning to Kelly Marketing for assistance.

We can do many of the routine things your sales people are doing so they will have more time for direct selling.

Let us know your problem and let us tell you how we can help.

5. What percentage of your new hires in the past year were college graduates?

	Percentage of companies
0%	6.0%
1–5%	2.6
6–10%	1.3
11–20%	2.2
21–50%	15.0
51% or higher	72.9

Based on 227 responses.

6. What percentage of your new hires had computer training while in school?

0%	34.8%
1–5%	4.3
6–10%	5.1
11–20%	5.1
21–50%	26.1
51% or higher	24.6

Based on 138 responses.

7. Has the individual who conducts interviews of potential recruits ever had special training in interview techniques?

Yes	51.3%
No	48.7

Based on 240 responses.

8. How much does your company or division spend on recruiting and hiring of the typical salesperson?

$500 or less	19.7%
$501–$1,000	15.2
$1,001–$1,500	3.8
$1,501–$2,000	9.8
$2,001–$3,000	10.6
$3,001–$5,000	25.0
$5,001–$10,000	6.8
More than $10,000	9.1

Higher sums include training costs. Based on 132 responses.

9. Has this increased in the last year?

Yes	50%
No	50

Based on 178 responses.

10. What do you consider is the biggest challenge in your recruiting?

Finding qualified people	82.8%
Making the choice	9.0
Meeting government standards	3.5
Conducting interviews	2.7
Other	2.0

Based on 257 responses.

11. Sales force turnover: What do you estimate is your current rate of turnover of salespeople, both those new to selling and experienced?

Turnover	*Percentage of companies*
0%	14.0
1–4%	11.5
5–10%	8.5
11–20%	38.0
21–30%	24.0
31–50%	4.0

Based on 200 responses.

12. How do you think your turnover rate compares with your competitors'?

Lower	60.8%
Same	30.1
Higher	9.1

Based on 209 responses.

13. When you hire, do you tap nonsales personnel from within your company who might make good salespeople?

Yes	67.5%
No	32.5

Based on 234 responses.

THE MILWAUKEE JOURNAL/MILWAUKEE SENTINEL

Milwaukee has been one of the leading industrial centers in the nation because of the high productivity of its work force. The highly technical, high quality products manufactured here require the best in skills — from the shop all the way through engineering and management positions. ■ Milwaukee is also the home of nationally recognized learning institutions. Marquette University. University of Wisconsin - Milwaukee. Milwaukee School of Engineering. Thousands of fully qualified job seekers graduate yearly. One out of five Metro-area household heads is a college graduate. One out of four is a professional or manager. And 43% of the labor force are women. ■ The Journal and Sentinel have an unparalleled reach of 72% of the 962,000 Metro-area adults. The people you need to recruit are here in Milwaukee, and no media reaches them better than The Milwaukee Journal/Sentinel.

allowances to retailers who stray from suggested list prices.

- Announcing it will screen ads of foods and beverages containing fructose to assure that claims for the sugar substitute aren't excessive.

Of these, the warranty actions could have the broadest impact on marketers. FTC attorneys say retailers have been generally lax in making warranties available for presale inspection. An FTC administrative law judge has already found Montgomery Ward in violation and the commission recently sent warnings to 17 "major national retail chains" (without disclosing their names).

More fur will fly when the commission publishes long-pending rules affecting companies that offer *full* warranties, some of which will bar the warrantor from requiring an unhappy customer to send the product back only to the selling dealer or make him pay for shipping. Also, manufacturers could no longer require the consumer to mail in a warranty registration card in order for it to be "legal."

In all of this, the commission insists it's being evenhanded. Its staffers point out that instead of opting for painfully detailed rules on how warranties must be worded and designed, it will simply publish an informal "handbook" in November suggesting ways warranties might be made more readable. And because it wants to spur more warranty competition, the agency has asked the public to suggest other enforcement tools to replace its inflexible 1960 Guides Against Deceptive Advertising of Guaranties.

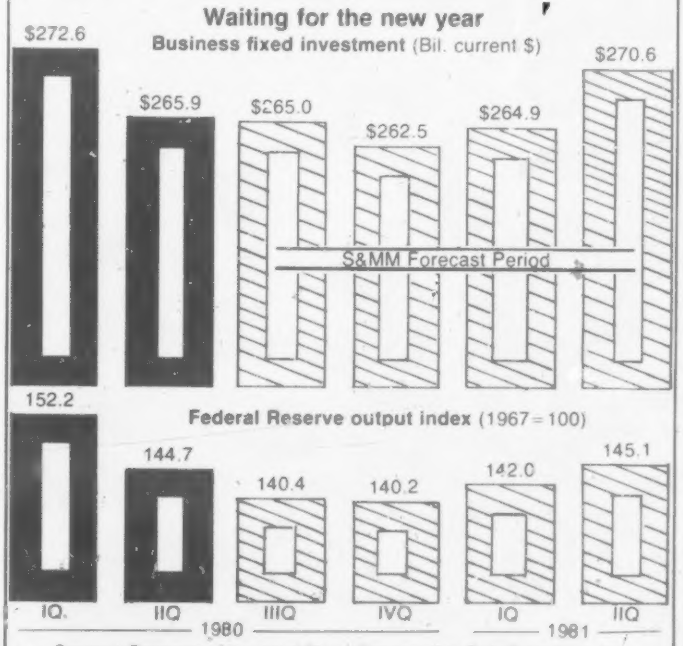
"The guides discourage advertising because they require all ad claims to explain each

S&MM BAROMETER

A good start in '81 for industrials

Industrial marketers face another couple of months of downbeat prospects, but new orders may quicken in December. Two indicators of industrial sales activity—business fixed investment and the Federal Reserve Board's industrial output index—are expected to continue to fall the rest of the year. However, by 1981's opening quarter, business investment is expected to show a quarter-to-quarter gain of 0.9%, industrial output a gain of 1.3%, suggesting industrial buyers will start placing orders in the last weeks of 1980.

However, the recovery is likely to be more sluggish than the one following the 1973–75 recession because of "continued high interest rates and the failure to make more of a dent in the inflation rate," says Allen Gutheim, staff economist at Wharton Econometric Forecasting Associates. A dourer Gary Wenglowski, economic research director at Goldman Sachs, warns that a short recovery could turn into another recession due to a delayed tax cut, weakening foreign economies, and worsening inflation.



Waiting for the new year

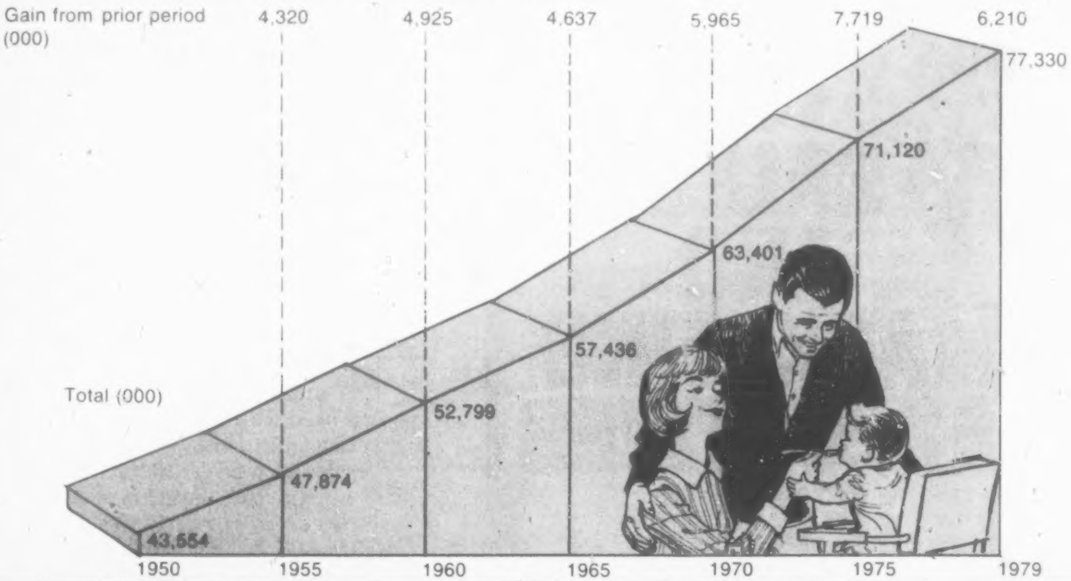
S&MM MARKETGRAPH

Households: Growing fast, shrinking fast

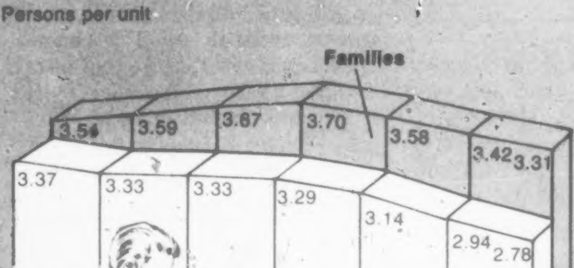
Household growth in the 1970s topped 22%, the fastest rate of the three postwar decades. In contrast, the number of households rose 20% in the 1960s and 21% in the 1950s. The reason for the accelerated pace, of course, was the maturing of the postwar baby crop, as millions of young adults moved into the prime household-formation years.

Changes in lifestyles are leaving their imprint on household characteristics. The typical household has been shrinking in size since 1964, the average family since 1966. Behind this trend are the explosive growth in one-person households (up 59% in the last decade), marriages at a later age, the increase in divorces, and declining birthrates.

The number of households grows steadily



But their size continues to shrink . . .



. . . at an ever faster rate

Sales & Marketing Management

S&MM'S ANNUAL COMPENSATION SURVEY

WHAT TOP SALES AND MARKETING EXECUTIVES EARN

By THAYER C. TAYLOR
Senior Editor/Management Sciences

The best paid executives in sales and marketing work for the largest companies, right? Not necessarily, S&MM's annual compensation survey indicates. At the head of the list are two marketers from Comdisco, Inc., the Rosemont, IL, computer leasing company whose 1979 revenues were $153 million. The highly motivated pair are Nicholas DiBari, senior vice president, marketing, with total compensation of $674,253 and John Slevin, sales vice president, who earned $600,897.

Their pay ran well ahead of many executives from larger corporations last year. For example, William S. McConnor, senior vice president, refinery marketing, at $8.1-billion Union Oil of California, ranks fifth in S&MM's survey with compensation of $339,666. Right after him is C.H. King of $7.9-billion Standard Oil of Ohio with $334,790.

S&MM's survey, based on the proxies that publicly-owned companies file with regulatory agencies, covers 113 executives at 100 companies. Sibson & Co., a Princeton, N.J.-based consulting firm specializing in compensation programs, analyzed the proxies and prepared the tables exclusively for S&MM.

The survey reveals that the average marketer earned $151,642 in 1979, but this is not directly comparable with the $124,700 figure in last year's survey. That's because long-term income, such as gains realized from the exercise of stock options and stock appreciation rights, is included in this year's survey data for the first time. However, Sibson did restate the income totals from last year and reports that marketers' compensation rose 16% in 1979 while company sales increased 24%.

By and large, the better an industry did, the more handsomely its marketers made out. Chemical industry marketers scored the biggest compensation gain, 48%, while industry sales rose 23%, the fifth fastest among the industries where two or more companies are represented. Petroleum placed second in both compensation gains, up 46%, and sales, up 40%. Other industries where marketers made substantial gains: apparel, up 27%, business equipment, 26%, and beverages, 25%.

On an individual basis, Murphy Oil's John L. Solomon racked up the fattest year-to-year increase, 167% to $211,441. Following him were First Mississippi's James W. Crook, up 98% to $218,714; Leggett & Platt's Ralph V. Johnson, 85% to $147,859; Mohawk Data Sciences' Douglas A. Davidson, 82% to $226,109, and Mirro Corp.'s William T. Alldredge, 71% to $103,240. Except for Alldredge, the hefty boosts were chiefly due to stock deals. Davidson, Solomon, and Johnson had much smaller increases in their base pay, while Crook actually had a 14% decline in his basic compensation.

Not everyone brought home a bigger paycheck, however. Those who felt the pinch the most were Charles A. Bucks, Continental Air Lines, down 54% to $149,524; William H. Waltrip, Pan American, down 29% to $189,208; Earl L. Dearhart, Southern Railway, down 27% to $154,365; Frederick S. Donnelly Jr., Armstrong Cork, down 24% to $155,110, and W. Harrison Lackey, Lukens Steel, down 20% to $99,839. In most cases, the slippage was brought about by special factors. Bucks, for example, received $120,188 in stock options in 1978 but nothing in 1979. Others received special one-time payments the earlier year—Donnelly a sizeable foreign service allowance and Waltrip a special payment of $97,500 for remaining on the job through a certain date.

The 10 top paid sales and marketing executives

	Cash Income*	Other Income†	Total Compensation

© Sales & Marketing Management

Economic conditions took their toll in certain industries. Reflecting the housing slump, building materials marketers suffered a 10% drop in compensation. Steel company executives' paychecks were slimmed 7% as a result of import competition and the woes of their biggest customer, autos.

"Stock options continue to be the best long-term income game in town," says John A. Fischer, Sibson vice president. "They are more prevalent compared to such alternatives as performance units [amounts realized by executives who achieve certain long-term goals set by their companies] or restricted stock [shares granted to key employees that can't be sold for a certan period of time]. Options offer the potential for more economic gain, but they also pose more of a risk."

Still, their popularity dimmed in 1979, S&MM's data show. The proportion of marketers on stock option plans edged down from 67% in 1978 to 61% in 1979, and those granted stock options dropped even faster: 29% to 17%. Furthermore, relatively fewer marketers exercised their stock options last year: 22% vs. 30% the year before. Apparently, to make it into the ranks of top-paid marketers it helps to keep an eye on the financial pages as well as the sales charts.

SALES & MARKETING MANAGEMENT

OCTOBER 6, 1980
A BILL PUBLICATION
TWO DOLLARS

Inside Out

Marketing strategy. AMF's Paragon Electric subsidiary flubs in the home-timer market but aims to improve its timing. Page 10.

St. Regis goes for a TD, helping to sponsor the National Football League Tailgate Party Sweepstakes. Page 10.

Selling hard in 'Bohemia.' Those masters of political marketing may have secrets that would astound the likes of P&G and Xerox. Page 11.

Syntex helps salespeople choose career paths with a rigorous five-level training program. Page 11.

Last word in appliances. Household gadgets that speak are on the way from such companies as Sharp, Panasonic, and Toshiba. Page 13.

Tune-Up Clinics accelerates its franchising in the Southeast despite a soft market for car care. Page 17.

PageAmerica takes a flier. Its phone service for jet passengers leaves an enviable trail of publicity. Page 18.

Selling to collegians. Some marketers woo the gang with "consumer fairs" or a mechanical bucking bull. Page 43.

Don't blame the staff. To get the most out of marketing services people, try a little informality. Page 48.

Complete Contents, Page 3.

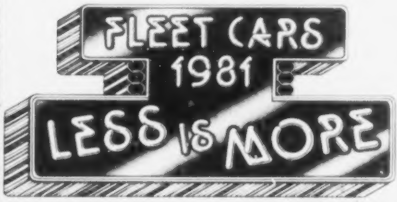
John L. Twells of Amweld

Amweld's door to the future

The fate of the steel-door company hinges on its distributors, so general sales manager John L. Twells comes up with an aggressive marketing program to broaden their business base. Page 31.

Selling, A to Z

We're *all* in selling, says author Frank Snider, and that includes such heroes as Francis Bacon, Abe Lincoln, and Ho Chi Minh. Page 36.



AN S&MM
SPECIAL SECTION

For now, fuel-efficient cars are available, gas prices have levelled off, and interest rates are relatively stable. But will it last? Page 55.

Going it alone creates a new market

Because one-parent families are the fastest-growing type of household, marketers of consumer goods must devise strategies to reach them. Page 47.

FEATURES

31 Amweld's door to the future
The steel-door company's fate hinges on distributors, so it has set out to help them broaden their business base.

36 Selling, A to Z
An excursion through time and territories to prove that the salesperson, in one guise or another, has always been with us.

43 Catching up with the college crowd
Collegians often don't respond to the usual promotions. Better to demonstrate your product at a congenial "consumer fair."

48 Help marketing services get with it
Vaughan C. Judd of Manville Forest Products tells how to crush barriers between staff marketing people and the field.

AN S&MM SPECIAL SECTION

55 Fleet cars 1981: Less is more
For fleet managers, the outlook is brighter than a year ago. But that could change if gas prices and interest rates rise.
- Downsizing moves into high gear
- Putting the brakes on fleet costs

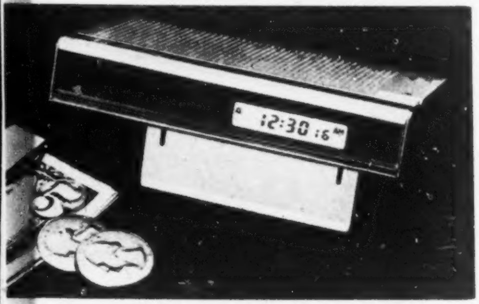
Allen Voyette, training and education manager, says that he can't yet tell how many of Syntex's 500-person force will participate. But, he says, "I think our salespeople view this as the best program they've ever received."

NEW PRODUCTS

The last word in appliances

Ready or not, talking appliances are here. For example, Sharp Electronics has a $90 clock-radio with a robot voice that says, "Good morning, it is 7 a.m." Ten minutes later, it will say, "Attention, it is now 7:10 a.m. Please hurry." the same voice will tell the time when one pushes a button or announce it at various intervals if properly programmed.

Panasonic was ready to unveil a similar product at $160 this month but pulled back for "retooling" when the cheaper Sharp model appeared. Panasonic, however, will introduce talking calculators and microwave ovens by year-end. The $700-plus Talking Genius microwave oven uses a microprocessor chip to activate a digital voice. As a user pushes buttons for, say, defrost, cook, and warm, the voice repeats all



Wake-up language used by Sharp's alarm clock is firm but polite.

S&MM BAROMETER

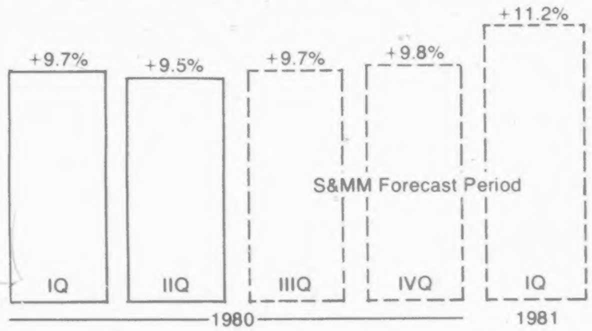
Selling costs: Back on the fast track

It was too good to last. S&MM projections show that basic field selling costs, which trailed the rise in the consumer price index (14.3%) during the first half, will accelerate in the second half and hit a double-digit rate by 1981's first quarter.

The prime causes of the upsurge are this summer's drought and the coming explosion in Social Security taxes. Washington Analysis Corp., a Bache Halsey Stuart Shields subsidiary, expects food prices to jump 17% in the second half of 1980 vs. 5% in the first. John Lesure, research director of Laventhol & Horwath, who develops financial data for the lodging industry, sees room rates up 12%–15% in the next several months despite a 6% drop in occupancy ratios.

Meal prices and room rates will be kicked higher early in 1981 when restaurants and hotels, like all businesses, are hit with a steep rise in Social Security taxes. These costs will quickly be passed on to the paying guests.

% change in field selling costs vs. year-ago period



% change in field selling cost components in 1980 first half

three instructions before the cycle begins. Later, as the cooking phase winds down, the voice announces the number of minutes left, just like a rocket-launch countdown.

Will it sell? Richard W. Muehlenhard of Panasonic's home appliance division notes that microwave oven sales are up about 50% in a recession year and that deluxe models historically outsell cheaper ones. He predicts that the deluxe talkie will do well in the premium/incentive market because "the best selling items are those which people don't already have and which are in the greatest demand."

Next on the horizon: appliances that respond to voice commands. Toshiba America, for example, is fine-tuning prototype TV sets and stereos that will change channels or volume when the user talks to them. What keeps them from retail shelves is a failure-to-respond rate of 15% or so. But Toshiba promises to show improvements at the January Consumer Electronics Show in Las Vegas. One market ripe for the gadgets: the physically handicapped.

LIVING COSTS

Anchorage and Milwaukee get off easy

People living in San Diego and Los Angeles-Long Beach were buffeted by household costs that rose twice as fast as in Anchorage and Milwaukee, according to the Bureau of Labor Statistics' (BLS) annual updating of three hypothetical family budgets. A family of four living on what BLS calls an intermediate budget experienced increases of 13.4% and 12.1% in San Diego and Los Angeles-Long Beach, respectively, compared to increases of only 6.1% in Anchorage and 6.8% in Milwaukee. However, Anchorage's small rise brought modest comfort to residents inasmuch as their living costs are still the highest among the 25 markets BLS measured, topping the national average by 36%.

BLS actually measures three budgets: lower, intermediate, and higher. S&MM uses the intermediate group because it is most representative of urban households.

Sales managers take the budget estimates into consideration when comparing compensation levels of salespersons in

Metro area living costs

Metro Area	*1979 Budget*	*% Increase 1978-79*	*Index U.S.=100*

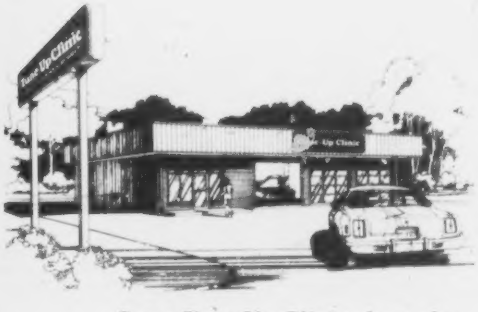
different territories. For example, a sales rep shifted from Washington, DC, to Dallas would move from a metro area where living costs are 8% higher than the U.S. average to one where they're 11% under the norm.

FRANCHISING

No pit stops for Tune-Up Clinics

Unlike some others in the automotive aftermarket, Al Massey, president of Tune-Up Clinics, Atlanta, sees no sign of consumers saving money during the recession by not maintaining their cars. Instead, he says, "We find more and more people keeping their engines well-tuned to get better gas mileage." Massey claims that such consumers are attracted to Tune-Up Clinics, which began to franchise two years ago, by the following:

- Three prices (depending on engine size) for a complete tune-up that include all parts and labor. The highest: $40.95.
- Service time of 30–45 minutes. Customers are encouraged to watch mechanics, who explain all procedures.
- A six-month, 6,000-mile



Some Tune-Up Clinics have this snappy building design.

SPECIAL REPORT PREVIEW

Managing costs for more productive selling

So relentless is the upward spiral of selling costs (see S&MM Barometer, page 13), that the worst fears of sales and marketing executives are being realized. Thus, managing sales costs has emerged as a critical concern for marketers, and it's likely to remain so for most of the 1980s.

Is management making the best use of the direct sales force? Should the sales force be disbanded or reserved for calling on major accounts? How much responsibility can be assumed by independent reps, distributors, or telephone salespeople? Such questions are at the heart of the cost-control problem, and they will be explored in detail in a 32-page Special Report in the Dec. 8 issue of S&MM.

Computers to the rescue

This exclusive report will include case histories on what alert marketers are doing right now to stem the tide of rising costs. Companies that once prided themselves on selling only through their own field salespeople already are seeking alternatives. In some instances they're bringing their best people into the home office to do business over the phone. Greater use is being made of direct mail to back up the sales effort.

The computer plays an important role, too, making it possible to identify cost problems and analyze them. What's more, now that many district and regional sales offices have their own computers tied directly to headquarters, field salespeople have access to a wealth of information that enables them to be more productive.

The computer is also helpful to a new breed of executive placed strategically in many corporate hierarchies. He's called the marketing controller, and he recognizes marketers for one thing they are: cost-producers. Look out for that one.

a single United Airlines DC-10 in June (fee: $10 plus the phone toll from the nearest ground station). "It's exposed our name to over 100 million people," says Post happily. "We've gotten at least a half-million dollars worth of publicity."

What's more, Post says Sky-Tel is an ideal source of new prospects for beeper service. When a passenger makes a call, he fills out a form for billing, and PageAmerica just adds the name to its direct-mail list. Not bad for winging it.

PACKAGING

Olympic's sunny sales

PRESERVES WOOD BEAUTIFULLY
OLYMPIC
WEATHER SCREEN
STAIN AND WOOD PRESERVATIVE
1 GALLON 3.785 LITERS

Olympic Stain, Bellevue, WA, introduced its wood stain and preservative nationally in March with a name—Weather Screen—and package, both developed by Soyster & Ohrenschall, San Francisco, that had clicked in consumer tests. The package shows water beads on wood panels, plus rainbow-colored raindrops, to convey water repellency. Aided by national TV and regional print ads, part of a nearly $5-million annual budget, Weather Screen more than doubled its first-year sales goals in four months.

COMPENSATION

Mixed bag for field managers

Pity the field sales executive who studies the results of three popular surveys to see how his compensation compares with his peers. Regional sales managers fared better than district managers, says the American Management Assns.' *Middle Management Report: 1980*. Regional sales chiefs with territories in the under-$5-million class last year increased their total compensation 11% to $29,000 while district managers with territories of less than $2 million raised theirs 5% to $23,600 (see table).

The same 2:1 ratio prevails for the largest territories. In the $40-million-or-more category, regional managers scored a 7% gain to $41,700, and their district counterparts with territories of $16 million or more had a 3% increase to $31,600.

In contrast, Dartnell Corp.'s *13th Biennial Survey of Executive Compensation*, released earlier this year, showed the opposite pattern. District managers in companies with sales under $5 million racked up a 35% gain in the 1977–79 period, lifting their total compensation to $23,000, while their regional bosses had to be content with a 13% rise to $27,000. In the $500-million-or-more category, both scored 23% gains, giving regional managers $43,000 in total compensation, district managers $32,000.

The third study, the Administrative Management Society's annual *Guide to Management Compensation: 1980*, shows the sales manager (mostly district and regional) posting a 4% gain in 1979 to $28,000. This survey, which covers base salary only, indicates that income ranged from $24,300 in the South to $30,000 in the West.

A sample from the AMA study

	Total Compensation 1979	*% Gain 1978–79*	*Bonus As % Of 1979 Compensation*	*Total Compensation 1979*	*% Gain 1978–79*	*Bonus As % Of 1979 Compensation*
	Territories Under $5 Million			*Territories Over $40 Million*		
Regional manager	$29,000	+11%	14%	$41,700	+7%	20%
	Territories Under $2 Million			*Territories Over $16 Million*		
District manager	$23,600	+5%	22%	$31,600	+3%	17%

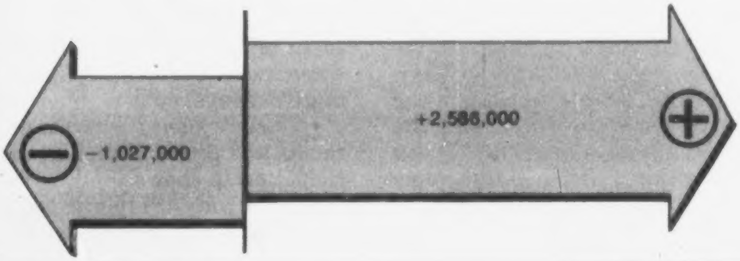
S&MM MARKETGRAPH

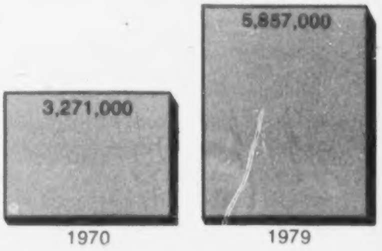
One-parent families: Going it alone creates a new market

Kramer vs. Kramer had it only half right. While the award-winning movie dramatically depicted the daily tensions of the one-parent family, it is the woman who rears her offspring on her own in nine of every ten such families. Significantly, the proportion of such women who opted for children without going the marriage route has more than doubled, from 8.0% in 1970 to 17.1% in 1979, and the comparative ratio for divorcees who head one-parent families has spurted from 32.7% to 42.2%. All of which suggests that the one-parent family, the fastest growing household type in the 1970s, will continue its growth pattern. Marketers of family-oriented products will have to fashion new selling appeals.

During the 1970s, while two-parent families declined . . . . . . one-parent families increased dramatically . . .

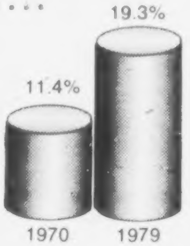


. . . from 3.3 million to almost 6 million

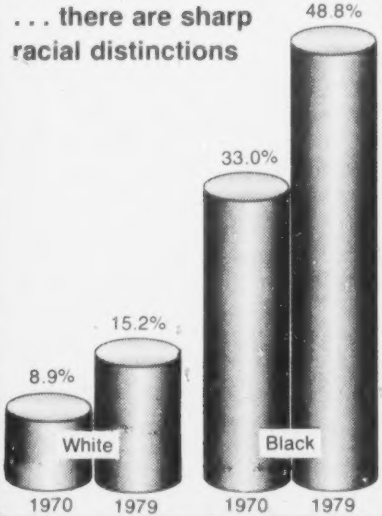


While children are now growing up with only one parent in almost one out of five families . . .

One-parent families as share of all families



. . . there are sharp racial distinctions



Women head 90% of one-parent families, and two-fifths of them inherited the status through divorce

Marital status of women heading one-parent families

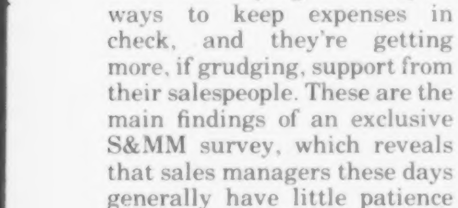
Putting the brakes on fleet costs

Confronted by a persistent rise in the cost of operating sales cars, sales and marketing executives are trying a variety of ways to keep expenses in check, and they're getting more, if grudging, support from their salespeople. These are the main findings of an exclusive S&MM survey, which reveals that sales managers these days generally have little patience with salespeople behind the wheel who don't do their bit to save money. Says one marketer, "If mileage is off, we tune the engine; if mileage remains off, we tune the driver." A sales vice president sums up the situation: "Some of our salespeople are negative thinkers on the subject of holding down fleet costs. They won't be around long."

Nevertheless, the 176 marketers who completed the questionnaire appear to be more confident about the fate of fleet cars than respondents were a year ago. For example, only 4.7% say they intend to reduce the number of cars in their fleets during the next three years, whereas 10.9% indicated that in last year's survey. Also, 34.4% say they intend to increase driving in line with sales growth, up from 26.8% a year earlier. To be sure, 42% of the respondents say they reduced driving "significantly" or "slightly" during the past year, but only 29.8% plan to do so in the year ahead.



Pontiac's Grand Prix LJ features deluxe trim and a V-6 engine.

Regardless of how much sales executives think they can do to hold down fleet costs, there's little doubt that most of them have good reason for *trying*. Fully 53.5% of the respondents report somewhat reduced margins as a result of rising fleet costs. Moreover, all but one category (maintenance and repair) gets more response than last year to the question "Where have fleet costs risen the most?" Not unexpectedly, gasoline topped the list at 89.2%, followed by initial car prices (61.8%) and lease terms (26.1%).

Among the most popular measures taken to put the brakes on fleet costs: more telephone selling (45.4%). Many respondents indicate that they tend to call their low-volume accounts that have little growth potential. William Riedell, national sales manager for Winsor & Newton, Secaucus, NJ, reports that his company recently installed a WATS line for calling on such accounts. He has also used more direct mail, an approach mentioned by 15.3% of the respondents.

Better time-and-territory management—as shown by

Buick's Regal finds its way into more and more fleets.

Highlights of S&MM's 1980 sales-car survey

1. Where have fleet costs risen the most?

	1980	*1979*
Gasoline	89.2%	84.3%
Initial car prices	61.8	51.6
Lease terms	26.1	22.8
Maintenance and repair	23.2	30.0
Insurance	17.6	13.7
Parking	3.1	0.0
Administration	2.2	1.9

2. How have rising fleet costs affected your bottom line?

Somewhat reduced margins	53.5%
Little change from past years	46.5

3. Which of the following steps have you taken to help cut fleet costs?

Used more telephone selling	45.4%
Scheduled calls in same general areas	39.2
Downsized fleet cars	28.4
Redrawn territories	27.3
Cut down sales call frequencies	19.9
Put off purchases or new leases	19.3
Used more direct mail	15.3
Cut back on car options paid by company	13.6
Limited eligibility for fleet cars	10.2

The Peugeot 505 diesel version outsells the gas model.

4. During the next three years, do you plan to:

	1980	*1979*
Increase the number of your fleet cars	28.0%	27.0%
Reduce the number of your fleet cars	4.7	10.9
Maintain current levels	67.3	62.0

5. What changes have you made or do you plan to make in using fleet cars?

	Have Done in Past Year		*Plan to Make in Coming Year*	
	1980	*1979*	*1980*	*1979*
Increase driving in line with sales growth	21.6%	20.0%	34.4%	26.8%
Reduce driving slightly	30.9	19.0	25.2	26.8
Reduce driving significantly	11.1	2.7	4.6	5.9
Stay about the same	36.4	58.1	35.8	40.2

6. What % of your fleet consists of small cars (compacts and subcompacts) . . .

% of Fleet in Small Cars	*(% of Respondents) 1980*	*1979*
0%–24%	78.2%	75.7%
25%–49%	11.5	5.7
50%–74%	6.1	11.4
75%–100%	4.2	7.1

. . .and what will be the % three years from now?

% of Fleet in Small Cars	*(% of Respondents) 1980*	*1979*
0%–24%	28.6%	34.0%
25%–49%	16.8	13.3
50%–74%	21.7	19.2
75%–100%	32.9	32.5

7. What is your sales force's attitude toward small cars?

	1980	*1979*
Negative	46.6%	65.7%
Neutral	37.4	26.5
Positive	16.0	7.6

8. Are salespeople helping to keep fleet costs down?

They're somewhat cooperative	45.2%
They're very cooperative	40.3
Their response is lukewarm	14.5

Survey results are based on a mailing to 1,000 S&MM subscribers. By the cutoff date, 217 questionnaires were received. Of those who responded, 176 provide sales cars to some of their salespeople or reimburse them for the business use of their personal cars. The results for 1979 are taken from the survey that appeared in S&MM's Oct. 15, 1979 Fleet Car Special Section. The base for those answers is 153. In certain cases totals exceed 100% because some respondents gave multiple answers.

scheduling calls in the same areas (39.2%) and redrawing territories (27.3%)—is also an important method for dealing with fleet costs. Glenn Woodrich, vice president, marketing, for Jos. Dixon Crucible, Jersey City, NJ, says, "Work plans must be improved. Geographic areas must be thoroughly covered, not hopscotched. Courtesy calls are out. Preplanned calls with a purpose are the order of the day."

For other respondents who rely on good time-and-territory management, it is as much a matter of common sense as a response to rising fleet costs. Joseph R. Hurley, manager of administrative services for the Container Div. of Rheem Manufacturing, Linden, NJ, says "Our salespeople are expected to cover their territories in the most efficient and economical manner whether or not we are faced with cost increases in the fleet. This is simply good sales management."

Another 19.9% of the respondents indicate that they have cut down on sales call frequencies and they don't think this will impair the sales effort. A marketing executive for a northeastern food manufacturer notes that his sales force is now expected to schedule trips more carefully to reduce annual mileage. He comments, "This may mean calling on some accounts less often, but it does not mean they they won't serve them properly."

R.H. Cholet, vice president, marketing, for Dermik Laboratories, Ft. Washington, PA, notes that customers accept the cutback in personal visits as

long as they "can conveniently request their needs by telephone or business reply card, are contacted by phone sales personnel, and continue to be personally visited by sales reps even though such visits may be without the previous frequency."

Not surprisingly, another popular way of cutting fleet costs is by downsizing (28.4%). The National Assn. of Fleet Administrators reports in its *1981 New Car Acquisition Survey* that six out of every ten fleet cars ordered in the coming year will be compacts and subcompacts. S&MM's survey generally confirms this finding but shows that the actual percentage of small cars in fleets last

JOSEPH FARRIS

FLEET CARS 1981 LESS IS MORE

Toyota's sporty Celica Supra is a draw in some sales fleets.

year was hardly overwhelming (Question 6).

Sales and marketing executives have been aided in this effort to downsize by a significant shift in the attitudes of their salespeople. In last year's survey, respondents indicated that their sales forces were overwhelmingly opposed to small cars (65.7%). Only 7.6% had a positive attitude while 26.5% remained neutral. In contrast, less than half of the sales forces this year are judged to have a negative attitude toward small cars (46.6%). Of the rest, 37.4% were neutral and 16.0% had a positive attitude. This change appears to reflect the growing approval of small cars by American consumers in general.

Other approaches to cutting fleet costs include a company that has its own gasoline pumps. "Per gallon it costs less," says the respondent. Another company says it saves on travel costs by flying more. Conversely, another says it saves by driving more instead of flying. (Presumably, one has longer distances to cover than the other.) Al Severino, vice president of sales for Brown Products, Nashua, NH, recommends that his salespeople travel together more often, perhaps once a week. "This will enable them to share experiences *and* cut back on fuel consumption," he says.

Another respondent says that his company puts a greater emphasis on customers visiting its plants. He describes the system as "the most cost-effective, meaningful interface between customers and ourselves."

Other mundane but effective cost-saving measures—often suggested by salespeople—include driving without air conditioning when possible, using self-service pumps, buying gasoline away from main highways, using radial tires, and even driving at the legal speed limit.

Of the respondents, 19.3%

SOME THOUGHTS ON CORPORATE GIFT GIVING
From the people at Smucker's

How to feel good about what you're giving

Two key executives from Smucker's Marketing and Sales area express some down to earth ideas about gift giving to your customers.

Meredith Pennington, Marketing Manager - Gifts and Incentives Department

Meredith: First thing you should consider when selecting a business gift is whether it reflects well on you and the image of your organization.

Is your gift recognized for its quality? Does it have usefulness? Does it have general acceptance among those who will receive it? *Does it reflect your own good taste?*

A.J. Guerra, Sales Manager - Gifts and Incentives Department

Tony: As much as you would like to give everyone something expensive, you have to draw the line somewhere. And your own budget, certainly, usually dictates against extravagance. So, you want to choose a gift that is "affordable" - yet has a high *perceived* value. *Value,* then, is what to look for rather than shopping just for "price."

Meredith: When you're choosing gifts for a varied group (rather than selecting a gift for one person), it's vital to select a gift with general appeal - one that would be appreciated by either a man or a woman. A gift you know can be taken home and shared with the entire family.

Tony: Lastly, reliability, which is one thing gift buyers often overlook. The gift supplier you select should be able to "come through for you"...to deliver the gifts on time, to the right people. You shouldn't have to worry about a thing - from the time you enter the order.

Meredith: In short, your gift should say something nice about you, but at the same time make you feel nice about giving it.

YES - I'd like to see the selection of business gifts, in good taste, from Smucker's. Please send your catalog.

FLEET CARS 1981 LESS IS MORE

say that they have put off purchases or new leases as a way of cutting costs. Indeed, Michael Marchioni, assistant to the vice president of sales at Stowe Woodward, Newton, MA, reports that his company doesn't supply its salespeople with new cars until the old ones have close to 100,000 miles on them. He explains: "Then the company will be sure its own cars see their maximum usefulness. Salespeople are also forced to take care of their cars with this kind of policy."

But such firmness is not always the case. Many respondents complain that management doesn't emphasize the subject enough with its travelling salespeople. Apparently the approach taken by Ronald L. Samuels, senior vice president of sales and marketing at Herbert Materials, Nashville, TN, is exceptional. He says, "Communication is the key to cooperation in our company. When salesmen are well informed as to the costs of running a sales operation and review with management the actual vs. pro forma expenses, they tend to be more understanding and sympathetic with management."

Air-Shield, Inc., Hatboro, PA, has gone a step further. Jim Myhre, national sales manager, reports that Air-Shield includes field expense performance in its incentive plan for first-line managers. He says, "This is a very effective way of keeping fleet ex-

Making Your Own Product Managers?

Many successful companies develop their own product managers rather than recruiting outside.

The internal sources may be sales, technical, marketing, finance, research or manufacturing. These folks need some help if they are to become effective product managers.

Our highly regarded *Effective Product Management* workshop responds to this need. Most workshops are run in-house for groups of 12 to 16 in the U.S. and abroad.

penses—as well as all field expenses—within budget guidelines."

Still, S&MM's survey found some respondents who are staying with large cars. William Bradfield, vice president, marketing and sales, St. Clair Pakwell, Bellwood, IL, notes that "the nature of our product requires a large trunk for samples, catalogues, and files. Compacts or intermediates do not afford the size we really need." Furthermore, he says, "A salesman's car is his office. A salesman should have a quality car that delivers him fresh at our distributor's place of business."

Others have similar feelings and are also concerned about the safety of smaller cars. For example, Tony Clar, director of marketing, Control Chief Corp., Bradford, PA, says, "I personally do not advocate long distance journeys in small cars because of fatigue and increased chances of injury in accidents."

A more crucial problem, however, centers around how salespeople view their cars. Fortunately, few managers are as hard-pressed as the one who observes that, "Nothing has kept fleet costs from rising; our salespeople know that whatever they do will have little impact." Still, one respondent says, "Salespeople consider a large auto as part of their benefits." Another comments, "They consider the car they drive a status symbol." M.J. Gancar, vice president of marketing for Control Components International, Irvine, CA, sums up the problem when he says, "Most salespeople view company cars as a form of compensation—not a sales tool. They are becoming more and more a required 'benefit.' Most companies have yet to make it clear as to their view, which results in a lot of confusion."

Other companies stick with big cars and don't worry about fleet costs. One vice president of marketing explains: "If we can keep rising costs in proportion to sales growth, we will not complain." J.L. Albrecht, vice president of west region sales, Okonite Co., South San Francisco, CA, echoes this comment, saying, "Business is so good and the company is making so much money that, as a percentage of sales, our expenses are not out of line."

In these times, however, not all companies can be so sanguine. It requires prudent sales management to keep fleet costs from sideswiping the company's bottom line. S&MM

SUCCESSFUL SALES begin with SUCCESSFUL SALESPEOPLE

Organizing and Managing Your Sales Force: Tested Methods that Get Results (783)

Muster your sales force with clear priorities and concrete sales strategies that will produce results. It's easy to slip into the activity trap: this intensive seminar will give you tested methods to identify and recruit "self starters," forecast your problems and opportunities, develop compensation plans to achieve company objectives, and confidently decide what you need to do and to stop doing.

Key Topics
- Selecting, organizing, motivating, and monitoring your sales force
- Setting performance standards and sales objectives
- Career path planning for the salesman
- Dividing territories (adding salesmen)
- Effectively making and implementing decisions
- Morale
- When and how to terminate
- Using Transactional Analysis in selling and managing

Who Should Attend:
Small Business Entrepreneurs Sales Vice Presidents National Sales Managers Field Sales Managers Sales Administrators Assistant Sales Managers Regional and District Sales Managers Marketing Managers with responsibility for sales Prospective Sales Managers

Now you can improve your performance and increase your income.

Take the first step towards success with this unique opportunity, designed to offer a solution to the individual training needs of today's sales people.

Using our totally realistic and practical approach will give you the skills to successfully deal with buyer resistance, competition, finding and selling new accounts, organizing and managing your sales force, and much more.

Here's your chance to learn not only concepts but also how to relate those concepts to your own individual situation. Each of the seminars listed below will focus on specific aspects of the on the job selling situation which will help you gain more confidence and a higher degree of success.

How to Develop Extraordinary Selling Skills (777)

Top salespeople sell with their heads rather than their feet. Intelligence and human sensitivity have always been the signs of a true professional. Learn to identify your best prospects and present your product as a solution to their problems. Appeal to your customer's MIND. Learn to anticipate his objectives, and meet them.

Key Topics
- Planning your sales calls
- Preparing your presentation
- Making the sales call
- Overcoming objectives
- Understanding why you did or did not get the order
- Generating more new business from existing accounts

Who Should Attend:
Experienced professionals as well as those with a minimum of six months experience.

How the Survey uncovers opportunities when times turn tough

By THAYER C. TAYLOR
Editorial Director
Survey of Buying Power

Inflation casts a somber uncertainty over marketers' prospects in the 1979–84 forecast period, according to S&MM's *Survey of Buying Power—Part II*. Markets will continue to expand, but buying power in real terms will shrink.

- **Population,** helped along by increased immigration and a mini baby boom as record numbers of women enter prime childbearing ages, will increase 4.7% to 231.9 million, slightly better than the 4.3% increment of the preceding five years.
- **Households,** reflecting the maturing of the last stage of the postwar baby boom and looser living arrangements, will expand a zesty 11.8%, to 87.5 million, topping the earlier stanza's 9.8% rise.
- **Effective Buying Income (EBI)** will surge upward 68.8%, reaching $2.7 trillion by 1984, even improving on the 65.5% gain that occurred between 1974 and 1979.
- As a result, the typical household will pull down $31,225 in 1984, 51.0% more than in 1979, and per capita EBI will rise to $11,780, a whopping 61.3% gain.

However, that's all in current dollars. When you wring expected inflation rates out of the dollars, the picture turns grim. Market Statistics, the Bill Communications subsidiary that prepares the *Survey* data, predicts these inflation rates: 10.7% in 1980, 10.6% in 1981, 9.4% in 1982, 9.4% in 1983, and 9.5% in 1984.

Though these rates are somewhat higher than most economists foresee, considering how economists have notoriously underestimated inflation since the 1973–75 recession, one can make a strong case for Market Statistics' assumptions.

If those assumptions prove accurate, S&MM's calculations indicate that EBI, in 1972 dollars, will grow only 5.2%, from $991.2 billion in 1979 to $1,042.8 billion in 1984. This will be a tremendous drop from 1974–79's 18.5% real gain.

Consequently, the typical household and consumer will be worse off in 1984. Per household EBI, in 1972 dollars, will decline 5.9%, from $12,667 to $11,918, and per capita EBI will slip 1.2%, from $4,473 to $4,419. The per capita slippage will be gentler than the per household dip because households will increase at a faster pace than population and will continue to shrink in size.

This scenario is a disquieting one for marketers. It suggests, as noted in S&MM's Special Report, "Selling With Your Back to the Wall" (June 9), that productivity will continue to lag, savings ratios will be at very low levels, consumer spending will be hitched to

(continued on page 8)

Behind the Survey's projections

Population

The methodology behind the "Survey of Buying Power's" five-year population projections is explained in this way by Elias Fokas, vice president, Market Statistics, the Bill Communications subsidiary that prepares the "Survey" data.

Population change occurs in two ways: natural increase, the difference between births and deaths, and migration, the net result of in-and-out movement of people to and from a specific locale.

The first step in estimating natural increase is projecting the number of births, which we base on fertility estimates for each county. Our 1979 county-level fertility rates, which consist of the number of live births per 1,000 women 15–44 years old, are based on our county-level birth data and our age-sex estimates of each county's population.

We project expected fertility rates at the national level through a regression equation that considers rate changes of the last 10 years and gives more weight to those of recent years. Since the fertility rate depends on socioeconomic factors that affect every area in the U.S. to a similar degree, we adjust the county's expected fertility rate to reflect national trends. That gives us projected fertility rates for 1984 for every county. Those rates differ in absolute terms from county to county, but they follow the national rate trend. Once those rates are determined, we apply them to the expected number of females 15–44 years old in the county for each year up to and including 1984. That gives us the projected number of births.

Next, we project the number of deaths in each county. Those rates have been constant in the last decade, which makes them comparatively easy to predict. The projected number of deaths are deducted from the projected number of births to give us the numerical natural increase.

The second major population factor, net migration, is influenced by such things as job opportunities, presence of colleges or military barracks, and resort areas for retirees. Starting with the 1970 Census of Population and Housing, we have measured those changes each year and are able to make projections of net migration for each county based on those data.

In our final step, we take the net population change and add it to current county population estimates. That results in our first county projection estimates. We then examine our county estimates to make sure that their sums agree with our state control totals, which are arrived at by a similar process.

Household projections are based on trends in household size changes at the county level from year to year. Those trends are determined from the Census Bureau's *Current Population Survey Series* that provides estimates at the state and national levels. We also use the Bureau's one-time *Survey of Income and Education,* which provides valuable information at the metropolitan area level. After analyzing these two sources, we project the average household size for each county through 1984. By dividing household size into population, we arrive at the projected number of households.

Effective Buying Income

The methodology behind the "Survey of Buying Power's" five-year Effective Buying Income (EBI) projections is explained below by Robert Katz, vice president, Market Statistics.

Development of our five-year EBI projections is intimately related to the manner in which we prepare the *current year* estimates for the *Survey of Buying Power* (S&MM, July 28). EBI is roughly equivalent to the federal government's disposable personal income (DPI) series with one important exception. We remove from the DPI total the income earned by Americans permanently stationed abroad, such as diplomatic and armed forces personnel and business persons.

Each year, we get from the individual state-employment agencies information on total wages and salaries and nonagricultural employment for each county in their jurisdiction. Based upon our own analysis, the year-to-year change in these totals has proven to have a high correlation with the annual change in the average EBI per household at the county level.

Since 1970, we have also purchased each year from the Bureau of Economic Analysis (BEA) a computer tape with total (pretax) personal income, population (derived from the Census Bureau's P-25 series), and per capita income for all the counties in the U.S. We compare the year-to-year change shown in the BEA's data with the annual changes in our own per capita EBI for each county, making allowance for the income tax rates of the individual states. Where there is a significant difference in the percent change between the two series, we re-examine our EBI data to determine if any adjustment should be made.

With this information in hand, we develop our five-year projections in two major steps. First, we determine what the number of households will be in each county five years from now. The increase or decrease in the number of households is a critical factor because, obviously, such change represents a potential gain or loss in total EBI. Here, we generally make the assumption, except in special cases, that the average income of those leaving or entering the county in the forecast period will be comparable to that of those presently living there. The special cases arise when our records indicate that a county has been either attracting or losing households whose incomes are significantly higher or lower than its overall average.

The second major step involves making projections of the future rates of inflation and real gross national product (GNP). Here, we rely on deflators that the BEA has developed for DPI and total retail sales. Projecting future economic growth for the 1979–84 period gives us a handle on what the total EBI will be in 1984. In turn, projecting the inflation rate enables us to express our 1984 EBI data in terms of current dollars. We assume an average annual inflation rate of 9.9% in the 1979–84 forecast period and an average annual growth of 1.1% in real income in the same period.

To develop our 1984 EBI totals for each county, we combine the above estimates with both our household projections and our average EBI per household projections. The latter are derived from projections of what has happened in each county between 1970 and 1979, with the greatest weight given to the rate of change in the most recent years.

Retail sales

The methodology for the "Survey of Buying Power's" five-year retail sales projections is explained by Patricia Sullivan and Sharon Vattimo, senior research associates, Market Statistics.

The starting point of our Total Retail Sales (TRS) estimates is the Census Bureau's 1977 Census of Retail Trade. To track what has happened in each county since 1977, we rely principally upon two sources:

1. The sales-tax data we receive from more than 40 states.
2. The Census Bureau's annual *County Business Patterns* (CBP) series of state reports that include employment and payroll data for all the retail store types.

By analyzing the year-to-year changes in the sales-tax data, on the one hand, and the number of retail store outlets and number of employees for each type of store, on the other hand, we get an accurate fix on what happens to the TRS from one year to the next. The CBP information is especially helpful in filling the gaps created by the states that do not cooperate in releasing their tax data. Although the CBP reports have a two-year lag, we can adjust for this by matching their information to the Census Bureau's *Monthly Retail Trade Report*. That report now has data for 19 states and 28 of the biggest metropolitan markets.

In projecting the TRS, on a county-by-county basis, to 1984, we rely primarily on two important variables:

- **TRS as a share of Effective Buying Income (EBI).** Because a county's EBI, obviously, has an important correlation to what its population can spend in retail stores, we have established for each county back to 1977 its TRS expressed as a share of EBI. When analyzed over a period of time, this ratio provides a reliable picture of how people in different counties spend their income. While the bulk of the counties cluster around an average ratio, we look for those areas where the ratio is significantly above or below average.
- **Per capita sales**, which enables us to relate the TRS to population change. This variable is helpful in analyzing counties where population and retail sales are moving in different directions or at different rates.

Next, we make an assumption on what the overall inflation rate will be in the forecast period and apply it to our TRS estimate. Thus, 1984 retail sales projections are in current dollars, with an assumed average annual 9.9% inflation rate in the 1979–84 period.

In the final step of our calculations, we project the county's trendline TRS-share-of-EBI to 1984 and multiply it by the total EBI we have projected for the county. Similarly, we project the trendline per capita TRS to 1984 and multiply it by our projected population. We then take the two different sets of projections, assign them different weights based upon the county's recent behavior patterns, and compute a total retail sales figure for that county.

Nonmetros will set the pace through 1984

(continued from page 5)

maintaining living standards in the face of rapidly rising prices, business investment will remain tepid, and energy, food, and housing will siphon off inordinate chunks of EBI, leaving little room for discretionary purchases.

Worse still will be the effect a decline in real income will have on the consumer psyche. The newer lifestyles that were ushered in by the "great expectations" of the postwar baby boom generation will face a time of testing, and austerity marketing may become the vogue. Because there'll be a smaller pie to cut up, social tensions will intensify, bringing an instability to the marketplace.

Given this less than handsome backdrop, marketers, more than ever before, will scout for local markets that offer better sales building opportunities than national trends suggest. The *Survey*'s Section C: Metropolitan Market Projections (page 45) pinpoints the markets that can be cultivated for extra growth. Section B: Merchandise Line Sales (page

rates are one thing, market size another. For example, New York state alone, despite a 3.0% loss by 1984, will still have almost 2.5 times as many customers as the Mountain states combined: 17.2 million vs. 7.1 million.

Marketers should note that two contrasting trends are changing the marketing landscape. On the one hand, interregional shifts are decentralizing the national population. On the other, an intraregional concentration is occurring owing to the dominance of a single state in each growth region.

California will account for more than two-thirds, 68%, of the 6-state Far West's numerical increase and Texas for 64% of the 4-state Southwest's gain. In the 5-state Rocky Mountain sector, Colorado will chip in with more than one-third, 36%, of the absolute increment, and Florida with more than one-

...as meticulously arranged meetings.

"Imagine, if you can, anyone who wouldn't love to have a grandfather clock."

"Everybody loves and wants a grandfather clock. With a grandfather clock, people have pride of ownership, status, and a product with ageless beauty. Those are the qualities I need in a premium or incentive. But if I use grandfather clocks for a premium or incentive program, I want a supplier who can deliver the product immediately and in one piece."

That's where Pearl Grandfather Clocks comes in. Since 1977 they've shipped direct to over 25,000 mail order, premium, and incentive customers. They have the inventory to deliver immediately and a nationwide service organization ready to set up and service Pearl Grandfather Clocks. And you can choose from Pearl's broad line of models and price points.

Pearl Grandfather Clocks. They've got the premiums or incentives that everyone wants and delivery and service you can depend on.

For more information write or call Joe Rosenthal for the Premium/Incentive Program Catalog at Pearl Grandfather Clocks, 730 Huron, Memphis, TN 38107, 901/526-4444.

fourth, 26%, of the 12-state Southeast's expansion.

People take their paychecks with them, and the direct impact population movement has on marketers is best illustrated by a region's change in its Buying Power Index (BPI)—S&MM's handy yardstick that combines population, EBI, and retail sales into a market's measured share of the U.S. potential. At the opposite ends of the spectrum of regional

change in BPI, the Southwest will fatten its share of the U.S. potential 9.7% in 1979–84, while the Middle Atlantic will suffer a 9.1% loss.

Following is a brief description of each of the *Survey*'s statistical sections and how they will help the marketer separate the plusses and minuses in formulating his sales strategy.

Section B: Merchandise Line Sales

Merchandise line sales estimates pertain to the dollars consumers spend on specific product categories, such as groceries and other foods, drugs and other health aids, that are bought from a variety of sources. Retail store sales, on the other hand, refer to the total volume of business of a particular type of retailer, such as food stores or drug stores, and cover the wide assortment of products stocked by the store type.

The distinction is an important one for marketers because in today's environment of scrambled merchandising, with each retailer type penetrating into nontraditional product areas, a particular store type will have less correlation to the product category associated with it. Food stores sell a lot more than groceries.

Because they are based on a single product category, merchandise line sales estimates (starting on page 33) provide a more accurate fix of a product's market potential. Food store sales in 1979, as reported in the *1980 Survey of Buying Power* (S&MM, July 28), totalled $195.7 billion, while purchases of groceries and other foods, the merchandise line category, came to $167.0 billion, according to the *Survey of Buying Power—Part II*.

The dollar spread between a merchandise line category and the store type associated with it may not seem significant at the national level, but the difference can be critical, even misleading, at the local-market

CREATIVE JUICE

INSTRUCTIONS

ADVERTISING AGE TAKES THE GUESSWORK OUT OF ADVERTISING DECISION-MAKING.

The Professional Development Program in Advertising is one of the most comprehensive, practical approaches to advertising training ever offered in the industry. Designed as a home study course and as an advertising reference, it works exactly as its name suggests: To develop the professional skills of advertising decision makers.

HELPING ADVERTISING EXPERTS STAY THAT WAY.

The Professional Development Program is dedicated to the proposition that staying informed in advertising is the best way to stay professional. That's why the Program provides real case histories, savvy marketing analyses and tips from professionals like Mary Wells and Herb Maneloveg. So people who've been around the block can stay in the running.

A TRAINING COURSE AND A REFERENCE.

The format of the new and expanded Program consists of twenty illustrated study lessons (including four new lessons), supported by six taped interviews with experts in the advertising field. But the Program is more than a training course. It's an answer place for all your advertising questions. No one book contains as much information about advertising, media, marketing, creative, research, agency/client relationships and the agency business.

SO ADVERTISING STAFFS CAN KNOW MORE THAN A LITTLE ABOUT ADVERTISING.

Over 1,500 different companies have ordered the Professional Development Program for training in-house advertising personnel. The Program's practical approach gives newcomers the next best thing to actual experience in the business. And the information is so comprehensive newcomers can get maximum exposure to all facets of advertising in a relatively short period of study.

NEW EXPANDED MATERIAL.

We have added four lessons to the original sixteen of the Professional Development Program to include even more information. Now there are sections on outdoor and transit advertising, yellow pages, specialty advertising. We also have a whole new supplement on the pros and cons of using an advertising agency.

FEATURING EXCLUSIVE TAPED INTERVIEWS WITH THESE ADVERTISING SUPERSTARS.

Mary Wells, Board Chairman, Wells, Rich, Green, Inc., speaks on creative management. **Herbert D. Maneloveg,** Director of Media, Programming & Media Research, Kenyon & Eckhardt, Inc., speaks on media strategy and direction. **Kenneth Cox,** Chairman of the National Advertising Review Board, speaks on advertising's social and legal responsibilities. **David Mahoney,** President & Board Chairman of Norton Simon, Inc., speaks on advertising's role in the marketing mix. **David Hardin,** Board Chairman, Market Facts, Inc., speaks on marketing research and consumer behavior. **Andrew N. Vladimir,** co-author of the Program and now Chairman of Sharp, Hartwig & Vladimir Advertising, introduces the interviews.

GETTING A CERTIFICATE OF COMPLETION.

The Professional Development Program is designed as a real course with mid-terms and final exams that are graded by the course authors. Students who complete the exams successfully can earn the Advertising Age Certificate of Completion, a mark of real achievement in the field. Programs, designed for study anywhere, come in a rich textured vinyl portfolio so they keep their value as permanent reference tools.

level. The more precise the information that the marketer relies on for estimating his product's market potential, the more reliable will be his calculation of his own sales potential, and the more equitable will be the quotas he assigns to his sales personnel. For example, the spread between food store sales and grocery product purchases is 19% in Houston compared with only 9% in Washington, DC.

A marketer of women's clothing could seriously underestimate his sales potential in certain metro markets if he relied upon apparel store sales. In Dayton, OH, last year, apparel stores wracked up $104 million of business, but consumer purchases of women's and girls' clothing was actually two-thirds greater, or $174 million. The reason for the disparity, of course, is that two-thirds of the consumer outlays for the product category are spent in department stores.

The same marketer will gain sharper insights into his product's sales potential when he examines the data in Section B for nine metro areas whose apparel store sales cluster close together, from $102 million to $108 million. The markets, and their respective apparel store sales and women's and girls'

Dun's Marketing Services

DB a company of The Dun & Bradstreet Corporation

SMM 1080

We bring buyer and seller together.

clothing merchandise line sales:

Metro Market	Apparel Stores (Mil.$)	Women's Clothing (Mil.$)
Long Branch-Asbury Park, NJ	$108.3	$ 94.2
Worcester-Fitchburg-Leominster, MA	108.2	118.3
Orlando, FL	108.0	134.7
Wichita, KS	106.6	95.0
Flint, MI	106.6	148.6
Akron, OH	105.2	144.8
Dayton, OH	104.4	173.7
Northeast Pennsylvania	103.3	135.6
Raleigh-Durham, NC	102.3	115.2

The marketer quickly learns that in all but two of the markets—Long Branch-Asbury Park, Wichita—women's clothing purchases are greater than that suggested by apparel store sales. He also learns that apparel stores in the nine markets total $952.9 million in sales whereas the merchandise line sales total is 22% greater, or $1,160.1 million. Thus he would have underestimated his product's market potential by more than one-fifth if he relied upon the conventional retail store sales yardstick.

Worse yet, the contribution that each market would be expected to make to his forecasted sales would be seriously askew if he relied on apparel store sales, which could even affect sales force morale. Apparel store sales would suggest to him that the salesperson covering the Long Branch-Asbury Park market should be his top sales producer because the metro area's retail sales of $108.3 million leads the pack. In truth, the salesperson in that territory would be working the least promising market because the merchandise line sales estimate, at $94.2 million, trails all of the other markets.

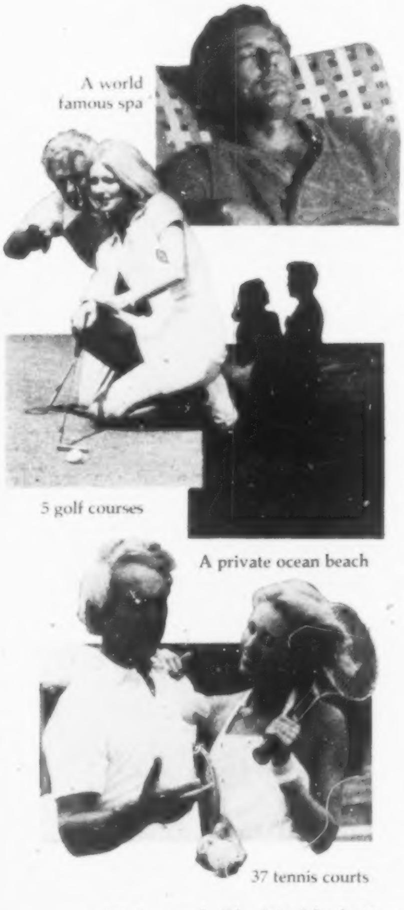
Other inputs to the formulation of a successful sales strategy will come from a closer look at the comparative data of the nine markets. If he compares each market's share of aggregate apparel store sales and women's clothing purchases, he will gain a better perspective on where he should concentrate his selling efforts. Here is how the markets line up:

Metro Market	Apparel Store %	Women's Clothing %
Long Branch-Asbury Park, NJ	11.4%	8.1%
Worcester-Fitchburg-Leominster MA	11.4	10.2
Orlando, FL	11.3	11.6
Wichita, KS	11.2	8.2
Flint, MI	11.2	12.8
Akron, OH	11.0	12.5
Dayton, OH	11.0	15.0
Northeast Pennsylvania	10.8	11.7
Raleigh-Durham, NC	10.7	9.9

Based upon retail store sales, there's no appreciable difference in the share of total sales

WE HAVE A BRAND NEW CONVENTION CENTER FOR WORKING.

AND ALL THIS FOR PLAYING:



The World of Palm-Aire, designed for the discriminating meeting planner, with over 15,000 square feet of flexible meeting space, is especially adapted to people who expect luxury. Even during meetings.

We have a full range of convention centers, seminar rooms and meeting suites. Each equipped with the newest acoustical and lighting systems. The finest personalized service for large groups or small.

When you're not meeting at the conference table, meet on one of our five golf courses. By the swimming pool closest to your room. Or at one of our four fine restaurants with four different atmospheres and menus.

Find out how to motivate your people. Call Jack Healey, Vice President, Hotel Sales & Marketing, toll-free at (800) 327-4960. From Canada or Florida call (305) 972-3300, collect.

The World of Palm-Aire

Department 21560

We've made The World a better place to live. FPA Corporation.

that each market should account for. However, a dramatically different picture emerges when the marketer is guided by the merchandise line sales estimates. Here, Long Branch-Asbury Park should bring in 8.1% of sales whereas Dayton could bring in almost twice as much, or 15.0%. Armed with this kind of precise data, he can assign his quotas and allocate his advertising spending with a greater degree of confidence.

Section C:
Metro Projections

Manage change before it manages you. How often has the harried sales executive been the butt of this homely advice. Trite it may sound, but, unfortunately, too many sales chiefs are still so preoccupied with making short-term gains that they shortchange the equally critical function of long-term planning. S&MM's five-year metropolitan market projections, starting on page 45, take

most of the mystery out of what will happen to local markets in the years ahead, thus giving the sales executive a foundation on which to build his future plans.

There are many ways in which metro area projections enhance the marketer's planning. Focussing on the markets with the biggest % change for 1979–84, he can ascertain whether he is positioned in the fastest-growing markets, markets that, down the road, will require additional sales personnel due to their larger size. Turning to markets that will grow less than the 4.7% anticipated for the U.S., he can make sure he is not overspending in markets that will comprise a dwindling share of U.S. potential in the future.

Like the ocean's waves, markets rise and fall in response to tidal currents, and the opportunistic marketer must be poised to exploit the turning point of a metropolis's fortunes. For example, 44 markets (25 in the Northeast, 10 in the Midwest) will lose population in 1979–84, and almost half of them (21) actually gained population in 1974–79.

The first half of the 1980s will continue the broad metro growth pattern of the 1970s: the fastest-growing markets are in the West and South (see table; page 13). Of the 30 markets with the steepest growth between 1979 and 1984 (ranging from 13.4% to 30.4%), 17 are in the West, 11 in the South, and 2 in the Midwest. Three states dominate the growth picture: California, with 6 of the metro high-steppers; Texas, 4; and Florida, 3.

Interestingly, the same broad pattern prevails among the next group of 30 fastest-growing markets (ranging from 10.3% to 13.1%), but with a marked regional tilt. Seventeen are in the South; 9 in the West; 3 in the Midwest; and 1 in the Northeast.

Not surprisingly, because it's easier to chalk up fat percentage gains on a small base, the bulk of the fastest-growing metros are on the smaller side. By 1984, 13 of the top 30 will still have fewer than 200,000 people.

Even so, eight of the fastest-growing metros fall in the major market class of one million or more population. They are: Riverside-San Bernardino-Ontario, CA, up 22% to 1.8 million; Houston, TX, up 17% to 3.3 million; San Diego, CA, up 17% to 2.1 million; Phoenix, AZ, up 13% to 1.6 million; Denver-Boulder, CO, up 12% to 1.8 million; Sacramento, CA, up 12% to 1.1 million; Anaheim-Santa Ana-Garden Grove, CA, up 12% to 2.1 million, and Fort Lauderdale-Hollywood, FL, up 11% to 1.0 million.

Household income level is a closely watched sales indicator because, by adding another dimension to population, it underscores a market's potential buying power. The better off the average household is, the

Selling getting expensive?

No question about it, selling is getting very expensive. That's why so many cost-conscious marketing managers are turning to Kelly Marketing for assistance.

KELLY SERVICES
The "Kelly Girl" People

We love a challenge.

That's why no group's too unusual for our meeting experts

To us, there's no such thing as a run-of-the-mill meeting. We treat *every* group like it's one-of-a-kind.

With individualized service and specialized assistance that assures you of a smooth-running, productive meeting. (Make an unusual or special request around here and you get responsive action, not obstructive excuses.)

Naturally, some groups are more eccentric than others. We've had one that demanded an entire floor for one night. Another with 300 people on a rice diet. Our people handled them. Effectively. Efficiently. Professionally. And this same staff expertise is available to your group. Along with some of the finest hotel meeting facilities around.

We offer numerous vari-sized meeting rooms, fully equipped for small conferences, and a spacious banquet room for exhibits, large gatherings, or catered affairs. You'll find our guest rooms comfortable, well-appointed and conducive to concentration. And our restaurant and lounges are popular throughout the city. So your people can dine superbly and relax in fine style.

Let us show you how special we think your group is. Call Dunfey Atlanta today, and add a touch of the extraordinary to your next meeting.

Newspaper market changes

Three new newspaper markets appear in this year's *Survey:* Chico, CA, Bradenton, FL, and Panama City, FL. Vallejo-Fairfield-Napa, CA, was dropped because it did not meet the qualifying criteria (page 86).

The dramatic increase shown in the data for the Nashville-Davidson, TN, market occurred because a leading newspaper that was previously not audited was included this year; it had the effect of adding 19 counties to the market.

What will she say
to close the sale?

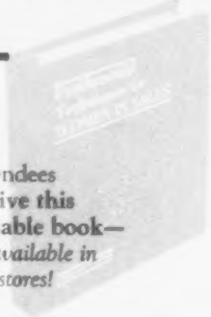
It's the final step in selling . . . and the toughest one of all. Especially for the woman new in sales.

That's one reason success-oriented women begin by attending this important course:

Fundamental Techniques for Women in Sales.

It offers presentations, practical strategies and role-playing sessions—all led by men and women with outstanding track records themselves.

And it takes only two days from start to finish.



Attendees receive this valuable book—*not available in bookstores!*

Mail this coupon for details on when this course is available in a city near you. There is no obligation.

☐ Please send me information about your 2-day course: *Fundamental Techniques for Women in Sales.*

more discretionary income is available in the market for nonessential purchases.

Changes in market buying power can be as dramatic as population shifts. A ranking of the 10 most affluent markets in both 1979 and 1984, based upon Average Effective Buying Income per Household, will reveal changes in relative market appeal, as seen below:

	EBI Per Hshld. Rank 1984	*1979*
Anchorage, AK	1	1
Bremerton, WA	2	9
Pascagoula-Moss Point, MS	3	22
Kokomo, IN	4	18
Bridgeport-Stamford-Norwalk-Danbury, CT	5	2
Kenosha, WI	6	24
New Brunswick-Perth Amboy-Sayreville, NJ	7	10
San Jose, CA	8	6
Houston, TX	9	13
Honolulu, HI	10	8

Similar exercises with retail sales, the third basic dynamic included in S&MM's metro projections, will clue the marketer as to those local markets that will figure importantly in his future sales strategy.

Section D:
Newspaper Markets

Once the marketer deploys his sales personnel among targeted metropolitan markets, he turns to the question of allocating advertising support. This year, national advertisers will invest an estimated $2.3 billion in newspaper advertising to back up their sales personnel. While cost-per-thousand and audience demographics are the principal determinants in how this outlay is spent, S&MM's *Survey of Newspaper Markets* (page 85) gives the marketer an alternative tool for using his newspaper budget most effectively.

Media are commonly bought in clusters of top 25 or top 50 markets. However, the traditional technique of ranking markets by population or households can conceal sales-building opportunities that a canny marketer can exploit. A marketer who anchors his sales strategy on working closely with a particular category of retail store may find a market's retail store sales rank a more helpful indicator than population.

For example, Fort Lauderdale-Hollywood, FL, ranks 52nd in population but a much stronger 39th in furniture-home furnishings-appliance store sales. Conversely, Albany-Schenectady-Troy, NY, is 55th in population but a poorer 70th in furniture-home furnishings-appliance store sales.

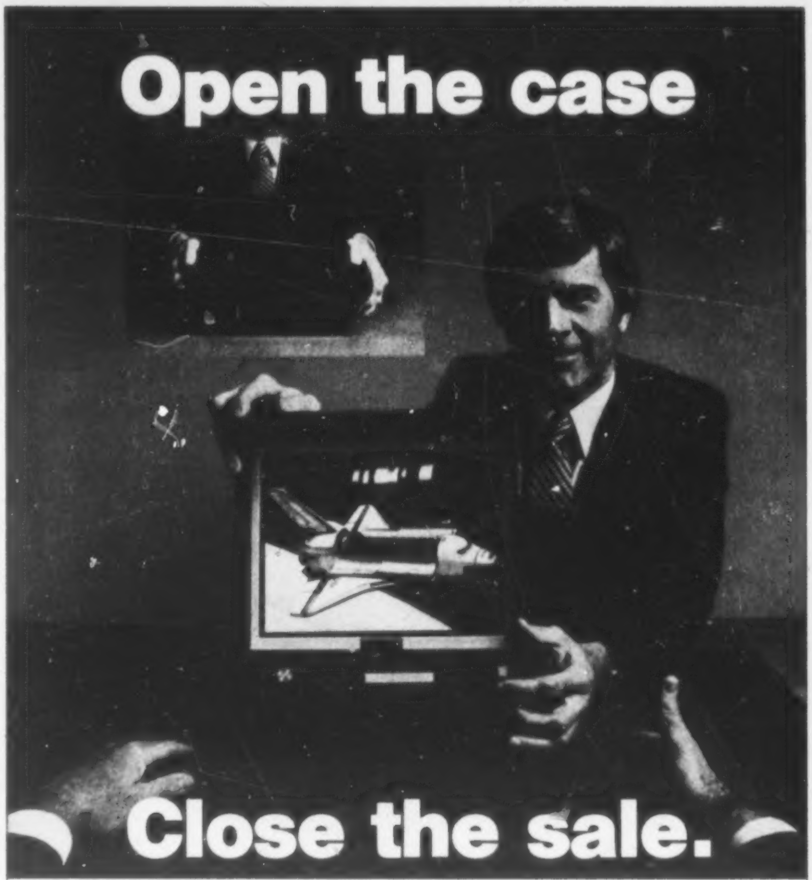
Working with the basic statistics in the newspaper markets section will turn up insights on how the newspaper budget should be spent. Average Effective Buying Income (EBI) per household (calculated by dividing total EBI by total households) is a helpful clue to the relative appeal of markets of different sizes or even of similar sizes.

Here is how five markets of dramatically different sizes compare as to average household EBI:

	Total Hshlds. (Thous.)	*Average EBI Per Hshld.*
Chicago	2,487.3	$25,126
Miami	1,003.8	21,003
Denver-Boulder	746.2	21,926
Cincinnati	607.2	21,388
Des Moines	506.5	21,160

Obviously, Chicago is the prime sales target. It is five times bigger than the smallest market, and its average household has an extra $4,000 of buying power. Interestingly enough, because the other four markets cluster close together in household affluence, Miami, despite having the lowest income level in the group, would get serious consideration because of the greater number of consumers it offers.

There are times when bigger is not necessarily best. Average EBI per household can also help the marketer cull a pea



Fairchild's Super 8 portable film projector delivers a clear, convincing message and puts your entire company behind every pitch.

Here's a sure way to convert any sales presentation into an order! Fairchild's Super 8 projector presents every important feature and benefit with dependable accuracy and exciting live action.

The Galaxy 900 looks like an ordinary attache case, but set it on a prospect's desk, flip open the top and you're on your way to a professional, dramatic film presentation. One that commands attention while getting your message across with the right words and pictures *every time* so you get the sale. Lightweight, portable and easy-to-use, the Galaxy 900 projects your image brightly on the 8"x10½" built-in screen. Or switch to wall projection in seconds. The Galaxy 900 is today's most efficient selling tool.

Money Talks

SUNCOAST MONEY SHOUTS

There's plenty to shout about on Florida's Suncoast. Retail sales in 1979 topped $7 billion, with the St. Petersburg-Tampa metro area accounting for $6.521 billion of the total. That puts the SMSA in second place in Florida, third in the Southeast.

And there's plenty to shout about in Pinellas County (St. Petersburg), because its $3.131 billion in retail sales places it third among Florida counties, ahead of neighboring Hillsborough County (Tampa.)

So do a little shouting of your own, in the pages of The St. Petersburg Times and Evening Independent. You'll be reaching affluent Times and Independent readers more efficiently than you can with any other advertising medium in the area.

Now that's something to shout about.

St. Petersburg Times
& Evening Independent

P.O. Box 1121
St. Petersburg, Fla., 33731
General Advertising
(813) 893-8249
Represented nationally by
Story & Kelly-Smith, Inc.

from a pod. Here are five newspaper markets that are very similar in size but with a noticeable income difference:

	Total Hshlds. (Thous.)	Average EBI Per Hshld.
Louisville	425.9	$21,278
Sacramento	422.2	20,599
Indianapolis	420.8	22,359
Oklahoma City	411.0	19,338
Charlotte-Gastonia, NC	409.9	19,908

In this case, if the marketer is selling a premium-priced product he would give special consideration to Indianapolis, which, despite its ranking third in number of households, has the most affluent consumer buying units among the five markets. Also, while the household count suggests that Indianapolis and Sacramento each get the same share of a newspaper budget, the fact that the typical household in the Indiana market has almost $2,000 more in buying power means it merits an extra heavy weight in an advertising schedule.

Section E: TV Markets

Most consumer-goods marketers these days spend big bucks on TV to support their sales forces. An estimated $8.3 billion will be spent on TV this year, with 61% of the outlay in network and 39% in spots. S&MM's *Survey of TV Markets* (page 147) helps the marketer pick the local markets where spot TV investments can produce the best returns. While audience demographics, program ratings, and cost-per-

	50-market total	**43,502.0**	**$22,492**	**109**	**61.4%**
	U.S. total	**78,253.2**	**$20,685**	**100**	**N.A.**

N.A. Not available because of duplicate circulation among newspapers and county redundancy where same county can appear in more than one newspaper market.

Notes: **EBI Per Household** pertains to all the households in the market, not just the newspaper-subscriber households. For data on the income levels of subscriber households, consult the local newspapers in the market as to whether they have such information and the date of their latest research.

Quality Index is calculated by dividing the U.S. average, $20,685, by the market's comparative average; an index of 109 means 9% above average, an index of 97 means 3% below average.

% Households Coverage is calculated by dividing the number of households into total circulation. However, because of duplicate circulation in multinewspaper markets—that is, a household buying more than one newspaper—the ratio must be used with caution.

© Sales & Marketing Management

thousand figure prominently in the formulation of TV budgets, the *Survey*'s basic data on population, Effective Buying Income, and retail sales gives the sophisticated marketer an extra edge in allocating TV dollars among relevant markets.

Retail sales data, for example, can figure critically in the allocation of co-op advertising, an increasingly important part of TV spot budgets. A marketer who relies on supermarket distribution will find food store sales a better indicator than population of where to place co-op dollars because they suggest the level of consumer spending in his key distribution channel. A market's share of population can differ markedly from its share of food store sales, as seen by the TV markets of roughly comparable size (see table, next column).

	% of U.S. Pop.	*% of Food Store Sales*
Washington, DC	1.8020%	1.7716%
Cleveland	1.7531	1.8947
Pittsburgh	1.5250	1.4411
Dallas-Fort Worth	1.5225	1.5304
Houston	1.4680	1.8052
Minneapolis-St. Paul	1.3384	1.1662
St. Louis	1.3341	1.4015

Armed with this additional insight into the comparative appeal of the markets under consideration, the marketer can allocate his TV dollars according to the relative strength of local supermarkets. Dividing a market's share of food store sales by its share of population gives him an index that can be used to weight his TV spending.

Assuming that he originally planned to spend $10,000 in each of the seven markets, he

3 great meeting rooms.

And 330 acres of non-meeting room.

South Seas Plantation offers plenty of places to get together. Our three fine conference centers can handle up to 250 people.

But just as important, we can offer plenty of opportunity to get away from the crowd, too.

You can stroll through hundreds of acres of lush, tropical beauty. Hunt for shells along our 2-1/2 mile stretch of private beach. Dine in award winning candlelit splendor. And enjoy the boundless wonders of the Gulf of Mexico.

All this, plus golf, tennis, 15 swimming pools and an unusual variety of luxurious accommodations.

South Seas Plantation is at the tip of historic Captiva Island, only 30 miles from Fort Myers. Easily accessible via several major airlines.

For more information, call toll free: 800-237-6000. (In Florida, 813-472-5111.) Or write for our brochure: South Seas Plantation, Resort & Yacht Harbour, Captiva Island, Fla. 33924.

SOUTH SEAS PLANTATION
The way Florida was meant to be.

49.	Birmingham	1,292.8	10,244	17,602	85
50.	Flint-Saginaw-Bay City, MI	1,277.1	12,802	22,144	107
	50-market total	**146,062.8**	**$11,379**	**$21,643**	**105**
	U.S. total	**221,582.4**	**$11,342**	**$20,685**	**100**

Notes: S&MM's TV Markets are based on American Research Bureau's (Arbitron) Area of Dominant Influence. **EBI Quality Index** is calculated by dividing the all-U.S. average Effective Buying Income (EBI) per Household, $20,685, into the TV market's comparative figure. The EBI average applies to all households in the markets, not just those with a TV set.

Source: *Sales & Marketing Management's 1980 Survey of Buying Power—Part II.*

© Sales & Marketing Management.

will increase Houston's allocation by 23% because its sales share is that much greater than its population share. Similarly, he boosts Cleveland's budget 8% and St. Louis's 5%. Conversely, he cuts back Minneapolis-St. Paul's budget 13% and Pittsburgh's 6%.

Because studies by A.C. Nielsen and Arbitron show that blacks spend proportionately more time in front of the TV set than the average viewer, the *Survey* includes details on this important population segment. An outstanding trait of the black population is its high degree of geographic concentration, meaning that fewer markets can be used to reach a larger proportion of the targeted audience. The 10 TV markets with the largest number of blacks, as listed below, contain 40% of that minority group but only 29% of the total population:

	% of Total Pop.	% of Black Pop.
New York	8.2361%	10.7865%
Chicago	3.7625	5.6064
Philadelphia	3.1072	4.2092
Los Angeles	4.9709	3.8344
Washington, DC	1.8020	3.5583
Detroit	2.1604	2.9168
Houston	1.4680	2.5308
Memphis	0.7664	2.3419
Atlanta	1.2731	2.2606
Baltimore	1.0594	2.1805

The data also enable the marketer to compute the share of a TV market's population that is black, a factor which may influence the content of his advertising message. Among the markets shown here, blacks comprise more than a third of Memphis's population (36%) and more than a fifth of Baltimore's (24%) and Washington's (23%).

These are but a few of the ways that the *Survey of Buying Power—Part II* can be used to sharpen the marketer's analysis of local markets and improve his selection of sales targets. Ingenuity, and a determination to make informed decisions based upon factual variables, will suggest a host of others. S&MM

Managing costs for more productive selling

So relentless is the upward spiral of selling costs (see S&MM Barometer, Oct.6), that the worst fears of sales and marketing executives are being realized. Thus, managing sales costs has emerged as a critical concern for marketers, and it's likely to remain so for most of the 1980s.

Is management making the best use of the direct sales force? Should the sales force be disbanded or reserved for calling on major accounts? How much responsibility can be assumed by independent reps, distributors, or telephone salespeople? Such questions are at the heart of the cost-control problem, and they will be explored in detail in a 32-page Special Report in the Dec. 8 issue of S&MM.

Computers to the rescue

This exclusive report will include case histories on what alert marketers are doing right now to stem the tide of rising costs. Companies that once prided themselves on selling only through their own field salespeople already are seeking alternatives. In some instances they're bringing their best people into the home office to do business over the phone. Greater use is being made of direct mail to back up the sales effort.

The computer plays an important role, too, making it possible to identify cost problems and analyze them. What's more, now that many district and regional sales offices have their own computers tied directly to headquarters, field salespeople have access to a wealth of information that enables them to be more productive.

The computer is also helpful to a new breed of executive placed strategically in many corporate hierarchies. He's called the marketing controller, and he recognizes marketers for one thing they are: cost-producers. Look out for that one.

Next to the Ocean, we're the main attraction

Next to our famous white beaches and blue Atlantic Ocean, we're the main attraction on the Ocean in a modern resort town located just a couple of hours from Washington, Baltimore and Philadelphia.

Our 21-story hotel includes 5 oceanview executive suites and 12 meeting suites, all with total convention conveniences. You'll find 3 major meeting rooms plus multiple break-out suites. Our hotel on the Ocean will accommodate groups from 7 to 700.

When you're not meeting, you can explore our spectacular enclosed Plaza. You'll find a heated swimming pool, game room, health club, saunas, whirlpool, skating rink and 3 lighted tennis courts. There's nearby sailing, boating and golf.

Try dining with an ocean view, dancing in the disco or sipping a drink in one of our two bars.

Call us toll free or mail the coupon and we'll invite you to see the main attraction in Ocean City, Maryland. In Md. 800-492-1874. DC, DE, PA, VA, NJ, WV: 800-638-4580.

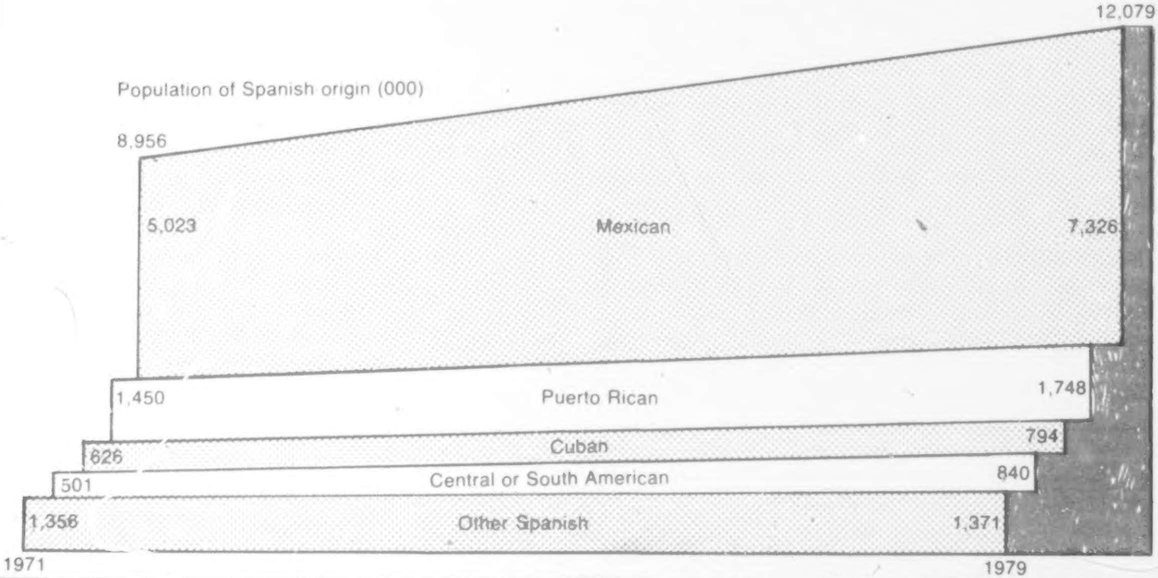
S&MM MARKETGRAPH

Latinos: A market that grows to a lively salsa beat

While the ranks of illegal aliens make it hard to be precise about the Latino market, the rapid growth in the number of Spanish-origin persons counted each year in the Census Bureau's sample survey underscores their increasing significance to marketers. Not only is the market growing five times faster than the all-U.S. rate, but a noticeable shift from blue-to white-collar jobs is enhancing its buying power.

A sizzling 35% growth in eight years—five times faster than the U.S. rate



Distinctive income pattern by market segment

	Total	Mexican	Puerto Rican	Cuban	Other Spanish[1]
No. of Families (000)	2,741	1,620	434	208	479

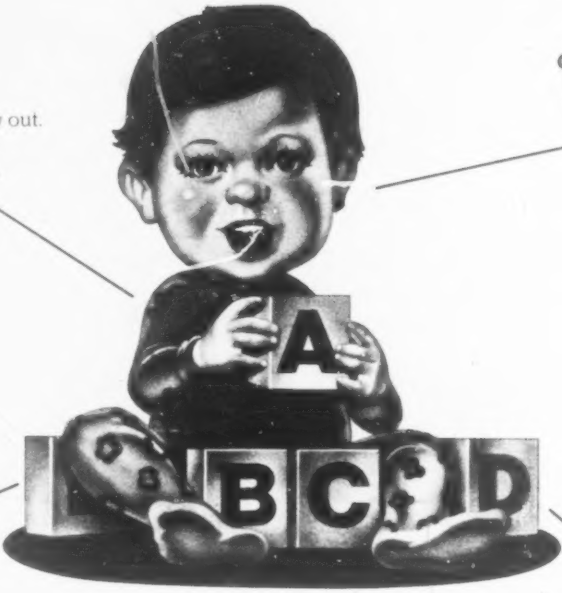
Grab Spanish from the start.



A is for amusement.
Hispanic kids love a great day out.

C is for clothes and cosmetics.
Hispanic mothers take great
pride in their babies' look.

B is for baby foods.
And for that matter,
Hispanic babies
get only the best.

D is for demographic explosion.
There are nearly twice as many
Hispanic babies than Anglo babies
born every year in
the Los Angeles area.

It's really so easy when you grab things from the start. The rest simply follows. Once a consumer, always a consumer. And there are 650,000 Hispanic children in the Los Angeles area. Their parents read La Opinión. It's their daily newspaper. In it they find out what's best for their kids. So if you want to grab Spanish, phone us collect at (213) 748-1191. If you grab it from the beginning, you might grab it for good.

LA OPINION

Since 1926 the only Spanish language daily in Los Angeles.

CALL DELTA FOR DOOR TO DOOR AIR FREIGHT TO 10,000 COMMUNITIES ACROSS THE U.S.A.

See that Delta map below? You can ship just about anything, big or small, between any Delta cities shown. That covers over 10,000 communities in the USA. You can ship door to door. Or airport to airport. And because Delta has 1500 take-offs daily, Delta can frequently give your shipment same-day delivery.

Delta Air Lines gives you a choice of five different air cargo services: 3D™ Air Freight (Delta Density Discount™), Delta Air Freight, Delta Air Express, small packages services DASH (Delta Airlines Special Handling) and Delta Air Parcel Service. So there's bound to be a Delta air cargo service to fit your needs. And you'll find our rates compare favorably. For details, call your local Delta air cargo office.

Merchandise Line Sales data pertain to the total sales of a product category by the various retail-store types handling that category in the market. That is, if the dollar sales of "groceries and other foods" in food stores, restaurants, department-store lunch counters, snack bars, vending machines, etc., are aggregated, the result would be the merchandise line sales for that category. Hence, merchandise line sales should not be confused with retail store sales, which pertain to the business volume of a type of retail outlet, such as a food store. A food store, of course, sells many more types of merchandise than just food products. Updated from the 1972 Census of Retail Trade (because the Census Bureau had not released data from the 1977 Census at the time S&MM's estimates were prepared) the merchandise line sales data shown in this section refer to seven broad product groups, such as groceries and other food products, footwear, and drugs and other health aids. Merchandise line totals give a more realistic estimate of a particular product's market potential than is provided by the store-type sales associated with the product.

1 Groceries and other foods includes meat, fish, and poultry; produce; frozen foods; dairy products; bakery products, except frozen; and all other foods.
(Note: Meals, snacks, alcoholic beverages, packaged alcoholic beverages, and tobacco products not included.)

2 To enhance the usefulness of the merchandise line totals, the *Survey of Buying Power* shows for each product category the dollar sales accounted for by the dominant store type associated with the product classification. That makes the data helpful in analyzing distribution channels in the market. The dominant store types, and their related merchandise line category, shown in the tables are: food stores for groceries and other foods; drugstores for drugs and other health aids; department stores for women's and girl's clothing; apparel stores for men's and boys' clothing; apparel stores for footwear; furniture/home furnishings/appliance stores for major household appliances; and furniture/home furnishings/appliance stores for furniture and sleep equipment.

3 Drugs and other health aids includes prescriptions; nonprescription medicines; and other health aids.

4 Women's and girls' clothing includes infants' and toddlers' apparel and accessories; young girls' and subteen clothing and accessories; women's, misses', juniors' furs and fur garments; women's, misses', juniors' dresses; women's, misses', juniors' coats, suits, jackets, and rainwear; women's, misses', juniors' sportswear; women's hosiery; women's bras, girdles, and daytime lingerie; women's sleepwear and robes; women's handbags; women's hats, hairpieces, and trimmings; women's gloves; and all other women's apparel and accessories.

5 Men's and boys' clothing includes boys', young men's, and "student" clothing and accessories; men's overcoats, topcoats, raincoats, suits, and formal wear; men's sport and casual outerwear; men's uniform and work clothing; men's sport and dress shirts; men's sweaters, hosiery, pajamas, robes, and underwear; men's sport and playwear; and other men's apparel and furnishings.

6 Footwear includes men's and boys' footwear; women's and girls' footwear; and children's footwear.
(Note: Infants' and toddlers' footwear not included.)

7 Major household appliances includes such items as vacuum cleaners, sewing machines, refrigerators, freezers, dehumidifiers, air conditioners, dishwashers, clothes washers and dryers, stoves and ovens, trash compactors, and disposal units.

8 Furniture and sleep equipment includes living room, dining room, and bedroom furniture; sleep furniture and equipment; and all other furniture including outdoor and office furniture.

A marketing concept whose time has come...

Marketing Communications

And a course from American Management Associations to tell you all about it.

Find out why more and more forward-looking companies are making a communications plan part and parcel of their **total marketing picture.** They've discovered – and you can, too – how marketing communications can tie together every aspect of the selling job more smoothly.

It all happens at AMA's 3-day course, MARKETING COMMUNICATIONS.

Here, you'll learn **practical strategies** for making the most of your communications mix, medium by medium. Everything from PR releases . . . to consumer ads . . . to point of sales . . . to salesmen's presentations.

Maybe you should be looking into this **innovative approach** to managing and measuring your selling efforts. Learn the whole story from the people who've made marketing communications work in their own organizations – at AMA's MARKETING COMMUNICATIONS.

AMA – A marketing executive's number one training choice.

Or – perhaps you want to zero in on a particular medium in greater depth. AMA has specific courses to meet your needs.

In fact, we have nearly 40 different sales and marketing courses. While at first glance, this may seem overwhelming, it all makes sense when you realize that each and every AMA course is designed with one goal in mind: to help you gain marketing success!

For instance, if you're interested in the advertising end...

Our course, HOW TO MANAGE YOUR ADVERTISING, explores ways to work along with top management and ad agencies to create profit-generating advertising programs for your company.

In these days of tough competition and tight dollars...

Every marketer is interested in holding on to customers. IMPROVING CUSTOMER SERVICE is a nuts and bolts course on how to do just that – and maybe even increase your market share to boot.

AMA offers two courses for Product/Brand Managers...

THE INDUSTRIAL PRODUCT MANAGEMENT COURSE and the newly revised CONSUMER MARKET AND PRODUCT MANAGEMENT COURSE. Both cover every aspect of your specific job, including how to launch more winning new products in your particular marketplace.

If part of your marketing responsibilities include PR...

AMA's PUBLIC RELATIONS MANAGEMENT provides you with a basic set of PR marketing tools along with instructions on how to use them for greater market impact.

But that's not all...

Learn the secrets of generating more leads for your sales force at NEW MARKETS FOR INDUSTRIAL PRODUCTS THROUGH DIRECT MAIL. Or explore one of the fastest growing selling tools available at TELEPHONE MARKETING: HOW TO CASH IN ON TODAY'S MOST EFFECTIVE MEDIUM.

Tap into AMA's network of sales and marketing courses...

What it boils down to is this: whether you're a sales rep, product manager or vice president of marketing, AMA probably has a course to meet your needs. You see, we've had over fifty years experience in reaching the minds of sales and marketing executives. And AMA courses are a surprisingly cost-effective way to spend your training dollars.

Our practical know-how and full facilities in 8 major cities are at your disposal. We urge you to take advantage of them soon.

Simply complete the coupon below and we will rush further information on AMA courses to you.

	1		2	3	4	5	6	7		8	9	10		11	

1 Updated from the 1970 Census of Population and Housing, and incorporating the annual tabulations of the Federal-State Cooperative Program for Population Estimates, **Total Population** is a head-count estimate of all **persons** living in the metropolitan market at the end of the year. It includes persons living in colleges and hospitals, and armed forces personnel (and their dependents) permanently assigned to the area, but excludes tourists and transients. The **projected 1984 population** is based upon expected trends in births, deaths, outmigration, and inmigration. An explanation of the methodology behind S&MM's population projections will be found on page 6.

2 Percent change between 12/31/79 and 12/31/84, with 1979 as the base year. A minus sign indicates a decline.

3 Households are units made up of families or unrelated individuals occupying a house, apartment or other group of rooms, or a room regarded as a housing unit under the rules of the 1970 Census of Population and Housing. The members of a household need not be related, and a single person living alone in a housing unit is also counted as a household. The projection is based upon population trends that will affect household size.

4 Percent change between 12/31/79 and 12/31/84, with 1979 as the base year. A minus sign indicates a decline.

5 Effective Buying Income (EBI), a classification developed exclusively by Sales & Marketing Management, is personal income less personal tax and nontax payments. Personal income is the aggregate of wages and salaries, other labor income (such as employer contributions to private pension funds), proprietors' income, rental income (which includes imputed rental income of owner-occupants of nonfarm dwellings), dividends paid by corporations, personal interest income from all sources, and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, state, and local), nontax payments (such as fines, fees, penalties), and personal contributions for social insurance. The resultant figure is commonly known as "disposable personal income." Compensation paid to military, diplomatic, and business personnel stationed overseas is deducted from this total to arrive at Effective Buying Income. EBI for 1984 is stated in current dollars. An explanation of the methodology behind S&MM's EBI projection will be found on page 6.

Effective Buying Income is a bulk measurement of market potential. It indicates the general ability to buy and is essential in comparing, selecting, and grouping markets on that basis. But for products that appeal to specific income classes, the percent of households by Effective Buying income groups, as reported in the July 28th *Survey of Buying Power*, should be considered.

Effective Buying Income for 1984 is in current dollars.

6 Percent change between 1979 and 1984, with 1979 as the base year, of a market's total EBI. A minus sign indicates a decline in EBI.

7 Average Household Effective Buying Income (EBI) is calculated by dividing the number of households into total EBI. Often used as an indicator of market quality, but can be misleading where there is a disproportionate share of institutional population (for example, students or armed forces) in quarters not considered households. Because their income is included in the total EBI, an average EBI per household could be deceptively higher than the average of the actual household population in the area.

8 Total retail sales are net sales (minus refunds and allowances for returns) of establishments engaged primarily in retail trade. Retail sales by such nonretailers as wholesalers and service establishments are not counted. Although retail sales are often used to gauge the purchasing power of the residents in a market, they are only an approximation because the market's volume may be affected by the movement of shoppers to and from adjacent areas as well as by the purchases by nonhousehold units, such as businesses, and by inhabitants of group quarters. Retail sales for 1984 are stated in current dollars. An explanation of the methodology behind S&MM's retail sales projections will be found on page 6.

9 Percent change between 1979 and 1984, with 1979 as the base year, of a market's total retail sales. A minus sign indicates a decline in retail sales.

10 Retail Sales Per Household is a mathematical average calculated by dividing the market's total households into total retail sales. However, it should be used with caution because retail sales can include purchases by nonhousehold units within the market (such as businesses and residents of group quarters) as well as by households not domiciled within the market.

11 Buying Power Index (BPI) is a weighted index that converts three basic elements—population, EBI, and retail sales—into a measurement of a market's ability to buy, and expresses it as a percentage of the U.S. potential. It is calculated by giving a weight of 5 to the market's share of total U.S. EBI, 3 to its share of total U.S. retail sales, and 2 to its share of total U.S. population. The total of those weighted percents is then divided by 10 to arrive at the BPI. However, depending upon what your research has revealed about buyers of your products, you can construct your own customized BPI by using any of the factors contained in the tables and assigning to them what you think are relevant weights.

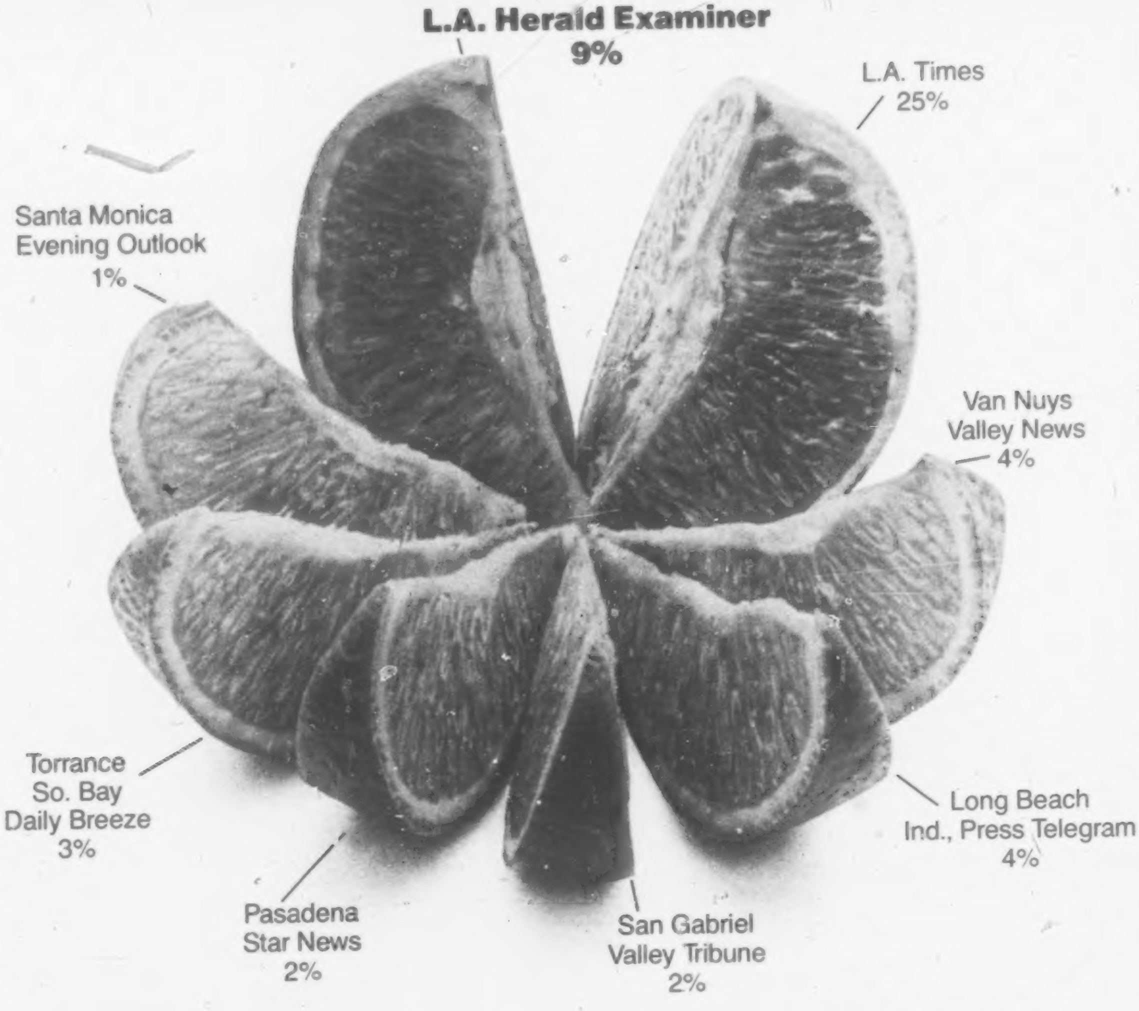
FOR A MAJOR SLICE OF LOS ANGELES COUNTY, YOU NEED THE HERALD EXAMINER



If you're planning a 50-60% household coverage goal in L.A. County, you can't afford to leave out the Herald Examiner.

Every day, it reaches nearly 700,000 people. They help make up a ripe, 30-billion-dollar-a-year market. The second largest retail market in the nation.

To reach your goal quickly and effectively, include the Herald Examiner. It's a faster way to enjoy the fruits of your labor.

THE LOS ANGELES
HERALD EXAMINER

Represented by Hearst Advertising Service

Washington's Amazing Market:

47% of Washington's households earn over $25,000.

Washington's Amazing Post:

Nobody reaches the adults in those households like The Post, with an amazing 81% net daily and Sunday coverage.

Sources: Sales and Marketing Management, "Survey of Buying Power" 1980.
Washington Today/The Scarborough Report 1980.

The Washington Post

Nothing even comes close.

For more amazing information, call
Jack Kerrigan at 202 334-7750.

A

Hot 'lanta:

Hot prospect for heavy sales.

When it comes to buying power, the Metro Atlanta market is red hot. Compare Atlanta's position as the nation's 19th market in population to its sales-per-household rankings among the top 20 markets. This trend-setter for the South rises to 5th in total retail sales per household, 1st in eating and drinking place sales, 3rd in general merchandise store sales and 3rd in gasoline station sales. And a single newspaper buy reaches these active spenders with 51% daily penetration, 67% on Sunday and 80% over 7 days. The Atlanta Journal and The Atlanta Constitution. When you want to reach the South's buying power, reach out with our selling power.

The Atlanta Journal
THE ATLANTA CONSTITUTION
Reach out for the South

14 Strategies for new District Managers who know where they're going in sales and want to get there *ahead* of time.

Now there's a 2-day course that puts your management skills on target. To sell products and services for you as fast as rifle fire.

It's ***Fundamentals of Sales Management for the Newly Appointed District Manager.*** And it offers 14 "how to" strategies the most successful District Managers use:

1. **How to recruit, interview, hire and compensate the best salespeople**—to build a team that's as good in winning sales as you are.
2. **How to identify the full potential for sales within your district**—and uncover "hidden" markets that amateur managers overlook.
3. **How to set realistic standards of performance**—then follow through with incentives and other techniques that get fast results from slow-starters.
4. **How to set up a training program** that increases team commitment to *your* overall goals and objectives.
5. **How to use the VIP (volume, income, potential) Principle** to establish priority customers and potential customers.
6. **How to eliminate unnecessary paperwork**—to give your team more time for selling without ignoring essential records and reports.
7. **How to handle one-on-one evaluations of your salespeople**—and build on their strengths to improve performance consistently.
8. **How to take corrective action** when an individual's selling record is consistently below standard.
9. **How to chart career growth for star performers**—various options you can use.
10. **How to budget the time and money necessary for adding to your team**—techniques for dividing territories and handling compensation questions.
11. **How to keep the selling momentum high among your team**—by recognizing individual problems and identifying likely solutions.
12. **How to anticipate morale problems** and deal with the situation in a constructive, up-front manner.
13. **How to make quick decisions under pressure** and follow through with plans that insure success.
14. **How to use Transactional Analysis techniques to your advantage**—and recognize when they're being used *against* you.

Give yourself every advantage. Phone (212) 986-6833 to register immediately for any of the convenient sessions listed below. Or mail this handy coupon:

Fundamentals of Sales Management for the Newly Appointed District Manager

—a 2-day course offered by Sales & Marketing Management Magazine.

New York, NY 10017

Three-Sigma figures show:

IN 1980, THE YEAR OF THE SELECTIVE CONSUMER, YOU HAVE TO BE SELECTIVE IN CHICAGO.

In the midst of simultaneous inflation and recession, far fewer people have discretionary income. Which means you have to exercise more media-buying discretion.

How? By selecting media with more select audiences. And in Chicago, the Tribune delivers the people of affluence . . . by a landslide majority.

Using the demographic data gathered from the Three-Sigma study, we've developed this comparison chart. We think it proves that the Tribune is the affluent people's choice.

PERCENT COVERAGE IN CHICAGO ADI

Total Adults	Sunday Tribune	Daily Tribune	Sunday Sun-Times	Daily Sun-Times
$35,000 + Household Income	82%	62%	52%	52%
$35,000 + Individual Income	92	69	42	44
$25,000 + Household Income	76	55	46	49
$25,000 + Individual Income	81	62	40	41
College Graduates or More	85	62	48	49

Add to those very impressive figures our total daily circulation of 789,767 (a 20.1% lead over the Sun-Times), our total Sunday circulation of 1,146,474 (a 63.7% lead) and our first six months total ad linage of 58,867,483 (a 115.3% lead), and you've really got just one choice.

Want further clarification of the issues? Call your Tribune representative. With the Tribune as your selection in Chicago, *you're* the winner.

New against their news.

PRISONER: Cell Block H

It could be habit forming! This authentic, dramatic adult series about women behind bars has viewers talking and watching in major cities across the country. And now, as part of the line-up of entertaining shows KMEG-TV broadcasts while other Sioux City stations program local news, we're bringing our viewers this acclaimed new series.

KMEG-TV provides the market with innovative, entertaining programming, plus News and Weather Updates 44 times a week. So, if you thought your choice was limited to news or more news, think again.

KMEG-TV gives you a real alternative to the other stations' news.

Look at WKZO—the big buy for radio in Western Michigan

The WKZO Kalamazoo market is big. According to Circulation Pulse '72, the latest available, it covers 12 counties while the nearest competitor covers only 5. The market is also rich, with more than 8.5 billion in effective buying income and 5.3 billion in retail sales.*

▲ WKZO is Kalamazoo's top-ranked adult station.

WKZO Radio delivers 50% more adults 12+ from 6 a.m. to 7 p.m., Monday through Friday, than the next closest competitor. And it reaches 66% more adult listeners than the station in third place.

During that same time period, a comparison of cume figures shows WKZO delivers 43% more different women 25+ than any other station in the Metro area. And AQH audience figures for TSA men 25-40 during weekday afternoon drive time are 50% greater than the station's closest competitor.**

WKZO is the undisputed adult leader, reaching and selling the mature, affluent radio listener in Kalamazoo.

Your ad goes here.

When you put your ad in the daily News, it ends up in some very nice neighborhoods. To be specific, we reach a rather substantial 13.3% more adults in households with $20,000+ incomes than Detroit's number two paper. We also reach more adults, period. Including more 18 to 24, more 25 to 34, and more 35 to 49 year olds. It's just this simple. If you want to go places, you need The News.

The Detroit News
If you read The News you know

High income. Youth. Total adults.
The Detroit News introduces you to all the right people.

Source: 1978 Scarborough Report, SMSA. Calculations by The Detroit News Research Dept. daily average issue readership.

How To Reach Kansas City's Prime Consumers

Kansas City, the nation's 29th largest metro area, is a key location for marketing your products and services. Ranking number 5 among the nation's top 30 markets, in retail sales per household, Kansas City is a young, affluent and active buying market.

With a median age of 29 and nearly 60% of the population under 35, the majority of Kansas Citians live in households with effective buying incomes above $15,000. In fact, a third maintain yearly incomes over $25,000. Kansas City's Effective Buying Income of $18,500 is more than $2,000 higher than the national average.

The Kansas City Times and Star cover the area's prime consumers like no other medium can. They reach 558,000 daily and 658,000 Sunday readers.

Every day, 70% of Kansas City adults living in households with incomes of $25,000 and above read the Times/Star. On Sunday, that figure rises to 78%. Coverage of the prime 18-49 consumer group is 56% daily and 70% on Sunday. In addition, 74% of area college graduates are daily readers and 84% are Sunday Star readers.

When you need to reach Kansas City, do it through the Times and Star. Kansas City's dominant medium.

DAILY INSERTIONS	REACH	FREQUENCY	% OF MARKET
1	558,000	1.7	61
3	623,000	4.5	68
5	653,000	7.2	71

SUNDAY INSERTIONS	REACH	FREQUENCY	% OF MARKET
1	658,000	1.0	72
2	707,000	1.9	77
3	728,000	2.7	80
4	740,000	3.6	81

***Base: 915,000 Kansas City Adults**

CLASSIFIEDS

WE LEAD...BIG APPLE

The Record leads all other newspapers in Bergen — the only New Jersey county in the New York SMSA. With 503,350 daily or Sunday readers in the New York SMSA, The Record has more than twice the daily readership of the New York Times or New York News in Bergen County, and more than 13 times the readership of the Newark Star-Ledger!

BERGEN IS BETTER
. . . BIG APPLE

In affluent Bergen County, adults own more cars...take more trips...use more credit cards...eat in more fast food restaurants...buy more appliances...drink more wine or soft drinks...than their counterparts in the New York SMSA.

When you advertise in The Record you get more circulation in Bergen County — daily or Sunday — than all the New York City and Newark newspapers combined!

For more information, call (201) 646-4214

In South Carolina, Metro Greenville is the No. 1:

☐ Food Market
☐ Automotive Market
☐ Home Furnishings Market
☐ Building Supply Market
☐ Drugstore Market
☐ Market for Effective Buying Income

☐ Apparel/Accessories Market
☐ White-collar Employment Market
☐ Market for Population
☐ Market for Households
☐ Market for Total Retail Sales
☑ ALL OF THE ABOVE

Metro Greenville is the first and only $2 billion market for total retail sales in South Carolina. Reach it efficiently with

Test Market U.S.A.

"The most well-balanced, diversified market in the U.S."

NASHVILLE

Many national studies have found Nashville to be one of the most representative test markets in the nation.

- Stable economy
- Market protection
- Perfect size
- Good population mix.

Represented by Gannett Newspaper Advertising Sales

Rural Electrification ha[illegible]men. One is six feet, the oth[illegible]10¼" x 11".

Dick Hanrahan and a one-column ad in SRDS. In 1979, that magnetic combination attracted 379 pages of advertising into Rural Electrification, a trade magazine serving the nation's rural electric utilities.

"We have a limited sales staff, limited representation and a limited budget," reports Advertising Manager Sharon Godsey. *"We have to use our resources carefully. Dick knocks on doors, I make phone calls, and we depend on SRDS to reach all those people we miss."*

So do hundreds of other advertisers who've made SRDS the commanding medium in the advertising industry. More advertisers place more ads with more pages in SRDS than in any other medium.

SRDS advertising works. Around the clock, across the calendar, wherever and whenever media decisions are being made. It's your point-of-sale piece, your leave-behind piece, your follow-up.

SRDS. Time after time, it's the deciding factor in media decisions. Have you talked to your SRDS representative lately?

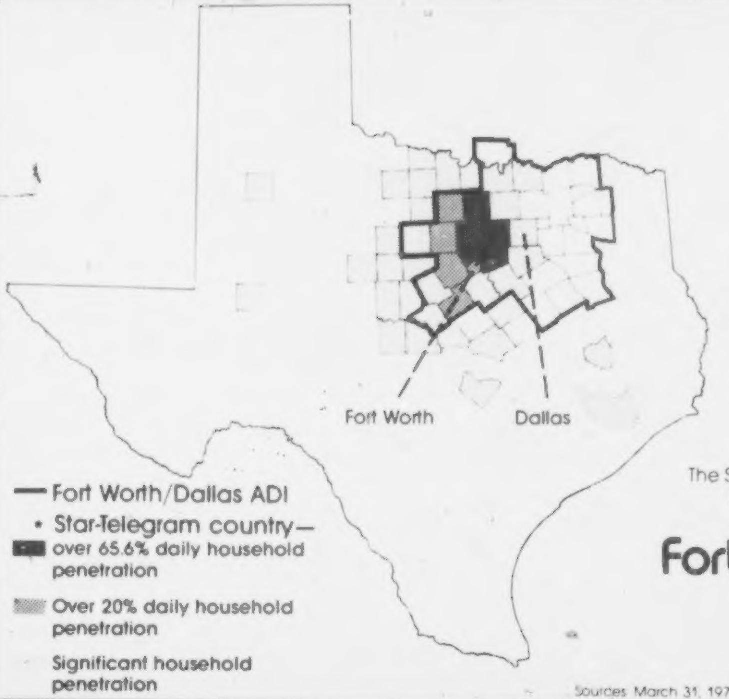
Fort Worth/Dallas



Fort Worth
Dallas
— Fort Worth/Dallas ADI
• Star-Telegram country—
▇ over 65.6% daily household penetration
▨ Over 20% daily household penetration
Significant household penetration

America's 9th Largest Market
Texas' Largest ADI

You can't cover it without
The Fort Worth Star-Telegram*

Delivering the largest combined daily circulation in Texas, the Star-Telegram is the only major metropolitan daily covering the western half of the Fort Worth/Dallas ADI — a $27 Billion effective buying income market.

The Star-Telegram... it is your natural first newspaper buy for the market. (Then pick either Dallas daily to complete the buy.)

Fort Worth Star-Telegram

The First Buy for the Market
Box 1870, Fort Worth, Texas 76101
Represented nationally by Sawyer-Ferguson-Walker

BRYAN OR DALLAS

When you buy Dallas, you'd better know the difference between Tyler, Texas and Tyler Street.

Buying a market you're not familiar with is at best, difficult. And with all the claims made by the competition about being number one everywhere in the state, it's hard not to believe them.

But remember this, when you buy the Morning News, you get almost a third of your reach outside the Dallas County Trade Area. In places like Tyler.

So if you want to reach the people of Dallas – like the ones that live on Tyler Street, you need the Dallas Times Herald. We'll deliver 21,000 more households in Dallas County than the competition. Because in the Times Herald, you get exactly what you pay for. Dallas. And more of it.

So go ahead and tell your media director you bought Tyler, Abilene, Marshall and Bryan. But only the ones with Dallas zip codes.

Dallas Times Herald

The newspaper Dallas can be proud of.

Represented nationally by Branham Newspaper Sales, Inc.

WASHINGTON
MONTANA
SPOKANE
OREGON
IDAHO

Come over the mountains to a brighter market!

When you buy the Pacific Northwest, buy Spokane. It's Washington's bright, rich market to the east of the Cascade Mountains.

Bright Economy
Spokane's diversified economy stands strong. The 1.4 million people in this 35-county area spend $5.3 billion on retail sales.

Bright Test
Sales & Marketing Management includes Spokane in its prestigious list of Select Test Markets. Perfect demographics. Isolated from outside media.

Bright Newspapers
The Spokesman-Review and Spokane Daily Chronicle deliver terrific circulation with a single buy. 88.2% unduplicated. Put them to work for you.

Find your place in the sun! When you buy the Pacific Northwest, include Spokane — the brighter market!

THE SPOKESMAN-REVIEW
Morning and Sunday
Spokane Daily Chronicle
Evening

WHAT SELLS IN THE NORTHWEST?

Fisher Broadcasting knows. For two years, we've been tracking retail buying and selling in the Northwest. Brand names. Share of market. Chief shoppers. Where purchased. Media habits. And more. For all the product categories shown below. And, because the Northwest's leading retailers help us select the categories measured, we know the most about what they want to sell too.

AIRLINES
AUTOMOTIVE
Motor oil
Mufflers*
Batteries
Shocks
Tires
General accessories
Tune up parts
Engine parts
Specialized equipment

CHILDREN'S APPAREL
Infant/toddlers
Boys clothing
Girls clothing
Boys/girls shoes

COSMETICS
Facial or skin treatments
Color/makeup
Perfume/cologne

DOMESTICS AND LINENS
FAST FOOD RESTAURANTS
GROCERY STORES
HOME FURNISHINGS
Furniture
Rugs/carpeting
Floor covering
Draperies/curtains

HOME IMPROVEMENTS
Construction items
Paint
Electrical supplies
Shop tools
Hardware & accessories
Wallpaper*
Insulation/weatherstripping
Plumbing supplies

JEWELRY
Watches
Fine jewelry
Costume/fashion jewelry

LAWN AND GARDEN
Plants
Outdoor power tools
Fertilizer/chemicals

MAJOR HOUSEHOLD APPLIANCES

MATTRESSES/WATERBEDS
MEN'S APPAREL
Suits
Sport coats
Dress slacks
Top coat/rainwear
Shoes
Active sportswear
Dress shirts
Basic furnishings
Casual pants/jeans
Casual shirts/tops
Sweaters

PHOTOGRAPHIC EQUIPMENT
35mm camera
Pocket camera
Photographic accessories
Film
Film processing

SIT DOWN RESTAURANTS*
SMALL ELECTRIC APPLIANCES

SPORTING GOODS
Athletic shoes/footwear*
Ski equipment/clothing*
Hunting/fishing/camping equipment*
Other sporting goods*

ACB ends the Co-op hassle.

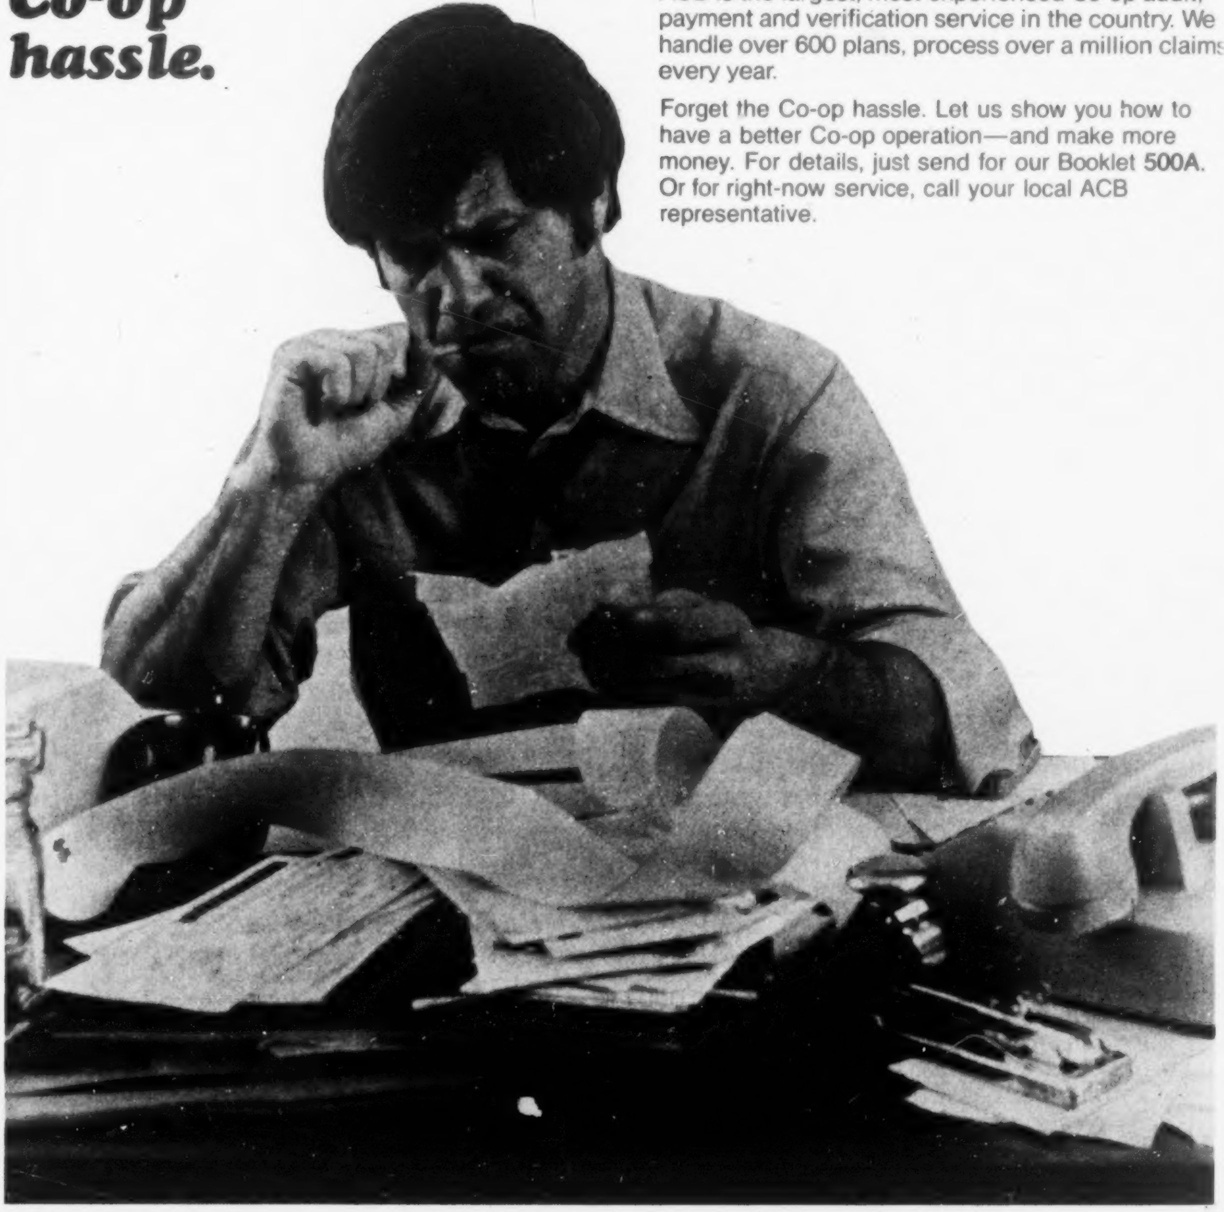
Why should you and your staff put up with all the tedious details of Co-op administration? ACB can handle everything for you—and for less than you can do it on your own.

How? ACB gives you efficient, accurate operation in all areas—planning, checking, rate verification, auditing, paying and reporting. We are involved in all aspects of your Co-op plan to make sure every one of your Co-op dollars is working.

We will even suggest innovative plans that can help boost local retail selling efforts.

ACB is the largest, most experienced Co-op audit, payment and verification service in the country. We handle over 600 plans, process over a million claims every year.

Forget the Co-op hassle. Let us show you how to have a better Co-op operation—and make more money. For details, just send for our Booklet **500A**. Or for right-now service, call your local ACB representative.



You can't beat experience.

1 To qualify as a **newspaper market,** a city must have at least one daily newspaper with a minimum paid circulation of 25,000. If two or more qualifying cities are in the same county, they are combined into a multiple-newspaper market. For a newspaper city to be part of a multiple-newspaper market name, it must be at least one-third as large as the largest city in the market, or part of the metropolitan name. Each county in a newspaper market is one in which the combined qualified newspapers penetrate 20% or more of the households. Three types of counties are included: (1) *home county,* which identifies the location of the newspapers; (2) *dominant counties,* where the newspaper household penetration is 50% or more; and (3) *effective counties,* where coverage ranges from 20% to 49%. This classification provides a guide for focussing on the newspapers' strongest coverage areas, as well as for determining where additional support may be needed to achieve a desired penetration level.

The data source is the Audit Bureau of Circulation's data bank, which includes the audited statements of individual newspapers as of May 1980.

2 Population is the number of people living in the newspaper market as of 12/31/79. It includes people living in colleges and hospitals, and armed forces personnel (and their dependents) permanently assigned to the area, but excludes transients and tourists. **Households** are units made up of the people occupying a single housing unit under 1970 census rules—such as a house, an apartment, a group of rooms, or a single room. The members of a household need not be related, and a single person living alone in a housing unit is also counted as a household.

Caution: Although a county's population total will include all the people in the area, the household total will not do so because it excludes those living in group quarters. Thus if you calculate average Effective Buying Income per household, it must be recognized that this indicator does include the income of people not living in households.

3 Effective Buying Income (EBI), a classification developed exclusively by Sales & Marketing Management, is personal income less personal tax and nontax payments. Personal income is the aggregate of wages and salaries, other labor income (such as employer contributions to private pension funds), proprietors' income, rental income (which includes imputed rental income of owner-occupants of nonfarm dwellings), dividends paid by corporations, personal interest income from all sources, and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, state, and local), nontax payments (such as fines, fees, penalties), and personal contributions for social insurance. The resultant figure is commonly known as "disposable personal income." Compensation paid to military, diplomatic, and business personnel stationed overseas is deducted from this total to arrive at Effective Buying Income.

Effective Buying Income is a bulk measurement of market potential. It indicates the general ability to buy and is essential in comparing, selecting, and grouping markets on that basis. But for products that appeal to specific income classes, the percent of households by Effective Buying Income groups, as reported in the July 28th *Survey of Buying Power,* should be considered.

4 Total retail sales are all net sales (minus refunds, allowances for returns, and taxes) of establishments engaged primarily in retail trade. Retail sales by such nonretailers as wholesalers and service establishments are not counted. Although retail sales are often used to gauge the purchasing power of the residents in a market, they are only an approximation because the market's volume may be affected by the movement of shoppers to and from adjacent areas, as well as purchases by nonhousehold units such as businesses, and the inhabitants of group quarters. They are actually a measure of the drawing power of local retail establishments.

The **Total Retail Sales** figure includes store types not listed in the 1980 *Survey.* Thus the arithmetic difference between Total Retail Sales and the aggregate sales of the major store types detailed in the *Survey* represents sales of "All Other Stores," so to speak.

5 Individual **retail store groups** are considered as channels of distribution in local markets. Thus the retail sales total of the particular store group through which your product moves is useful in analyzing the relative importance of that distribution channel. Bear in mind that the retail sales total of a store type represents the cumulative sales of all products and/or services handled by the store, and not just the type of products associated with the store type. That is, food stores sell more than food products, and drugstores sell more than health and beauty aids.

Separate sales totals are provided for (1) *food stores,* which sell food primarily for home consumption; (2) *general merchandise stores,* which include department, limited-price variety, and general merchandise stores; (3) *furniture, home furnishings,* and *appliance stores (FHA);* (4) *automotive dealers,* which include those selling domestic and imported cars, new and used; stores selling tires, batteries, and accessories; and (5) *drug and proprietary stores.*

6 Individual county newspaper circulation totals are added and expressed as a **percentage of all households covered** in the market. In multiple newspaper markets, circulations of all qualifying papers are combined. In such markets, however, the coverage ratio is only a general guide because it is impossible to measure the degree of circulation duplication that may exist.

NOTE: There are no U.S. totals for S&MM's newspaper markets because the number of duplicate counties—that is, the same county that is part of more than one newspaper market—would make such a total meaningless.

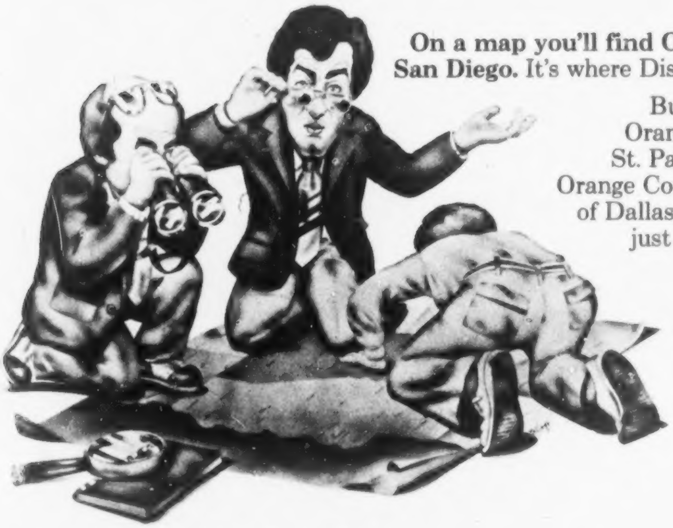
Orange County, California is easy to find.



On a map you'll find Orange County between Los Angeles and San Diego. It's where Disneyland is. And where the Rams just moved to.

But when it comes to total retail sales, you'll find Orange County's $8.36 billion between Minneapolis/St. Paul ($8.45 billion) and Manhattan ($7.99 billion). Orange County's $15 billion of buying power is way north of Dallas' $11.9 billion and Atlanta's $13.2 billion. And just a little south of Pittsburgh's $15.3 billion.

The best way to reach Orange County is to advertise in The Register's Orange County Metro Group. Our more than 240,000 subscribers represent more than half of the county's newspaper readers.

No other paper reaches as many Orange County people. And 73 percent of our subscribers read no other newspaper.

Try looking between Manhattan and Minneapolis/St. Paul.

The Register

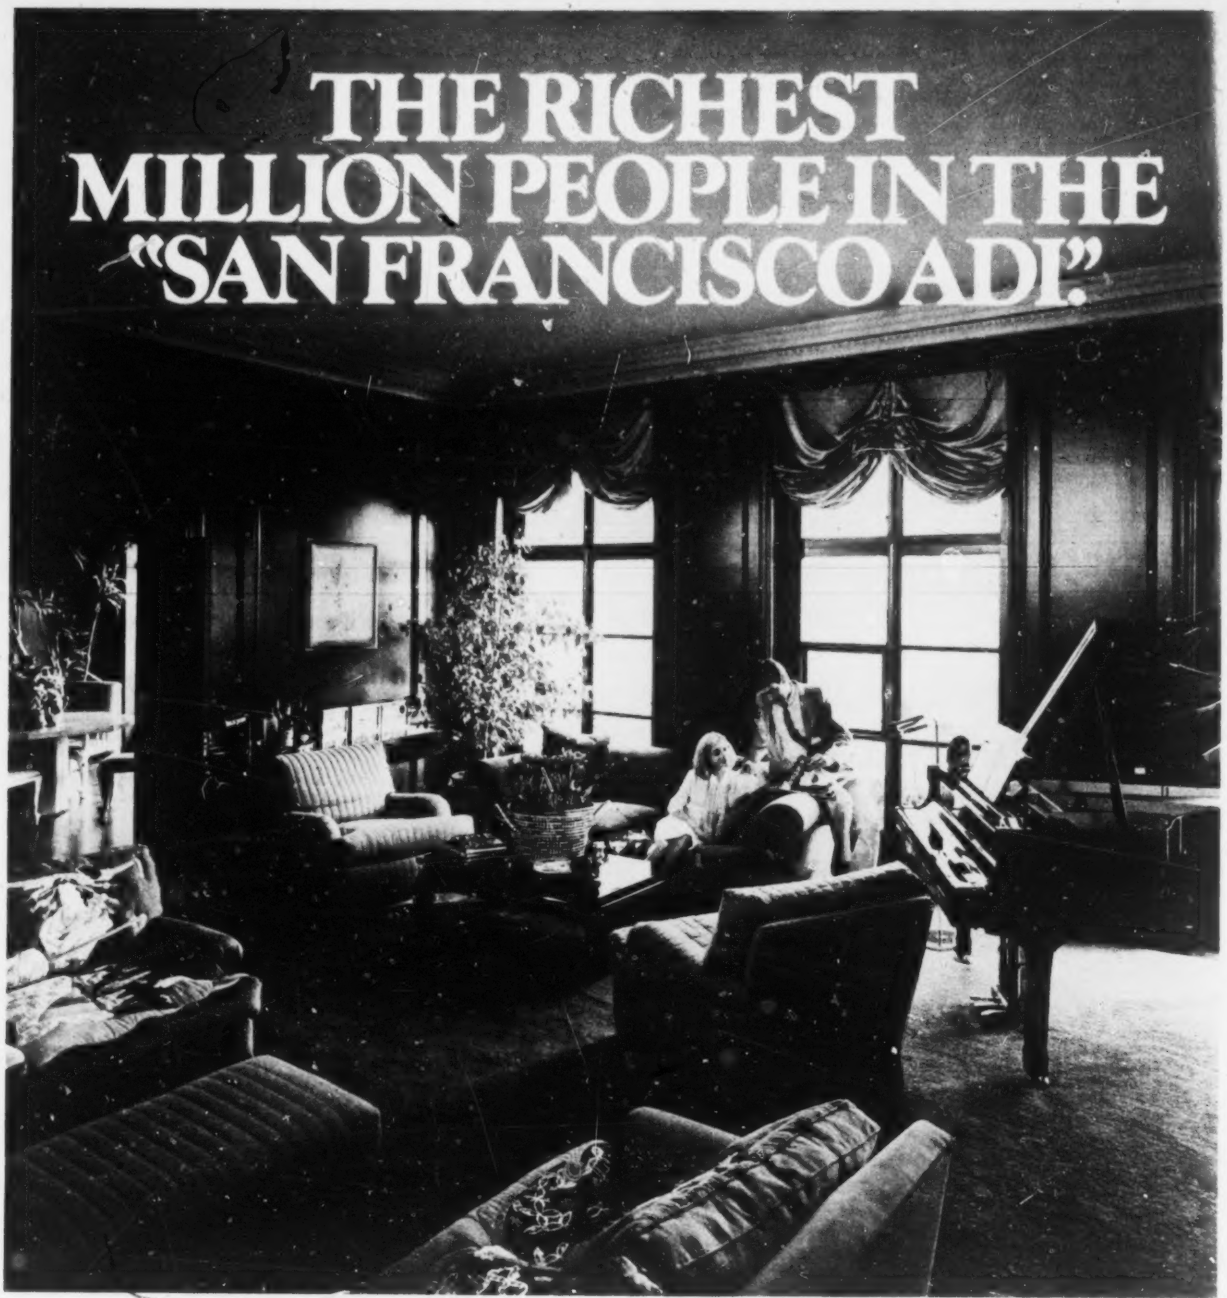
THE RICHEST MILLION PEOPLE IN THE "SAN FRANCISCO ADI."



Santa Clara County's 1.3 million people have an average household EBI of $27,001, the highest in the ADI.*

The Mercury News really reaches The San Jose SMSA (Santa Clara County): 54% daily, 5-issue reach 71%. The San Francisco Chronicle/Examiner barely reaches 11% on a good day. That's why the Mercury News is #1 in display, classified and total linage in the Bay Area.

THE SAN JOSE MERCURY NEWS

Reaching California's richest million people.

Think big.

The Los Angeles Times proves that good things also come in big packages.

In the first six months of 1980, the Sunday Times averaged 451 pages with 775,000 lines of full-run advertising. With this kind of information at their fingertips, it's no wonder the Sunday Times is a big part of the weekend experience for more than 2.8 million readers.

As earners, these readers represent big bucks. They control a hefty $39 billion in effective buying income, or more than 55% of the market's total. And as consumers they account for:

54¢ of every dollar spent on wine and champagne
50¢ of every dollar spent on distilled spirits
39¢ of every dollar spent on beer, malt or ale
51¢ of every dollar spent on men's suits
45¢ of every dollar spent on women's dresses
39¢ of every dollar spent on groceries
49¢ of every dollar spent on vacation and recreation travel
45¢ of every dollar spent on new furniture

Big product. Big readership. Big spenders. Big results.

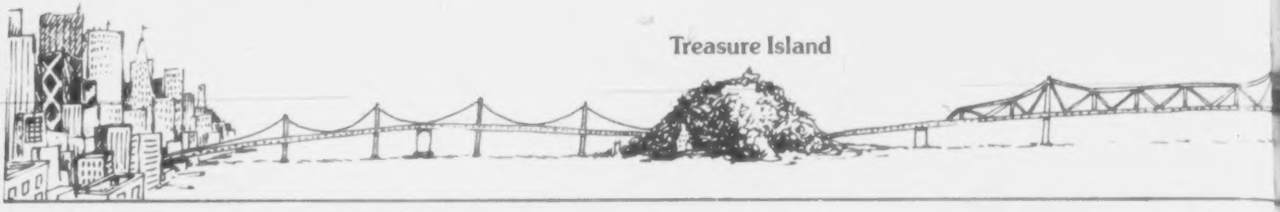
When you want to think big in L.A.

To put the San Francisco Bay on your side,

San Francisco
Pop. 640,000
(City and County)



We've got the numbers.

Circulation for the Oakland Tribune/Eastbay Today has now passed the 200,000 mark. And we're growing more every day.*

When we introduced Eastbay Today last fall, our bright and lively new paper attracted a great deal of attention. Over the months, it's established a strong and loyal following of readers. And the tremendous success continues to build as Eastbay Today reaches more and more readers daily.

In short, we think we've change the reading habits of many San Francisco Bay Area residents. The Oakland Tribune/Eastbay Today has more readers on the East side of the Bay than any other newspaper. In fact, we're read by 58% more East Bay residents than the San Francisco

t 200,000 households on our side.

East Bay
Pop. 1.7 Million
(Contra Costa and Alameda Counties)

hronicle and Examiner combined.* And circulation numbers haven't een our only gains.

National advertisers have in- their linage in the Tribune/ oday as well. General display linage up 27% over last year, transporta- on linage has increased by 33% and tobacco by over 75%.** And total linage run by local retailers has also increased over 1979 totals, even in the face of the well-publicized recession.

Why? Because facts like these have given us a reputation among many as the fastest growing paper in America.

The Oakland Tribune/Eastbay Today—over 200,000 households strong and reaching further every day.

So before you buy the Bay, give some thought to our side of the story.

San Francisco. The City is just the beginning...

of the San Francisco-Oakland Metro Area, the nation's highest ranked major metropolitan market in per capita E.B.I.

In this 5-county area which generates over $13 billion in retail sales, The San Francisco Chronicle and The San Francisco Examiner, with more than 1½ million adult readers, reach 63% of the adult population and 87% of those who earn $25,000 or more annually.

San Francisco newspapers are the only single print media buy that effectively covers this lucrative marketing area.

WHEN YOU WANT YOUR AD TO GO

WOW!

Put it in the Denver Post's Big Impact page. The Denver Post big full size pages work on the pocketbooks of more of Denver's upscale market than Denver's tabloid. An independent study shows 24% of women and 33% of men reading The Post have household incomes of $25,000 or more. This compares to 19% of women and 27% of men reading the other Denver paper. Big Impact pages also account for The Post carrying more national linage in these major categories: 59% food, 52% liquor, 66% travel and transportation and 58% new cars.

THE BIG DIFFERENCE
THE DENVER POST

For more facts on how to make The Post's Big Impact pages work for you in the Denver market, call us direct, collect at (303) 820-1421 or contact Sawyer-Ferguson-Walker.

The Southeast's Fastest Growing Major Metro Market!

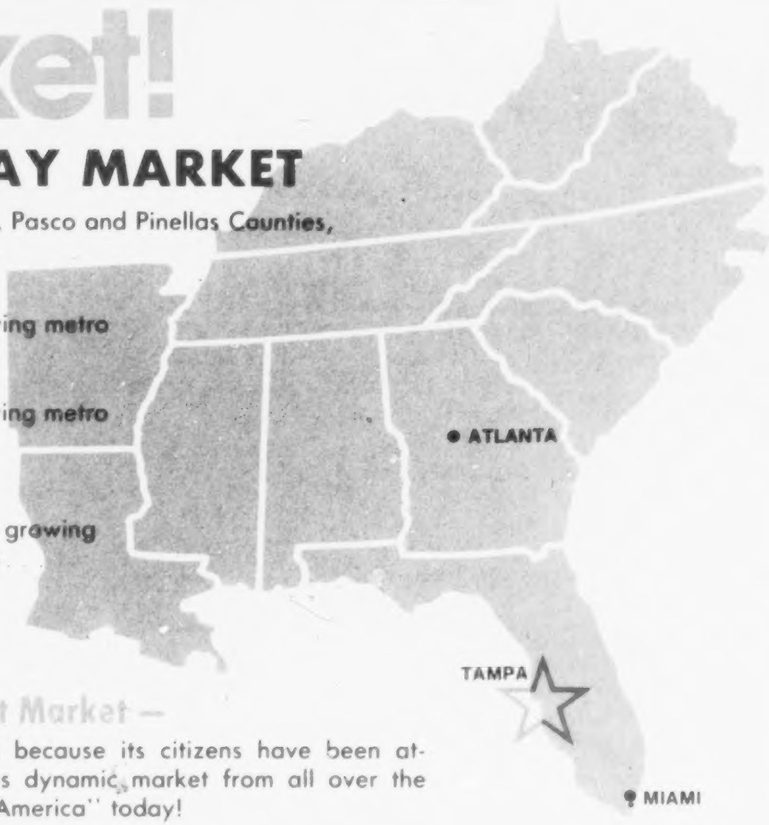
THE TAMPA BAY MARKET

. . . is comprised of Hillsborough, Pasco and Pinellas Counties, the heart of Florida's Gulf Coast.

☐ Tampa Bay is the fastest growing metro market in Florida!

☐ Tampa Bay is the fastest growing metro market in the Southeast . . . ahead of Miami and Atlanta!

☐ Tampa Bay is the third fastest growing major metro market in the U.S behind Phoenix and Houston! Not bad company!



Tampa Bay is a great Test Market —
a real cross section of America because its citizens have been attracted by the magnetism of this dynamic market from all over the U.S. Tampa Bay is "Main Street America" today!

Advertisers reach this "hot" Tampa Bay Market
in The Tampa Tribune and Times at the lowest national line rate of all Florida major metro newspapers.

Wins over Tribune in total adults!

Note the Sun-Times lead over the Tribune in ADI percent coverage and audience measurements. Compare, too, with rating points and coverage of other media.

	Sun-Times		Tribune	
	(%)	(000)	(%)	(000)
Total Adults	35	2,065	34	1,977
Adults 18-49	34	1,322	30	1,189
Working Women	39	634	28	448
Chief Wage Earners	38	1,207	33	1,043
Principal Food Shoppers	39	1,341	32	1,079

Source: Three Sigma, 1980

It's official. The daily Sun-Times reaches more people than the Tribune.

In the Three Sigma Study—the first comprehensive multi-market survey of newspaper readership on an ADI basis—the Sun-Times emerges as the dominant Chicago daily newspaper.

Dominant in reaching *total adults* in the Chicago ADI.

Dominant in reaching more adults 18-64. And in the 18-49 age group—active spenders so important to advertisers—the Sun-Times delivers a remarkable 11% more adults than the Tribune.

Dominant in *working women*. The Sun-Times delivers over 40% more of them than the Tribune. And over 36% more in professional and managerial positions.

Dominant in reaching the real spenders, too. The Sun-Times reaches more *chief wage earners* than the Tribune. And an impressive quarter-million more *principal food shoppers*.

That's dominance. Dominance that makes the Sun-Times the new standard for reaching people in Chicago.

To reach your prime prospects, reach for the Sun-Times. Get the full story from your Sun-Times sales representative today. Call (312) 321-2343 for details.

The Baltimore Sun Means Business

EDITORIAL EXCELLENCE

From legends of H. L. Mencken in The Sun newsroom to the first Pulitzer Prize awarded for feature writing, The Baltimore Sun is recognized world-wide as a leader in the newspaper industry. Our readers respect and trust The Sun as their source of information.

CIRCULATION DOMINANCE

The Baltimore Sun is the most widely read newspaper in Maryland, with 350,848 daily circulation and 374,989 Sunday.

QUALITY READERSHIP

Among daily newspaper readers, The Sun is read in 76% the households with incomes over $20,000; by 76% of the professionals and managers and 77% of those with some college education or more.

ADVERTISER'S CONFIDENCE

The Baltimore Sun runs 76% of all advertising linage placed in the market's major newspapers. The Sunday Sun ranks third in the nation in Total Display Advertising Linage.

The Baltimore Sun can mean business for you. Our Media and Marketing package has profiles of your customers in Baltimore, the nation's 14th largest market. Call our Marketing Manager at (301) 332-6241 or CWO&O for your copy.

The Baltimore Sun is represented nationally by Cresmer, Woodward, O'Mara and Ormsbee.

PEOPLE REALLY READ'EM.

A recent Market Opinion Research survey* came up with some pretty impressive statistics:

For instance: 85% of the suburban newspaper readers in the areas we cover are PANAX readers. Over 1,100,000 readers in all. What's more, 86% of those free spending suburbanities who visited stores or used businesses did so **because** of an ad in a PANAX newspaper.

So no matter what you're selling — PANAX readers are buying.

For more information on how to get the lion's share of over $6.6 billion** in retail sales in our market — or how a unique combination buy with the Observer & Eccentric newspapers can put your message in over 500,000 suburban Detroit homes — call John Banks or John Flack at (313) 274-2332.

HOW TO REACH 149,159 AFFLUENT HOUSEHOLDS* IN THE DETROIT MARKET WITHOUT ADVERTISING IN DETROIT NEWSPAPERS.

It's simple. Place your ads in the Observer and Eccentric newspapers. You see, we reach directly into free-spending suburban Detroit. Places like Birmingham, Bloomfield and Southfield where you can be sure your message is reaching people with big dollars to spend. More people, in fact, in the areas they serve than the Free Press or the News. Call George Hagan **collect** at (313) 591-2300. Or call our National Advertising Manager, Kevin Curley at (313) 644-1100. They'll tell you how you can make the most out of the fifth richest market. And ask about "A Newspaper for All Seasons" report.

THE 12 TWICE WEEKLY

Observer & Eccentric

NEWSPAPERS

We reach more people in our own hometowns combined than the Free Press or the News.

Birmingham/West Bloomfield Eccentric, Canton Observer, Farmington Observer, Garden City Observer, Livonia Observer, Plymouth Observer, Redford Observer, Rochester Eccentric. Southfield Eccentric, Troy Eccentric, and Westland Observer.

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

If you're sick of exorbitant preprint rates, we'll send you this get-well card.

Our new group rate for preprinted inserts is just what the doctor ordered.

Now for as low as only $20.00 per thousand, you can reach as many as 646,000 households in out-state Michigan. And that's good medicine for any distribution list.

But understand. We're not talking about just any old market. We're talking about Booth's Michigan Market. A healthy market where the average annual income per household in our metro counties is $20,165.

Who delivers this market, you ask? The eight daily and Sunday newspapers that form the Booth Newspaper Group. And to make your buy as trouble-free as possible, with each order you make we'll send you one single, uncomplicated invoice.

Just give us a call.

For more details on our new preprinted insert rates, just give us a call. In Michigan, call (313) 569-2474. Nationally, call Newhouse Newspapers: New York (212) 697-8020; Chicago (312) 541-6242; Atlanta (404) 955-2335; Los Angeles (213) 385-9148; San Francisco (415) 362-3367, or Detroit (313) 354-2540.

America's most overlooked market.

People in the Minneapolis-St. Paul market are young,[1] well-heeled,[2] and well-educated.[3]

STAR
the price
Tribune
med se
uskie's '76 job
good but tempo

And they read The Star and the Tribune.

[1] Among major metros [those with at least two million people], Minneapolis-St. Paul has the highest percentage of young adults 18 through 34 years old.*

[2] The $18,822 median income per household in Minneapolis-St. Paul is the seventh largest among the country's 15 major metro areas.*

[3] Minneapolis-St. Paul's percentage of high-school graduates was 70.6% according to the 1970 U.S. Census; and at that time, only two of what were then the 15 largest markets had a higher percentage.

Facts like these are part of the quality of life in Minneapolis-St. Paul: More technical and light manufacturing than heavy industry, with more white-collar and skilled workers, a lot of disposable income, and a low unemployment rate.

And when you advertise in The Minneapolis Star and Minneapolis Tribune, you reach 52% of all adults in the 10-county SMSA daily, 63% on Sunday. Readership jumps to 58% daily, 74% Sunday among the young, well-heeled and well-educated.

For full market and readership data, call our Display Advertising Manager, Jim Anderson [612/372-3907]. Or our representative at Cresmer, Woodward, O'Mara & Ormsbee, Inc.

WHAT CITY RANKS:
First In the U.S. In Foreign Trade Space? Second In the U.S. In Automobile Production? Third In the U.S. As A Rail Center?

If you said Kansas City, you're absolutely right. Kansas City is a major metropolitan market of over a million people. Comprised of five counties in Missouri and two in Kansas, it is situated in the heart of America . . . within 250 miles of the population centers of the United States.

In a 600 mile radius of Kansas City are the key markets of Chicago, Detroit, Indianapolis, Dallas, Detroit, Denver, Minneapolis and St. Paul. Every year, over 5-million passengers travel through Kansas City International airport.

But Kansas City is more than an air transportation center. It is headquarters to 27 of the 207 motor freight common carriers serving the area. It is also served by 12 major railroad trunk lines. The Port of Kansas City has twenty terminal facilities with eight regulated barge lines to ship more than a million tons of freight every year.

Kansas City is a leader in warehousing and distribution because of its centrality and importance as a major transportation hub. From Kansas City, Sony operates its largest U.S. distribution center. JC Penney manages a two million square foot catalog distribution center for 13 states and Toyota runs a midwestern parts and service center.

Kansas City is also home to the nation's largest covered Foreign Trade Zone space, with nearly 3.5 million square feet devoted to international trade.

Representing Kansas City's manufacturers are fifty-three of FORTUNE'S 500 corporations including the headquarters for Hallmark Cards. Among the others are General Motors, Armco Steel, Owens-Corning, Ford, Remington Arms, and King Radio.

The diverse employment base lends remarkable stability to an economy where unemployment has been consistently lower than the national average over the past 5 years.

The Kansas City Times and Star cover market, reaches 558,000 adult readers every day and 658,000 on Sunday. Every day, 70% of area adults, living in households where incomes are $25,000 or higher, read the Times or Star. On Sunday, the number rises to 78%. Daily coverage of the prime 18-49 year old consumer group is 56% and climbs to 70% on Sunday. In addition, 74% of area college graduates are daily readers and 84% read the Sunday Star.

Kansas City is an active, vital major metropolitan area where the median household EBI of $18,500 is $2,000 higher than the national average. When you consider the importance of the Kansas City market, it is clearly one that you need to reach. The best way to do that is through the area's dominant medium.

ith our new look. And our new focus lifestyles.

The News has a place and a day for every lifestyle.

onday, the place is "1st Person." esday, you can get ahead in "Getting head." Wednesday, you'll be at home ith "At Home." Or "Good Living."

Thursday, you can be in "Style." iday, "Sports Extra" is your arena. Or e "Friday" weekend entertainment ction. And every day, you'll want to seen in "Manhattan."

Only the people you want to see you, will see you.

ow you can focus on your audience tter than ever before. Looking for the an drinking premium Scotch? More an likely, he's reading "Sports Extra." nt the woman wearing the latest designer fashions? You'll find her in "Style." The right people will get your message, in the right part of the Daily News.

You can be seen in exactly the places you want.

The Daily News gives you eight regional availabilities. Now it's possible to reach smaller parts of the huge New York market, efficiently. And you can reach Brooklyn, Queens, Long Island, Staten Island, Westchester/Fairfield, New Jersey, North Manhattan/Bronx, and Manhattan, in their own regional sections.

And now The News lets you T.A.P. just your target at a new low price.

When you want to reach the upscale New York audience, the Daily News gives you the place. And the right price. T.A.P., target audience pricing, is the innovative pricing method that charges you for just the people you want to reach.

The Daily News has never made such extensive improvements in its 61-year history. For years, it's been New York's paper. Now it's New York's newest and brightest. Morning and afternoon, the Daily News is the place to be seen.

Syracuse.
If it plays here, it'll play everywhere.

The old stars of vaudeville used to make an observation you'll appreciate:

"If it plays in Syracuse, it'll play everywhere."

That's the show business way of saying the Syracuse market is full of critical, discerning consumers who correlate to the national profile.

In short, it's the perfect test market.

Manageable size. A strong, stable economy. Two strong daily papers, morning and evening, and a powerhouse Sunday edition—a combination that delivers 87% penetration of the SMSA. TV affiliates for all three networks. And 19 AM and FM radio stations in the metro area. There is excellent media balance and isolation with no spill-in and very little waste. From a media buyer's viewpoint, Syracuse is ideal.

In addition, you'll find demographics that are easily projectible to the national average. And a median household income only $874 above the national average.

Ask any of the nation's top food marketers. They've made Syracuse the #13 market in the country for total food lineage.

Or ask any old vaudevillian. We'll do everything we can to help you have a successful test. Just ask. Call The Syracuse Newspapers at 315/473-7765.

The Plain Dealer reaches people who mean business.

Introducing Business/Tuesday. An expanded new business section in The Plain Dealer every Tuesday.

Now you can reach the hard to reach— people who know how to make money and spend it. They might be on the wing to a business appointment on the coast or having a fling at some posh resort. They could be dining at New York's 21 or having a Big Mac on the run. They might be playing backgammon at the Jockey Club, golf at LaCosta or baseball with their kids in their own backyards. They don't care if they drink California wine or Pouilly Fuisse as long as they're drinking with someone they like. They wear Polo by Ralph Lauren and blue jeans by Levi Strauss. They know what they like and if it's expensive, they don't mind paying for it.

These people are your best customers. And you now have a unique opportunity to reach them in Business/Tuesday, the only weekly business publication in Cleveland-Northeast Ohio. Business/Tuesday offers its readers all-inclusive coverage of the world of business and finance, and offers its advertisers a chance to contact readers who spend a lot of time spending money.

Free Contact Kit

It's good business to get all the facts. Contact your local Newhouse Newspapers representative or call (216) 344-4079 for your free Plain Dealer Contact Kit today and get the facts fast. We'll send you complete marketing data, rate cards, the works.

The Plain Dealer is represented nationally by Newhouse Newspapers with offices in principal cities.

The Plain Dealer. Your No.1 Contact with Cleveland-Northeast Ohio.

A Public Service of this magazine & The Advertising Council

AMERICAN RED CROSS
VOLUNTEER

Your Business can be one, too.

Red Cross needs individual volunteers, and donors of blood and money, by the millions.

But we need even more help. We need the solid support of American Business. And we never needed it more.

If your business is already helping, by organizing blood drives, and by supporting payroll deductions—either directly for the Red Cross, or through the local combined fund drive—the whole community owes you thanks. And we thank you, too.

Last year, with help from our friends, we offered major aid at over 30,000 disasters—from typhoons, to local (but just as devastating) house fires.

We were able to help the elderly with practical programs, we helped veterans by the hundreds of thousands, we taught people by the millions to swim or swim better. And that's just the tip of the iceberg.

Think of America without The American Red Cross.

And you'll know why we need your business as a Red Cross Volunteer. In your community. And all across America. Contact your local Red Cross Chapter to see how your company can become a volunteer.

Red Cross is counting on you.

The city that gave you aviation is the 44th ADI and climbing.

Dayton has both feet on the ground with new market selection figures in. We're now the 44th ADI. Our total effective buying income for ADI ranks 38th in the country or $19,157 per household.

Add that to the 69% penetration ... 59% Sunday ... you can get in the single Dayton/Springfield Newspapers buy. Ask for "Dayton in Detail" and/or Belden Readership Survey, free, by writing Ken Tinderholm, Dayton Newspapers, Inc., 4th & Ludlow Sts. Dayton, Ohio 45401. Call (513) 225-2085.

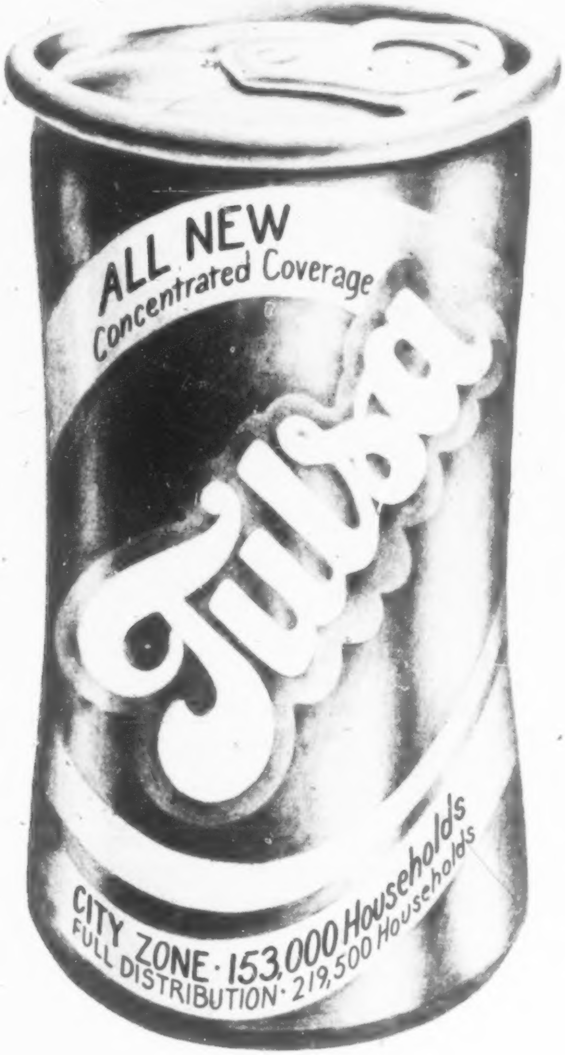
A Refreshing New Way to Reach the Tulsa Market



ALL NEW
Concentrated Coverage
Tulsa
CITY ZONE · 153,000 Households
FULL DISTRIBUTION · 219,500 Households

If you're a pre-print advertiser looking for concentrated coverage of the Tulsa market . . . we now offer a choice of Full Coverage or City Zone distribution.

Choose City Zone distribution if you're looking for strong penetration in Tulsa and its fast-growing suburbs. You'll reach 153,000 households in the Wednesday Tulsa Tribune (evening) and Thursday Tulsa World (morning) combination and over 151,000 households if you distribute your pre-prints in the Sunday Tulsa World.

Full Coverage provides you with the lowest cost-per-thousand and the best bargain when you want to reach all our readers . . . over 500,000 in Oklahoma, Kansas, Missouri and Arkansas.

We know these marketing plans will enable you to reach your Tulsa customers faster and more economically with the strong readership only the Tulsa newspapers can give you. Ask your nearest Branham representative to assist you in reaching the terrific Tulsa market.

TULSA WORLD ★ The Tulsa Tribune

Two independent and separately owned newspapers represented nationally by Branham

The Globe-Times

Median Household EBI

ALLENTOWN.............	$17,763
BETHLEHEM	$20,022
EASTON	$15,045

THE GLOBE-TIMES is the MEAT in the SANDWICH of Penna.'s 3rd largest market!

If you're not using The Globe-Times you're missing thousands of homes in the most lucrative segment of this big metro-market.

ONLY The Globe-Times delivers to 3 out of 4 homes in the BETHLEHEM CITY ZONE.

Nationally Marketed by **LANDON ASSOCIATES, INC.**

You have to be on your toes to reach the right people.

The Dallas Morning News has what it takes to keep you in step with up-scale demographics. We reach the pacesetters. The people who want more out of life and read the paper that can help them get it. That's why we have more readers than the evening paper in the important income brackets — $35,000 and up, $25,000 and up, $20,000 and up, $15,000 and up. More college graduates, more professional people and more who own or manage businesses and more homeowners. The trend-setters and influential community leaders. More of the people advertisers want to reach. We prove it year after year in ad linage, circulation and demographics. We keep the numbers while the competition keeps dragging its feet.

The Dallas Morning News
That extra edge

Here are just some of the users and uses for the information found in the new DATA SERVICE.

1

MARKETING/PRODUCT MANAGEMENT

define market potential
evaluate sales performance
determine distribution pattern
examine weaknesses & strengths in relation to existing market
develop index of product demand
determine product potentials
select markets, strategy, & ad support for new products
create buying power indexes for special products

2

SALES MANAGEMENT

map sales territories
set quotas
set objectives for branches, dealers, distributors, wholesalers & retailers
analyze sales variations
route sales force—rate its efficiency
compare potentials/travel time
spot performance weaknesses
modernize sales organization

3

ADVERTISING/MEDIA

set budgets—allocate advertising dollars—spot media decisions
city, country, metro areas
analyze TV markets (ADI's)
compare media coverage/market size
select test markets
apply advertising pressure where needed
check ad results against potential sales

4

MARKET ANALYSIS

check year-to-year changes
spot high income concentrations
relate household incomes to price tags
trace population shifts—review market changes
choose market by demographics
forecast regional and national totals
differentiate markets by retail sales price
select quality markets

The brand new completely updated and expanded 1980 **Survey of Buying Power DATA SERVICE** will be released in three sections

SECTION I
DEMOGRAPHIC AND ECONOMIC DATA
Issued July 1980
AREAS COVERED: All Countries, Metropolitan Areas, Standard Consolidated Areas, States.

SECTION II
RETAIL SALES DATA
Issued August 1980
AREAS COVERED: All Countries, Metropolitan Areas, Standard Consolidated Areas, States.

SECTION III
PROJECTIONS AND SUMMARIES FOR TV MARKETS
Issued October 1980
Metropolitan and non-Metropolitan Area

S&MM'S FOUR SURVEY ISSUES

Each year Sales & Marketing Management publishes four *Survey* issues, which, taken together, provide a comprehensive and convenient information system for both consumer and industrial marketers. The data contained in the four *Survey* issues facilitate the analysis and selection of local geographic markets as well as target customer markets, the development of appropriate sales strategies for reaching those markets, and the comparison of the costs of selling in the geographical markets.

Survey of Buying Power, published in July, includes the most current estimates of the demographic and socioeconomic factors of regions, states, metropolitan markets, counties, and cities.

Survey of Buying Power—Part II, published in October, rearranges the basic *Survey* data in terms of TV and newspaper markets so that markets can be evaluated in media terms; it also gives a five-year projection of metropolitan markets, as well as current data on merchandise line sales for several product categories.

Survey of Selling Costs, published in February, includes detailed information on the basic selling costs of the leading metropolitan markets in the U.S. and Canada, plus data on such marketing-related expenses as sales training, sales meetings, car rentals, and salespeople's compensation.

Survey of Industrial Purchasing Power, published in April, provides data on total manufacturing activity at the county level, as well as local market information on 457 customer industries that buy goods and services from consumer and industrial products manufacturers.

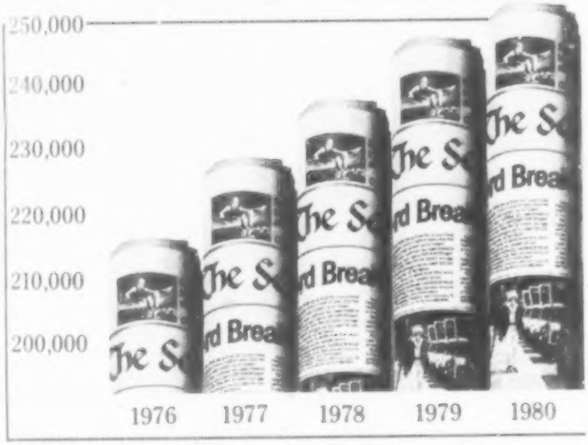
The retailers, who sell your products, offer positive proof that Seattle-Tacoma is a two-paper buy. Here's how they place their own advertising.

No. 1 in the Sea-Tac Market

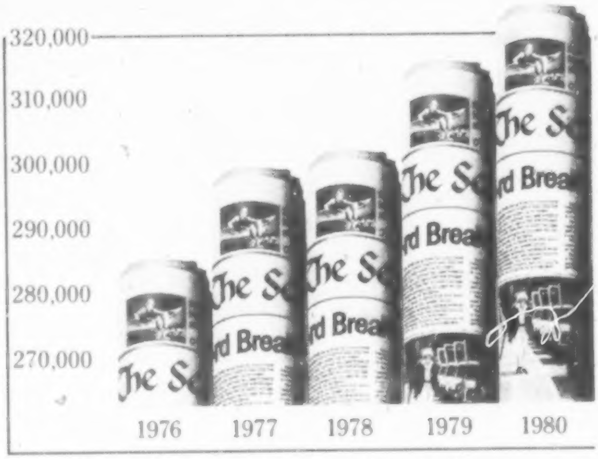
Tacoma News Tribune

1950 South State Street
Tacoma, Washington 98411
Circulation over 110,000 • Represented by Sawyer-Ferguson-Walker

ANNOUNCING TWO RECORD-BREAKING TIMES.



Seattle Times Daily Circulation.



Seattle Times Sunday Circulation.

It's official.

The Seattle Times now has the biggest lead ever over the Seattle Post-Intelligencer: 95,000 daily and 150,000 Sunday in the City and Retail Trading Zones.

Which simply means we can help you reach more people in Seattle than any other newspaper.

More professionals. More college graduates. More households with incomes of $25,000 and up.

And with our new morning edition, we'll help you reach them all day long.

So when you're looking for a more efficient media buy in Seattle, call our National Advertising Department at (206) 464-2441.

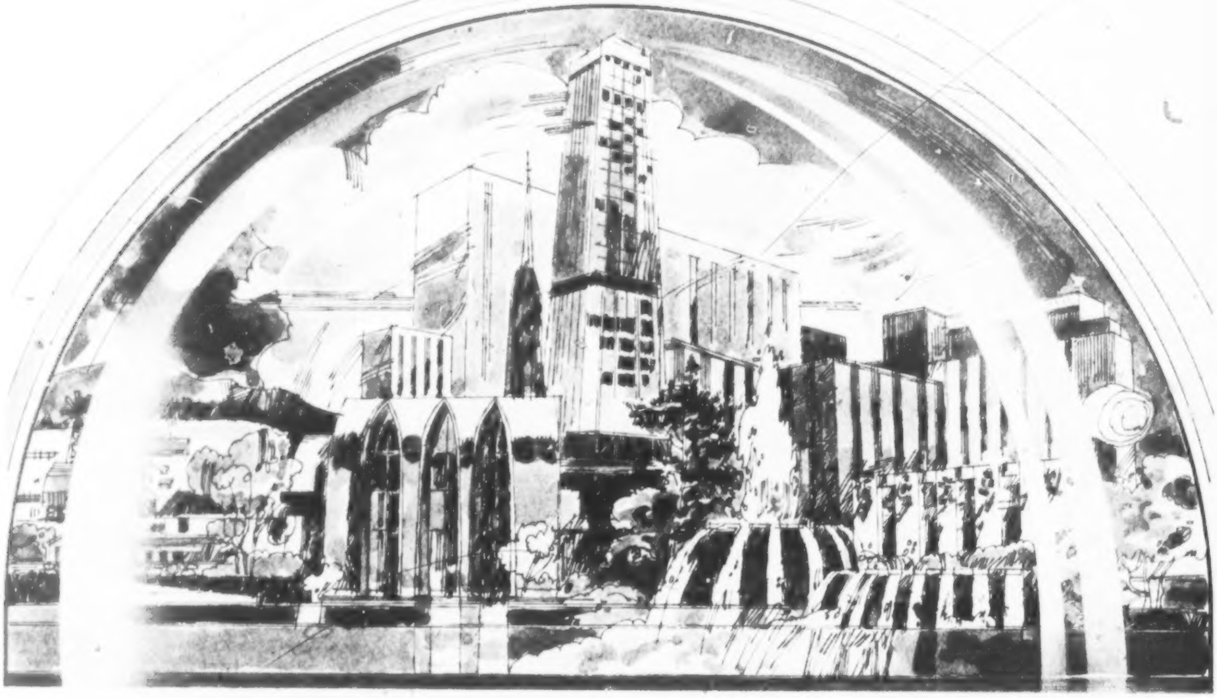
Milwaukee



The all-in-one Test Market

"Maximize experimental effects — and minimize confounding variance."

Those, of course, are the bare bones of any experiment. If you wanted to test the effect of fertilizer on corn yield, chances are you wouldn't put your fertilized field in Ohio and your control field in Nebraska. You'd want both fields on the same farm. And your confounding variance would be nil.

Unfortunately, advertising experiments tend to be a bit more complicated than their agricultural counterparts. It's hard, for example, to hit half the people in a city with one ad, and half with another, and keep the two groups balanced demographically.

Unless you use The Milwaukee Journal.

Target Marketing is The Milwaukee Journal's computerized method that splits our coverage area into 58 separate market cells — DEMOGRAPHICALLY. You tell us the customers you want to reach, by age, income, occupation . . . you select the profile!

And because Milwaukee is large enough to offer a demographically balanced test market and control market, you can execute a tightly controlled experiment — all within one SMSA.

The Milwaukee Journal
Milwaukee Sentinel

A major floor covering manufacturer, for example, used a split-run test of hard-sell vs. soft-sell on two demographically balanced groups.

And a packaged goods manufacturer used a 4-way split-run to see which coupon worked best — 10¢, 15¢, 20¢, or 25¢.

There are many more Target Marketing success stories. If you'd like to hear them, and find out how Milwaukee can work for you, call Wally Just at The Milwaukee Journal, (414) 224-2472.

Guide to using S&MM's SURVEY OF TELEVISION MARKETS

	S&MM ESTIMATES 1979										
	POPULATION—12/31/79			EFFECTIVE BUYING INCOME	RETAIL SALES BY STORE GROUP						
STATE S&MM/ARB TV (ADI) MARKET	Total Pop (Thous.)	Total House-holds (Thous.)	Black Pop (Thous.)	Total EBI ($000)	Total Retail Sales ($000)	Food ($000)	General Merchandise ($000)	Furniture/ Furnish./ Appliance ($000)	Automotive ($000)	Drug ($000)	**Buying Power Index**
1	2			3	4	5					6

1 The *Survey's* **TV markets** are the American Research Bureau's Areas of Dominant Influence (ADI). ARB (better known in the industry as Arbitron) studies each county for its measurable viewing patterns. The hours of viewing accorded each TV station whose signal reaches the county are totalled; then each station's percentage share of total viewing hours is calculated. The market of origin of the TV stations with the largest share of viewing hours becomes the ADI name of that market, and all counties whose largest viewing share is given to stations of that same market of origin are grouped within the ADI. (For its purposes, ARB splits certain counties, treating each portion as if it were a separate county.) Each county (or portion) is allocated exclusively to a single ADI, thus eliminating overlap. All of the U.S. is covered except for Hawaii and part of Alaska.

2 Population is the number of **persons** living in the ADI on 12/31/79. It includes those living in colleges and hospitals, and armed forces personnel (and their dependents) permanently assigned to the area, but excludes tourists and transients. **Households** are units made up of all the people occupying a single housing unit under 1970 census rules—such as a house, an apartment, a group of rooms, or a single room. The members of a household need not be related, and a single person living alone in a housing unit is also counted as a household. A further refinement of total population is the number of **black persons** living in the ADI as of 12/31/79.

Caution: Although a county's population total will include all the people in the area, the household total will not do so because it excludes those living in group quarters. Thus if you calculate average Effective Buying Income per household, it must be recognized that this indicator will include the income of people not living in households.

3 Effective Buying Income (EBI), a classification developed exclusively by Sales & Marketing Management, is personal income less personal tax and nontax payments. Personal income is the aggregate of wages and salaries, other labor income (such as employer contributions to private pension funds), proprietors' income, rental income (which includes imputed rental income of owner-occupants of nonfarm dwellings), dividends paid by corporations, personal interest income from all sources, and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, state, and local), nontax payments (such as fines, fees, penalties), and personal contributions for social insurance. The resultant figure is commonly known as "disposable personal income." Compensation paid to military and diplomatic personnel stationed overseas is deducted from this total to arrive at Effective Buying Income.

Effective Buying Income is a bulk measurement of market potential. It indicates the general ability to buy and is essential in comparing, selecting, and grouping markets on that basis. But for products that appeal to specific income classes, the percent of households by Effective Buying Income groups, as reported in the July 28th *Survey of Buying Power*, should be considered.

4 Total retail sales are net sales (minus refunds, allowances for returns, and taxes) of establishments engaged primarily in retail trade. Retail sales by such nonretailers as wholesalers and service establishments are not counted. Although retail sales are often used to gauge the purchasing power of the residents in a market, they are only an approximation because the market's volume may be affected by the movement of shoppers to and from adjacent areas as well as by purchases by nonhousehold units such as businesses and the inhabitants of group quarters. They are actually a measure of the drawing power of local retail establishments.

The Total Retail Sales figure includes sales of store types not listed in the 1980 *Survey*. Thus the arithmetic difference between Total Retail Sales and the aggregate sales of the major store types detailed in the *Survey* represents sales of "All Other Stores," so to speak.

5 Individual **retail store groups** are considered as channels of distribution in local markets. Thus the retail sales total of the particular store group through which your product moves is useful in analyzing the relative importance of that distribution channel. Bear in mind that the retail sales total of a store type represents the cumulative sales of all products and/or services handled by the store, and not just the type of products associated with the store type. That is, food stores sell more than food products, and drugstores sell more than health and beauty aids.

Separate sales totals are provided for (1) *food stores*, which sell food primarily for home consumption; (2) *general merchandise stores*, which include department, limited-price variety, and general merchandise stores; (3) *furniture, home furnishings*, and *appliance stores (FHA)*; (4) *automotive dealers*, which include those selling domestic and imported cars, new and used; and stores selling tires, batteries, and accessories; and (5) *drugstores*, which include *proprietary stores*.

6 Buying Power Index (BPI) is a weighted index that converts three basic elements—population, Effective Buying Income, and retail sales—into a measurement of a market's ability to buy, and expresses it as a percentage of the U.S. potential. It is calculated by giving a weight of 5 to the market's percent of the U.S. Effective Buying Income, 3 to its percent of U.S. retail sales, and 2 to its percent of U.S. population. The total of those weighted percents is then divided by 10 to arrive at the BPI. However, depending upon what your research has revealed about buyers of your product, you can construct your own customized BPI by using any of the factors contained in the tables and assigning to them what you think are relevant weights.

San Francisco. The City is just the beginning...

of the affluent Northern California market, an area more populous than 42 States in the U.S. and a vital consideration in any marketing strategy.

In this market, one media buy dominates: San Francisco Newspapers, The San Francisco Chronicle and The San Francisco Examiner. It's the buy that outranks the next newspaper by more than 3 to 1, reaching 662,353 homes throughout Northern California.

San Francisco Chronicle
San Francisco Examiner

San Francisco Newspaper Agency Agent for San Francisco Chronicle/San Francisco Examiner

If you're not buying Tallahassee/Thomasville, you're missing a lot of Florida, south Georgia and south Alabama. For 25 years, WCTV has been the number one station in this 48-county market. Delivering 128,700 households, WCTV has a sign-on to sign-off share of 54 percent which makes it the #2 CBS affiliate in the top 150 markets. WCTV also commands two out of three viewing homes during Monday-Friday early fringe.* With a median age of 25 years, the WCTV metro area is an important youth market that you don't want to miss.** When you buy WCTV, you get the whole Tallahassee, south Georgia and south Alabama market.

We Turn Them On When They Turn TV Off!

We reach more than 783,000 adults in the Indianapolis ADI every weekday. And, more than 812,000 adults every Sunday.

Over 5 weekdays we deliver nearly 4 million gross impressions. Four Sundays add up to more than 3 million gross impressions.

Our signal is stronger than that of TV. Your ads won't vanish in 10 to 30 seconds. Your prospects can view your ad for as long as they wish and at their convenience.

Our reception is better than TV, too. Readers tell us they want and read the advertising we carry. Can you imagine viewers welcoming TV commercials?

Look over your TV schedule. Then don't overlook the advantages of newspaper advertising.

Remember — we're turning them on when they turn TV off. To turn them on to your product or service, contact your Star and News representative. Or, phone Alan Judkins at (317) 633-1132.

Sales Builders

ALL NEW 1980 SALES MAPS

for Retail and Industrial Markets

Here's one of the most valuable selling tools you can possess—a quick, practical way to have vital market data always at your fingertips . . .

Sales Builders' All-New 1980 County Outline SALES MAPS for Industrial and Retail Markets

These giant, color-coded Sales Maps are a tremendous aid to managers and salesmen in the field. Available in both Regional and full 50-State formats, they swiftly provide a clear breakdown of retail and industrial market strength for every country and important metro area in the country. They immediately help you:

- **Develop more effective market strategies**
- **Improve time and territory management**
- **Concentrate your selling efforts where the profits are**
- **Spot growth trends and new markets where new selling opportunities are ripe**

Certainly there are other sources for up-to-the-minute market data, but consider these important features of SALES MAPS:

SALES MAPS are Faster, More Convenient than Tabulated Data

With Sales Builders' New 1980 Sales Maps you can quickly target the country or metro area of interest—discover key market facts literally at a glance—Make instant comparisons of market strength and buying power—and swiftly determine areas of maximum sales potential.

SALES MAPS Provide a Far Better "Feel" for Market Relationships

Sales Maps give you an all-important perspective for market shape and relationships (something you can't get with columns of tabulated statistics). These Maps help immeasurably with time and territory management—give you new insight into market range and scope—help you spot growth trends where fresh new selling opportunities are inevitable.

SALES MAPS are both Functional and Attractive

These All-New Sales Maps are not only powerful sales marketing tools for both managers and salesmen, but they make handsome additions to sales offices, board rooms and conference rooms as well. Each set of Regional Maps include nine 11" x 17" maps and the 50-State Wall Maps are a full 24½" x 38". All are color coded with 7 vivid colors. County and metro areas are clearly defined for easy reference.

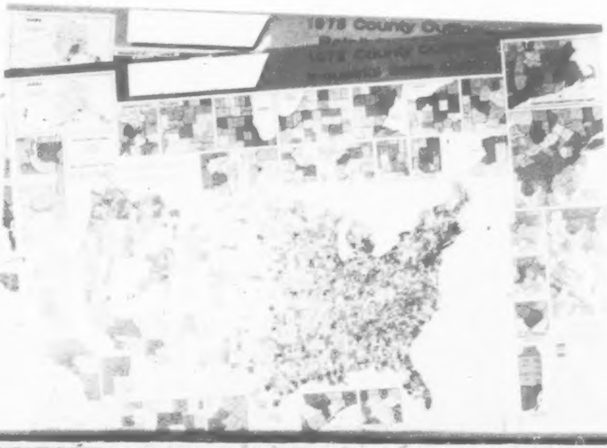
No sales manager or salesman who seriously wants to multiply his effectiveness and boost his success should proceed without a set of these All-New 1980 Sales Maps. They are nothing short of standard equipment for any successful sales operation.

All Sales Builders' Sales Maps are printed on durable, heavy duty stock that stands up to rugged use. Regional maps fold to a convenient 8½" x 11" size and are tabbed for easy reference.

NEW FOR 1980—LAMINATED WALL MAPS SUITABLE FOR USE WITH AN ERASABLE MARKER. CAN BE WIPED CLEAN. SEE ORDER CARD FOR DETAILS. THESE MAPS ARE NOW READY FOR RELEASE. THE PRESS RUN IS LIMITED. TO ASSURE IMMEDIATE DELIVERY FILL IN AND RETURN THE RESERVATION FORM BELOW NOW!

But don't delay—act now while the Reply Card is handy.

GIANT 50 STATE COUNTY OUTLINE WALL MAPS



Industrial and Retail Sales Maps include:

- Key market data on 3,105 counties or county equivalents
- 30 large scale inset maps relating data on 730 leading counties
- 3 inset maps covering the eastern megalopolis
- 6 inset maps covering the mid-U.S. industrial complex

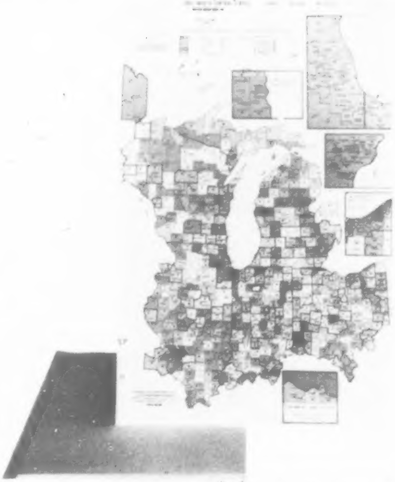
FULL SIZE: 24½" x 38"

Each set includes 9 different 7-color Regional maps. Each map shows the prime sales market, by county, for those states indicated in that Regional market. Plus each map provides the important data listed below.

Set of 9

Regional RETAIL SALES MAPS

- Location of every city with retail sales of $20 million or more
- Differences in county retail sales volume shown in 7 separate color tints
- Median Effective Buying Income (EBI) per household for all counties
- Counties exceeding their state's average for EBI per household



Set of 9

Regional INDUSTRIAL SALES MAPS

- Counties ranked among the first 250 and second 250 of 500 leading U.S. counties with respect to number of large plants (100 or more employees)
- Percentage of industrial shipments accounted for by manufacturing plants with 100 or more employees
- Total dollar volume of industrial shipments for each county shown by 7 separate color tints

- Tabbed for convenient filing and reference.
- All metro and U.S. county areas clearly defined.
- Special blow-up projections of all congested, small county areas, showing all county lines and metro areas.

How To Reach Kansas City's Radio & TV Audience

The best way to reach Kansas City's radio and TV audience is with one easy newspaper buy. That's because the Times and Star reach more people every day than are reached by the total prime time TV audience from 7-10 PM. The Times and Star also reach more Kansas City adults than are reached by all radio stations, even during morning and afternoon drive time.

In fact, according to survey by Belden Associates of Dallas, Texas, the highest rated Kansas City TV station only reaches 15% of the adult population during its best time period. The top rated radio station reaches only 10% during its best time period.

The Kansas City Times and Star cover the area's prime consumers like no other medium can, reaching 558,000 daily and 658,000 Sunday readers.

Every day, 70% of Kansas City adults living in households with yearly incomes of $25,000 and above read the Times / Star. On Sunday, that figure rises to 78%. Coverage of the prime 18-49 consumer group is 56% daily and 70% on Sunday. In addition, 74% of area college graduates are daily readers and 84% are Sunday Star readers. The Times and Star also deliver working women with 60% daily and 71% Sunday readership. During any point in a day, 6 out of 10 TV viewers are also Times/Star readers.

When you need to reach Kansas City, do it through the Times and Star. Kansas City's dominant medium.

WHAT SELLS IN THE NORTHWEST?

Fisher Broadcasting knows. For two years, we've been tracking retail buying and selling in the Northwest. Brand names. Share of market. Chief shoppers. Where purchased. Media habits. And more. For all the product categories shown below. And, because the Northwest's leading retailers help us select the categories measured, we know the most about what they want to sell too.

Section F

Data in this *Survey of Buying Power—Part II* have been organized into six sections. The black index tabs along the right-hand edge of the book provide easy access to each section.

S&MM's Canadian Metropolitan Market Projections to 1984

By THAYER C. TAYLOR
Editorial Director
Survey of Buying Power

No sooner had U.S. marketers breathed a collective sigh of relief over the resolution of one Canadian political crisis than they were confronted with another. In May, the populace of Quebec voted against provincial independence, but almost simultaneously there arose mutterings from the rapidly growing West.

Whereas the issue of Quebec's separatism was largely cultural, however, the new dispute is basically economic. At stake is control of the rich oil and gas deposits in British Columbia, Saskatchewan, and, especially, Alberta. These resources become more valuable each time OPEC nudges world oil prices upward.

Triggering the latest flare-up is *patriation*, a word that marketers will hear more often in the months ahead. To Canadians, it means "bringing home," and in this case it refers to the country's constitution. Since 1867, fundamental law has been based on the British North American Act, which granted self-government to Canada. However, because Ottawa and the ten provinces have never agreed on terms by which the constitution could be amended, it has remained with the British Parliament, which still has authority over some areas of Canadian life.

Prime Minister Pierre Elliott Trudeau, wanting to change all that, has asked the Canadian Parliament, which his Liberal Party dominates, to set in motion a process that would have the British Parliament transfer all powers to Ottawa. The western provinces are opposed to the move, fearing that Ottawa will draw up a constitution that gives it complete control

over development of energy resources.

Under today's precarious balance of power, Ottawa controls oil prices through its tax levies and ability to set interprovincial rates. The provinces control the production of oil. Having campaigned on a pledge to curb gasoline prices at the pump, Trudeau wants to keep prices down, but the western provinces, chafing at the growing spread between domestic and world prices, want to raise prices at the wellhead.

While the energy conflict is the latest outcropping of the East vs. West fissure that has divided Canada since British Columbia talked of joining the U.S. in 1871, the current dispute has a new wrinkle. Because of promising offshore deposits of oil and gas, Nova Scotia and Newfoundland, two of the country's have-not provinces in the East, have thrown in their lot with Alberta.

All this is of more than idle concern to U.S. marketers because it is the energy-rich West that sparked Canadian growth in the 1970s. Of the four major regions, the West was the only

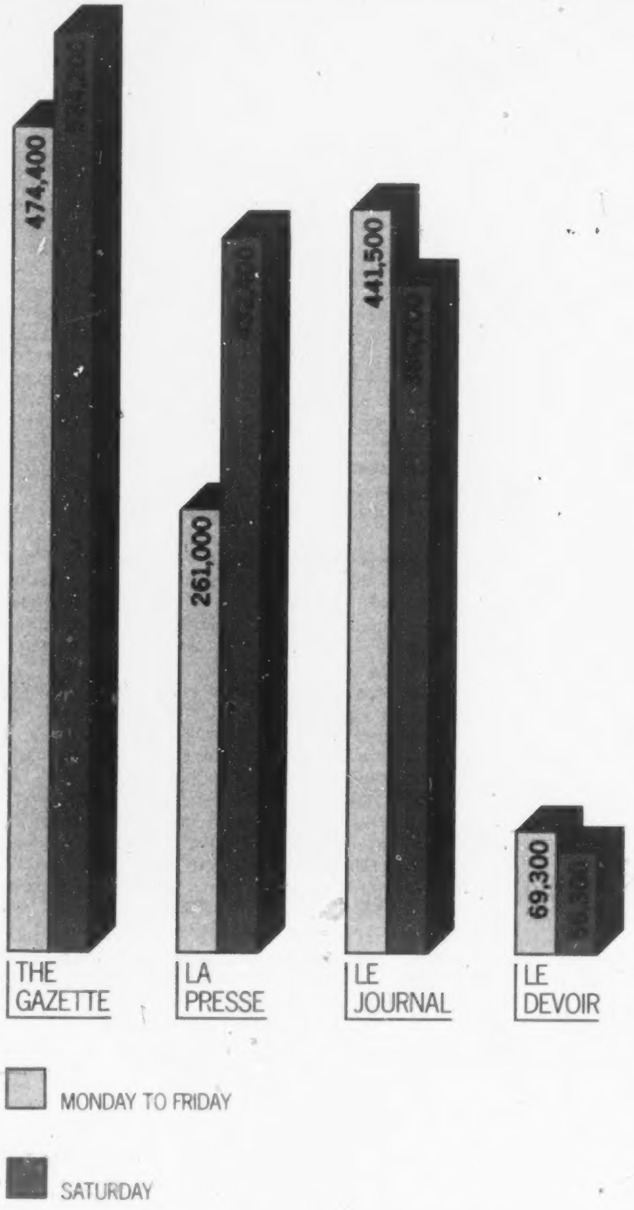
Caution: 1984 EBI projections for Canada

Effective Buying Income (EBI) estimates for Canadian counties are based on Census Economic Characteristics and Taxation Statistics reports, published by the Canadian government. Although the 1976 Census of Population redefined the legal boundaries of counties and cities, Taxation Statistics has not yet made this change and therefore does not provide the basic information required for making income projections to 1984. Nor has Canada yet released the Economic Characteristics report from the 1976 census.

Market Statistics, the research subsidiary of Bill Communications that prepares S&MM's *Survey of Buying Power* and *Survey II*, has tried to compensate for this lack of information by using the provincial totals provided by Taxation Statistics. Therefore, in projecting EBI per household to 1984 it makes *the assumption that every metropolitan area within the province will follow the same trend as the province itself.* The projected income per household of the metropolitan area is then multiplied by the projected number of households of the area to arrive at the projected 1984 total EBI. As a result, the 1984 EBI per household and total EBI data for the metropolitan areas are not directly comparable with last year's figures for plotting growth rates.

More Montrealers read The Gazette than any other newspaper.



That's just one of the important facts that came out of a recent study* commissioned by Montreal's four dailies.

Another fact is that 75% more adults whose family income exceeds $35,000 read The Gazette than the second ranking paper.

And, like our city, our readers are cosmopolitan, with almost 30% of them speaking a language other than English in the home.

That makes The Gazette an advertiser's first buy in Montreal, as well as one of the most cost-efficient buys in Canada.

*Study based on 2562 completed interviews with adults 18 and over in the Montreal C.M.A. by Canadian Facts Limited. Data on-line with I.M.S.

1 Updated from 1976 population census, **Total Population** is a head-count estimate of all **persons** living in the market at the end of the year. Includes the institutional population living in group quarters such as colleges and hospitals, and armed forces personnel (and their dependents) permanently stationed in the area; excludes tourists and transients. The 1984 projection is a straight-line projection based on the assumption that trends of recent years will continue.

2 **Percent change** between 12/31/79 and 12/31/84. The earlier year is the base period. A minus sign indicates a decline.

3 **Households** are units made up of families or unrelated individuals occupying a house, an apartment or other group of rooms, or a room regarded as a housing unit under the 1976 population census rules. The members of a household need not be related, and a single person living alone is also counted as a household. The 12/31/84 projection is based on population trends that will affect household size. After estimating average household size in 1984, this figure is divided into projected population to get expected number of households.

4 **Percent change** in the number of households between 12/31/79 and 12/31/84. The earlier year is the base period. A minus sign indicates a decline.

5 Expressed in **Canadian dollars, Effective Buying Income (EBI)** is a classification exclusively developed by Sales & Marketing Management. It is personal income less personal tax and nontax payments. Personal income is the aggregate of wages and salaries, other labor income (such as employer contributions to private pension funds), proprietors' income, rental income (which includes imputed rental income of owner-occupants of nonfarm dwellings), dividends paid by corporations, personal interest income from all sources, and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, provincial, and local), nontax payments (such as fines, fees, penalties), and personal contributions for social insurance. The resultant figure is commonly known as "disposable personal income." Compensation paid to military, diplomatic, and business personnel stationed overseas is removed from this total to arrive at Effective Buying Income. EBI for 1984 is stated in current dollars.

Effective Buying Income is a bulk measurement of market potential. It indicates the general ability to buy and is essential in comparing, selecting, and grouping markets on that basis. But for products that appeal to specific income classes, the percent of households by Effective Buying income groups, as reported in the July 28th *Survey of Buying Power*, should be considered.

6 **Percent change** in total EBI between 1979 and 1984, with 1979 as the base year, of a market's total EBI. A minus sign indicates a decline.

7 **Average Household Effective Buying Income** is calculated by dividing the number of households into the total EBI. Often used as an indicator of market quality, but it can be misleading, particularly in areas where there is a disproportionate share of college, military, and other types of institutional population housed in group quarters not considered households. Because the EBI of the institutional population is included in a market's total EBI, and such persons are not included in the household count, this in effect makes the average artificially higher than the average income of the actual households.

8 **Total retail sales,** updated from the 1971 retail trade census, are expressed in **Canadian dollars** and are net sales (minus refunds and allowances for returns) of stores engaged primarily in retail trade. Sales taxes collected from customers and receipts from repairs or other services are included. On the other hand, retail sales by such nonretailers as wholesalers and service establishments are not counted. Although retail sales are often used to gauge the purchasing power of the residents in a market, they are only an approximation because the market's volume may be affected by the movement of shoppers to and from adjacent areas, as well as by the purchase by nonhousehold units, such as businesses, and by the inhabitants of group quarters. They are actually a measure of the drawing power of local retail establishments. Retail sales for 1984 are stated in current dollars.

9 **Percent change** between 1979 and 1984, with 1979 as the base year, of a market's total retail sales. A minus sign indicates a decline

10 **Retail Sales Per Household** is a mathematical average calculated by dividing the market's total households into total retail sales. However, it should be used with caution because retail sales can include purchases by nonhousehold units within the market (such as businesses and residents of group quarters) as well as by households not domiciled within the market.

11 **Buying Power Index (BPI)** is a weighted index that converts three basic elements—population, EBI, and retail sales—into a measurement of a market's ability to buy, and expresses it as a percentage of the Canadian potential. It is calculated by giving a weight of 5 to the market's share of total Canadian EBI, 3 to its share of total Canadian retail sales, and 2 to its share of total Canadian population. The total of those weighted percents is then divided by 10 to arrive at the BPI. However, depending upon what your research has revealed about buyers of your products, you can construct your own customized BPI by using any of the factors contained in the tables and assigning to them what you think are relevant weights.

You'll be better

RED

In the new Edmonton Journal

And better blue, green, yellow — even better black and white.

Why such superior colour? It's all due to our new Web Offset newspaper presses. They're the most sophisticated in the world, and the results prove it. Brighter ads in spot or full colour. Sharper, snappier type. And a crisper look for your photos, art and illustrations.

With preset colour and registration controls, our new presses will guarantee consistent reproduction over an entire press run. Your ad will look just as good whether it's in the first or last paper coming off the press.

Get in the colourful new Edmonton Journal, where you'll be better red than ever before. And better read, too, by the more than 400,000 potential buyers in the Edmonton market area.

Contact your Edmonton Journal advertising representative for further details.

When you've got something to say to Toronto, say it in The Star

If you haven't considered Toronto as a prime target market for your product, consider this. Toronto is the largest city in Canada with a population of 2.9 million people, and still growing. It's Canada's commercial and financial centre. In 1978, it generated 9.7 billion dollars in retail sales — that's about 13% of Canada's total retail business activity.

In fact, Metro Toronto ranks 12th in importance as a North American target market*. And that should mean a lot to you.

To get to this major market, get your message in The Toronto Star. It's the economical and immediate medium to choose. You'll see why when you look at the alternatives.
More than 16 TV stations or cable programs are available to Torontonians. So are 35 AM and FM radio stations. There are three independent daily newspapers. But there is no other individual medium which gives advertisers such an effective reach of your potential buyers in the Toronto market as does The Star.

Take a look at the facts yourself. The Star's Monday to Friday circulation places it up there with the top 15 North American daily papers. And here's the breakdown.**

	Monday to Friday	Saturday	Sunday
C.M.A.	387,916	576,143	242,035
All other	96,848	204,534	99,140
	484,764	780,677	341,175

So if you have something to sell in Canada's most dynamic marketplace, The Star should mean a lot to you.

Executive, editorial, and circulation offices: 633 Third Ave., New York, N.Y. 10017.

(continued from page 168)

one whose growth rate topped Canada's in the last decade—22.9% vs. 11.1%. The three other regions trailed the national norm—Atlantic, 10.3%; Heartland, 9.1%; and Prairies, 3.3%.

The regional growth pattern will follow the same track in the first half of the 1980s, according to S&MM's *Survey of Buying Power—Part II,* but with a notable difference: the Atlantic provinces, sparked by Newfoundland's anticipated 6.1% gain, will grow faster than the all-Canada rate, 4.3% vs. 4.0%.

The West, riding a wave of newcomers drawn by the energy boom, will continue to be the fastest growing part of the country, racking up a 9.6% population increase. Oddly enough, metropolitan markets in that region will move along at sharply divergent rates. Alberta's metros are expected to post a robust 12.9% gain, but British Columbia's will make do with a modest 4.6%.

Although market growth has a distinct western coloration, the bulk of the Canadian market remains in the Heartland, especially Ontario. More than one of every three Canadians will still reside in Ontario at the midpoint of the current decade and one of four will live in Quebec.

Still, the westward drift of population is chipping away at the Heartland's economic supremacy. During the 1979–84 forecast period, the Buying Power Index (BPI) of the West will increase 3% while that of the three other regions will edge downwards—Prairies, off 2.6%; Atlantic, off 2.4%; and Heartland, off 0.3%.

The West's gain, however, will be a lopsided one. Alberta's BPI will spurt ahead 9.2%, but British Columbia's will sag 2.0%. ■

Advertisers' index appears on page 146.
